## About DMart

**DMart was conceived by value investor Mr. Radhakishan Damani in the year 2000, who at the time was operating a single store in Maharashtra. With a mission to be the lowest-priced retailer in its area of operation, DMart has grown steadily over the years, and operates 324 stores in 10 States, 1 Union Territory and NCR. The Company has delivered stable performance across stakeholder metrics by focusing on financial fundamentals, with fortitude and strong conviction.**

### OUR BEGINNING

By the late 1990s, our founder, Mr. Radhakishan Damani, was already established as one of the more successful and well-known value investors in the Indian equity markets. Through his investing style, he had developed a very keen understanding of the Indian consumer sector and its psyche. He was anxious to start a business beyond investing, which would enable him to test his hypothesis about the Indian consumer. After a couple of years of introspection and research, he decided to start a grocery retail chain, focusing primarily on the value segment.

DMart, our retail chain, was conceived by him in the year 2000. Mr. Damani imagined the retail business with the same values of simplicity, speed, and nimbleness that he espoused in his stellar investing career.

A focus on financial fundamentals, high levels of patience and strong conviction have been the bedrock on which the Company's values and business direction have been built.

DMart took eight years to start its first ten stores. This wasn't because of dearth of investment opportunities, but more because of his belief in the importance of validating the business model from a perspective of both profitability and scalability. His beginnings at DMart were frugal. For a number of years since inception, DMart's corporate operations were run from a small space carved out from one of the early stores. He and his early leadership team worked together as one cohesive unit without any hierarchy or barriers.

More importantly, from the very beginning, he had the foresight to understand and strongly believed that any business needs the right blend of entrepreneurship and professionalism. Entrepreneurship to build and strengthen the concept in its formative years, and professionalism to allow a committed team to create, sustain and grow a scalable business model into the future.

Today, DMart continues to focus on this early belief system created during our formative years. We have a good blend of entrepreneurial spirit and high-quality execution. We humbly attribute our success to the values and the way of business thinking that our founder has instilled in us.

# Presence and Expansion Strategy

**DMart has a consistently growing presence across India**

At DMart, we follow a cluster-based expansion approach. We thus focus on deepening our penetration in the areas where we are already present, before expanding to newer regions. Using this strategy, we added 40 stores in FY 2022-23, thus ending the year with 324 stores, spread across 10 states, 1 union territory, and NCR.
