Explanatory Statement pursuant to Section 173 of the Companies Act, 1956

Item No. 6:

The appointment of Mr. Ananth Prabhu as Whole time Director for five years with effect from 21st March 2001 was confirmed by the members at the 21st Annual General Meeting held on 28th September, 2001.

The Board of Directors at their meeting held on 29th January, 2006 re-appointed Mr. Ananth Prabhu for a further period from 21.03.2006 to 25.08.2008. An abstract of terms of appointment was sent to the members as required under Section 302 of the Companies Act, 1956.

The salient terms of appointment are as follows:

1. Tenure – 21.03.2006 to 25.08.2008
2. Remuneration
 - A) Salary: Salary in the scale of Rs. 50,000 to Rs. 1, 10,000 per month with annual increments effective from 1st April every year as may be decided by the Board based on merit and Company's performance; incentive remuneration, if any, and/or commission based on certain performance criteria to be laid down by the Board, benefits, perquisites and allowances as may be determined by the Board from time to time.
 - B) Minimum Remuneration: If in any financial year during the term of appointment, the Company has no profit or its profits are inadequate, the Company will pay remuneration by way of salary, incentive remuneration, perquisite and allowances as specified above.

The aggregate of remuneration as aforesaid shall be within the maximum limits as stipulated under Section 198, 309 and other applicable provisions of Schedule XIII to the Companies Act, 1956 as amended from time to time.

The terms and conditions of appointment may be altered and varied from time to time by the Board as it may, in its discretion, deem fit. Either party giving the other party three-month's notice or the Company paying three months salary in lieu of notice may terminate the Agreement.

If at any time the Whole-time Director ceases to be a Director of the Company for any cause whatsoever, he shall cease to be the Executive Director/Whole-time Director of the Company. If at any time the appointee ceases to be in the employment of the Company for any cause whatsoever, he shall cease to be a Director of the Company.

Rs. In Lakhs

Dividend

The Directors recommend payment of Rs. 8/- per share (80%) as dividend on the equity shares of the Company for the year.

Operations

The year was yet another milestone in the history of the Company. The volumes grew substantially in both the business segments. The revenues as a whole grew by over 60% from Rs. 158.62 Crores in 2004/05 to 255.25 Crores in 2005/06. Notwithstanding aggressive cost reduction efforts, which resulted in cost saving of Rs. 388.50 Lakhs during the year, the input costs surged drastically putting pressure on margins. Corporate tax at the applicable rate vis-à-vis MAT in the previous few years affected the Profit After Tax significantly. In the backdrop of this scenario, the higher earnings per Share of Rs. 29.65 as against Rs. 26.72 in the previous year is a very creditable achievement.

Sheet Metal Division

The pressings business grew by 17% during the year. As per plans, one Press was shifted and commenced production at Jejuri Pressing Unit.

On a review of the plans to shift the pressings operations from Goa, it is proposed to establish a new Press Shop in Pune to avoid logistics cost and improve business prospects.

493 small buses were produced at the main plant of the division at Goa. This has provided valuable learning opportunity to the employees of the division. As the Company plans to convert the main plant at Goa into a full-fledged Bus Body building facility by shifting the existing presses to get closer to the market, this experience will prove very useful.

Bus Body Division

3004 buses were sold during the year - an increase of 82% over the previous year. The division achieved substantial increase in volumes with minimum capital expenditure by introducing parallel production lines with the requisite facilities and improvements in production processes particularly in painting. The ramping up of volumes necessitated a well-coordinated production planning process from chassis positioning to material sourcing; inventory management; production and quality control to after sales service.

The volume growth achieved has resulted in boosting the self confidence of the division to set far higher targets for the future. The expansion of capacities with marginal investments in balancing equipment and optimum resource positioning will be a challenge and the Company is confident of setting up new milestones in times to come.

The Bus body building industry is poised to witness exciting times ahead with many international bus and coachbuilders firming up their plans for an India debut. The Company will work with Tata Motors to ensure that it plays an important role in all their plans for the development of bus market – both domestic and international.

The rising export demand during the last few years has resulted in the Company's reduced visibility in the domestic market. To rectify this anomaly, the Company plans to introduce a new model bus in the domestic market in the first quarter of the current year. The Company has valuable brand equity as a safe, fuel-efficient and value-for-money bus body builder in the country. The new model introduction has evoked encouraging response from old customers and, depending on the success, newer models will be introduced in the domestic market starting from this year.

HRD and Industrial Relations

Human Resource Development efforts were intensified during the year vigorously. Continuous communication, well planned training programmes with a clearly laid down training calendar, suggestion schemes with rewards to share the expected gains from implementation, common uniform from the top management to operators and several such initiatives received encouraging response with all the employees enthusiastically participating in the efforts to achieve greater customer satisfaction.

