j) MANAGEMENT DISCUSSION AND ANALYSIS :

The activities of the company are limited and the size and the turnover is small. As such, the management discussions are an ongoing process and doesn't merit special mention. However, a gist of discussions and analysis is presented :

Industry Structure and development – The company was an NBFC not allowed to raise deposits. However, the company has been de-registered as an NBFC by RBI. The business is largely by way shares and yarn trading. The yarn trading and consignment agent activity at Ichalkaranji is progressing smoothly.

Opportunities and threats - Further, investment in shares has its pitfalls in terms of market conditions. Yarn trading activity requires huge investment and recoveries of payment can be termed as a threat. However, due care is taken by selling the material largely through reputed brokers. In terms of opportunities, investment in shares can give reasonable returns in the present booming share market. Yarn activity is a sustaining business and hence can provide business opportunity.

Segment wise performance – The company has booked reasonable income from investment in shares and from interest income. There have been no new NPAs. Yarn activity has shown profits in this year.

Outlook – The yarn business is encouraging and so is the investment in shares.

Risks & Concerns - The primary concern is security of advances given. Hence, all new advances are given on the basis of personal standing of the party in the market and any one of the Director personally knowing the concerned party. There is concern in receivables in yarn business and reasonable care is taken.
