Dividend

The Directors recommend payment of Rs. 10/- per share (100%) as dividend on the equity shares of the Company as on the record date i.e. 18th May, 2007 for the year.

Operations

The year under review established new records for volumes, revenues and profits. The revenues as a whole grew by over 31% from Rs. 255.25 Crores in 2005/06 to 335.76 Crores. Cost reduction efforts maintained the previous year's tempo resulting in saving of Rs. 4.35 Crores during the year.

As informed to the members in the last report, an expansion and modernisation plan has been drawn entailing an investment of approximately Rs. 70 Crores. Implementation of this plan is in full swing. A separate Projects group has been established to oversee the smooth implementation of the expansion and modernisation program.

Sheet Metal Division

The pressings business achieved a growth of 13% over the previous year. A Lean Manufacturing Program has been launched at the main Pressings unit at Goa which is expected to improve the plant efficiency significantly. The learning from this experiment will be transferred to other pressings units of the Company upon completion of this program in the current year.

The Company is in the process of converting the main Sheet Metal plant at Goa into its second complete Bus Body Building plant with state of the art facilities including a modern paint shop. This facility would be equipped to manufacture all varieties of Buses but would be focused on High Deck Luxury Coaches with technology inputs from Tata Motors.

The Company is in the process of establishing a Press Shop at Pune and all the presses and related equipment at Goa are being shifted to this new facility. This project is expected to be completed by 2009/10.

The Jejuri Pressings Unit was selected as one of the participants for the Cluster Training Program of CII under which, for one year, a CII counselor makes fortnightly visits to the unit for assessment of implementation of advanced manufacturing techniques such as 5S, Kaizen, Pokayoke etc.

Bus Body Division

The Bus sales volume grew by 31% to register an all time record of 3929 buses during the year. The parallel production lines established at the plant were put into normal production mode during the year under review which aided in significant improvement in expanding the volumes in spite of introduction of various new models during the year.

The Company has to continuously improve/modify its Buses. During the year a Proto-type shop was established exclusively for this purpose and was equipped with all necessary facilities including manpower.

Key vendors located outside the state of Goa are being encouraged to set up manufacturing/distribution points near the plants to improve supply reliability. This also results in lower logistics costs and improved inventory management. The initiative has met with enthusiastic response with several major vendors already establishing such supply points near the plants.

Investments in plant and equipment as also ancillary facilities have been planned and are under implementation to expand the plant capacity at the Main bus body plant to 5000 buses per annum. These plans are expected to be completed by mid-2007/08. Eventually this plant along with the second facility at the sheet metal plant at Goa would take the annual capacity to 10000 buses per annum.

HRD and Industrial Relations

As per the agreement with the unions, the wage settlement was due with effect from 1.04.06. During the year cordial negotiations were held with the unions and a settlement was arrived at which is valid for a period of 3 years.

The Company also embarked on a training and recruitment drive to prepare the Human Resource base for the expansion plans.

Reputed HR consultants are being engaged for focused training in areas such as Team Work, 4 keys to Success, and Supervisory Development programmes.

Corporate Social Responsibility

As a responsible corporate citizen operating in pristine rural surroundings, the Company has been engaging with the local residents around the plants to maintain harmonious relations in the community. Regular contact with the villagers and initiatives to benefit the local community are taken up from time to time. Assistance to local residents in the form of Scholarships to local children, free uniforms and books and assistance in emergencies and in health improvement initiatives continued during the year.

The Annual Blood Donation campaign receives an overwhelming response with the collection far exceeding the target set by the organizers.

Local educational institutions and ITIs are afforded opportunities for practical training. Many engineering and technical institutions from the neighboring states visit the plants as a part of their academic programs.

The Company has been taking part in local trade and industry fairs basically with a view to encourage local industries and entrepreneurs to register with the Company as vendors for supply of goods and services.

Corporate Governance

A separate section on Corporate Governance forming part of Directors' Report and the certificate from Company's auditors confirming compliance of Corporate Governance norms as stipulated in the revised

clause 49 of the Listing Agreement with the Bombay Stock Exchange Limited is included in the Annual Report.