With a view to prepare the employees to face the expected competition from international players, the training programmes are being further broad based with emphasis on minimum mandatory training requirements for improved performance appraisal and rewards.

Corporate Social Responsibility

The social welfare initiatives of the Company continued during the year. The Company takes part in the annual polio eradication drive. In consultation with the community leaders, various initiatives have been taken to assist the local school children with Uniforms, Scholarships etc. Assistance is also extended in building a community hall for the villagers around the Bus division plant.

The Company actively takes part in the education development efforts of local educational institutions. The local Industrial Training Institute is assisted in training programmes and given opportunities for in-plant training. The Company also actively participates in all the activities of trade, industry and management associations in Goa.

Corporate Governance

A separate section on Corporate Governance forming part of Directors' Report and the certificate from Company's auditors confirming compliance of Corporate Governance norms as stipulated in the revised clause 49 of the Listing Agreement with the Bombay Stock Exchange Limited is included in the Annual Report.

Finance

The members will recall the infusion of capital in the form of Preference shares by the promoters – Tata Motors Ltd. and EDC - amounting to Rs. 920.06 Lakhs during 2002/03. As per the terms of issue, the Preference shares were to be redeemed at the end of 8 years or earlier at the discretion of the Board. In view of free cash flows generated from the operations, the Board of directors decided to redeem the Preference shares at par during the year. The Directors have placed on record their deep appreciation of the timely infusion of capital by the promoters, which immensely helped the Company in turning-around the operations.

The Jejury Pressing Unit also reached the threshold limit of Rs. 484.28 Lakhs as Interest Free Sales Tax Deferral/Loan. This interest free loan is repayable in five equal annual installments after 10 years from the date of availment.

To take advantage of the emerging opportunities of raising demand for buses, the Company proposes to substantially increase capacity as also up-grade and modernize the bus body building facilities. This along with the proposal to establish a new pressings unit in Pune will entail a capital expenditure of around Rs. 75 Crores. The Company proposes to issue further equity shares to the existing shareholders on Rights basis to raise requisite funds for this purpose. Details of the issue will be conveyed to the shareholders in due course of time.

Directors

In accordance with the requirements of the Companies Act, 1956 and the Articles of Association of the Company, Mr. S V Salgaocar and Mr. Ananth Prabhu retire by rotation and are eligible for re-appointment. The Directors recommend the re-appointment of Mr. Salgaocar and Mr. Prabhu

Consequent upon completion of his term as Whole-time Director on 20th March 2006 in terms of the resolution of the members passed at the 21st Annual General Meeting, the Board of Directors have re-appointed Mr. Ananth Prabhu for a further term ending on 25th August 2008 subject to the approval of the members. Necessary resolution has been included in the Notice convening the 26th Annual General Meeting and the Directors recommend the re-appointment of Mr. Prabhu.

ANNEXURE TO DIRECTORS' REPORT

Information required under the Companies (Disclosure of Particulars in the Report of the Board of Directors) Rules, 1988.

A. Conservation of Energy

Judicious use of energy efficient methods was pursued vigorously during the year. The electricity supply at the plants in Goa has been erratic – both in terms of supply and voltage fluctuations. High capacity Automatic Voltage Regulators has been installed at all the Goa units to stabilize incoming voltage and improve power factor.

Voltage drop corrections and power factor improvements from 0.95 to 0.99 helped in achieving over 30% cost reduction in electricity cost per bus.

Demand balancing efforts and leakage elimination resulted in over 60% saving in compressed air costs per bus whereas reduction in cost of LDO was through TPM.

CO2 banks approach reduced the consumption of CO2.

B. Absorption of Technology, Research and Development (R & D)

1. Specific areas in which R & D carried out by the Company

- Bus with Starbus features on LPO 1316/55 Chassis designed and product ionized for Export Market.
- Special bus on LPO 709/38 chassis specifically for dental application fabricated with all provisions required operating dental clinic in the bus itself.
- A low cost bus based on City Ride concept fabricated on LP 709/38 chassis.
- RE-SLF buses designed for airport application in both AC and Non AC versions.
- Buses with Starbus features for Ivory Coast with front and center door product ionized on LPO 1316/55 chassis.
- Globus with improved product features designed and exhibited at Auto - Expo 2006.
- Existing model 6HD upgraded and specifications standardized for Middle East Market to facilitate mass production.
- Weight optimization for cost reduction.
- Low floor Monocoque bus developed for airport and city bus application.

2. Benefits Derived from R & D

- Customer options for higher end bus through introduction of Starbus in Gulf and African markets.
- Expanded economy bus range through introduction of bus models on LP 709/38.
- Higher production volumes through Standardization of specifications.
- Enlargement of customer options and consequent demand expansion
