This has been appropriated as under :

Proposed Dividends

Equity	-	-
Preference	-	-
Tax on Dividends	-	-
General Reserve	1909.93	2074.80
Balance carried to Balance Sheet	-	-

On account of delay in the appointment of Statutory Auditors by the Central Government under section 619 of the Companies Act, 1956, your Directors regret that the accounts could not be laid before the members earlier.

The comments made by the Comptroller and Auditor General and the management's replies thereto are annexed as Annexure C. The management's replies to the comments of the Statutory Auditors are annexed as Annexure D. A statement on the review of accounts by the Accountant General is also attached as Annexure-E.

### OPERATIONS:

The year under review was the twenty-fourth year of commercial production. The operational highlights during the year 1999-2000 with comparative position in the previous year 1998-99 were as follows :

Annual Report 1999-2000

PLANT	PRODUCTION (M.T.)	
	1999-2000	1998-99
Methanol-I	nil	nil
Methanol-II	25423	26333
Formalin-I	nil	286
Formalin-II	17537	16995
Petrolite R-50	nil	nil
Petrolite-M	nil	nil
Liquid Carbon-di-oxide	115	24

	CAPACITY UTILIZATION	
	1999-2000	1998-99
Methanol-I	nil	nil
Methanol-II	77%	80%
Formalin-I	nil	2%
Formalin-II	53%	51.5%

Production from Methanol Unit I was suspended since February, 1998 due to high cost of production. Methanol Unit II had to be run on lower load, as there was a glut in the market resulting from import of cheaper Methanol. Lower capacity utilization as compared with 1998-99 could be attributed to power interruption, low natural gas pressure and high stock. Further, the plant was shutdown for a number of days in the month of June for maintenance of reformer tubes and heavy end make reboiler, following which, four reformer tubes had to be plugged and the plant could be run at an average load of only 80% for the rest of the year. The overall performance of the plant was satisfactory.

Production from Formalin Unit I was kept suspended during the year due to low market demand. Capacity utilization of Formalin Unit II was lower as compared with 1998-99 due to low market demand resulting mainly from the closure of plywood factories in the northeastern region.

Due to lack of market demand for Petrolite R-50 and Petrolite-M, production from the plants continued to remain suspended.

Liquid Carbon-di-oxide was produced on need basis as per market demand.

The sales of the products were commensurate to production and the gross turnover for the year was Rs. 3393.96 lacs.

#### **DIVIDEND**

Your Directors could not recommend dividend to the equity shareholders for the financial year as the company suffered a net loss during the same.

Though the financial position of the company at the time of this report is satisfactory, the international price of Methanol is on a downward trend and further downside is expected, which would adversely affect the profitability and liquidity of the company. Further, the company will also be undergoing major maintenance work in Methanol Unit II by way of replacement of reformer tubes during August, 2001 involving significant investment.

**Annual Report 1999-2000****DIRECTORS**

After transacting all other business, the Annual General Meeting held on 28th September, 2000 was adjourned for adoption of accounts. The Board, immediately after the said meeting comprised of :

## ANNEXURE- 'A'

## Annexure to the Directors' Report (1999-2000)

(Additional information in terms of notification GSR No. 1029 dated 31st December 1988 issued by the Department of Company Affairs.)

**A. CONSERVATION OF ENERGY :****a. Energy conservation measures taken :**

The process technologies adopted in the plants were energy efficient. The Company selected the most developed ICI Low Pressure Methanol technology and the Humphreys & Glasgow Reformation Process for manufacture of Methanol & Derivados Forestales, Netherland's technology for manufacture of Formaldehyde. Waste heat has been recovered to produce steam required for the process, thereby preventing heat from being radiated to the atmosphere. Heat exchangers were well insulated to prevent heat loss. Cooling water used in heat exchangers was totally recycled to prevent pollution and loss. Steam condensates were recovered and recycled back from the Turbo generator. The plants were operated to the complete satisfaction of the Pollution Control Board of Assam.

**b. Additional investments and proposals, if any, being implemented for reduction of consumption of energy :**

There was no such proposal in the year under review.

**c. Impact of the measures (a) and (b) above :**

The specific consumption of electricity and fuel natural gas was well within the tolerance limit. The company had a pollution free environment.

**Annual Report 1999-2000****(Annexure 'C')**

Annexure to Director's Report (1999-2000)

**MANAGEMENT'S REPLIES TO THE COMMENTS OF THE COMPTROLLER & AUDITOR GENERAL OF INDIA UNDER SECTION 619 (4) OF THE COMPANIES ACT, 1956 ON THE ACCOUNTS OF ASSAM PETROCHEMICALS LTD. FOR THE YEAR ENDED 31<sup>ST</sup> MARCH, 2000.**

**C & AG'S COMMENTS****MANAGEMENT'S REPLIES****1. BALANCE SHEET****(i) Capital Advance : Rs. 10.96 lakh**

This includes Rs. 0.94 Lakh being the amount paid to the contractors in respect of works already completed but the same, has been lying unadjusted since 1980-81. Due to non-provision of the same, capital advance stands overstated by Rs. 0.94 Lakh with corresponding understatement of loss to the extent.

Necessary adjustment is being made in the Accounts of 2000-2001.

**(ii) Preliminary and Pre-operative expenses****Rs. 4.63 lakh**

The above includes a sum of Rs. 2.10 lakh for 300 TPD Methanol Plant, which is unlikely to materialize. Non-provision for write off has resulted in overstatement of preliminary expenses by Rs. 2.10 lakh and understatement of loss to that extent.

Action is being taken to write off the same in the year 2000-2001.

**2. General**

Disclosure has not been made for Contingent Liability for Rs. 3.60 lakh in respect of a suit filed against the Company by some of its Officers.

Noted, the Contingent Liability will be disclosed from next year's accounts.
