As the company has suffered loss during the year under review, the company is unable to declare a dividend on the Equity shares.

Operations

Sheet Metal Division

Contraction of demand with escalating input costs and reduction in prices in view of mounting competition had a deleterious effect on the operations of the Sheet Metal Division. Eventhough in volume terms there was a slight improvement in the off-take vis-a-vis the previous year, the overall operations have resulted in loss.

10

All efforts to reverse this situation have proved futile in view of off-take being much below the economic batch sizes. Unless the commercial vehicle industry comes out of the long recessionary phase that it has been passing through for the last 3 years, there appears to be no possibility of coming out of the present situation.

The location of the main factories at Goa - away from the availability of raw material as well as the market for the products - is proving to be a big stumbling block in getting new business. Most automobile manufacturers on whom the ancillaries like ours depend, invariably expect the vendors to be around their factories to avoid transportation, packing, handling and other costs associated with long distance vendors.

Nevertheless, the company has, with the help of promoters and ICICI - drawn up a restructuring plan which is under their consideration.

Bus Body Division

The Bus Division has once again been able to produce a very low volume of only 269 buses for the year ended 31.3.2001, due to lack of demand.

Ever since its inception, the bus division has fared poorly, notching up losses almost every year in which it has operated so far. In spite of excellent infrastructure and technology, the division has not been able to position itself in the bus market of the country, mainly due to :-

- i) High cost of production,
- ii) Stiff competition from the unorganised sector,
- iii) High break-even due to large investments made.

Your company has made continuous efforts to find a lasting solution to this endemic problem. The restructuring plans submitted to ICICI also deal with this issue.

AUTOMOBILE CORPORATION OF GOA LIMITED

Air Suspension System

The Air suspension systems for which the company has collaborated with M/s Holland Neway Intl. Inc., USA (HNI) (formerly known as Neway Anchorlok International) has had to make a very slow progress owing to the long homologation/testing procedure of Telco. The commercial production of Tata Bus chassis with the HNI Air Suspension System is now expected to commence by end August, 2001. The company is hopeful of achieving steady sales once the chassis fitted with such systems are available to customers across the country.

Finance

As the cash losses continued unabated, the operations of the company suffered due to cash crunch. To keep the operations continuing, the company had to resort to short term borrowings in the form of Inter Corporate Deposits from the promoters - Telco. The amount raised upto 31.3.2001 was Rs.2,75,00,000/-.

A further Rs. 1,40,00,000/- has been raised as at the end of August, 2001 making a total of Rs. 4,15,00,000/- in the form of ICDs from Telco. Rs.2.02 crores - being the second instalment of redemption of 17% NCDs issued in 1992 was paid on 31.12.2000. The last instalment is due on 31.12.2001.

The promoters Telco and EDC, and the Unit Trust of India have been requested to consider conversion of Debentures - with accumulated interest to Preference shares and this issue is under the consideration of UTI.

The first instalment of principal amounting to Rs. 78,57,142/- in respect of Term Loan of Rs.11.00 crores availed from ICICI in 1998 fell due on 15th May, 2001. ICICI has been requested to grant a moratorium of 2 years - with other reliefs as outlined in the restructuring plan submitted to them.

Restructuring plans :

The Company has submitted a Restructuring plan to

ICICI in June, 2001 outlining a turnaround plan which has been drawn in consultation with Telco. The Plan includes :-

- i) Enhancing Capacity Utilisation with additional load in Pressings and Bus divisions.
- ii) Substantial reduction in costs - through an Employee Separation Scheme and other measures.
- iii) Recapitalisation of the Capital Structure by issue of Preference Shares.

The plan is under consideration of ICICI. In the meanwhile, the company is in the process of enhancing capacity utilisation as per plans. Necessary resolutions to enable the Board to issue Preference Shares have been included in the Notice convening the Annual General Meeting for the consideration of the members.

Audit Observations**1. Note 5 Schedule 16 - "Going Concern"**

The Auditors have made a reference to the fact that the accounts have been drawn on a "going concern" basis in the context of continuous losses made from the financial year 1998-99. Even though, measured against many parameters as contained in Standard Accounting Practice No.16 issued by the Institute of Chartered Accountants of India, the financial indicators lead to the conclusion that the "going concern" basis is in doubt, the fact that a restructuring plan has been drawn and is being finalised in consultation with the promoters and the main lenders leads to optimism. The Directors are hopeful that with the successful implementation of the restructuring plan, the company will eventually turn the corner and return to the path of profitability and growth.

2. Note 6 Schedule 16 - Investment in Ashiyana Autobodies Limited

The Auditors have drawn the attention of members to the investment made (Rs.45.50 lacs) in Ashiyana Autobodies Ltd., in 1998, in view of further losses incurred by that company. The majority shareholders have, as in the past years, made ef-
