GD was one of ten EHR vendors selected to demonstrate ASCO's EHR Guidelines and quality initiatives during the 2009 EHR Lab at ASCO's Annual Meeting in Orlando.

Currently several implementations are in the pipeline fueled by recent enactment of AARA Act and E-prescription incentive payments.

OUTLOOK:

B2B has been affected by the market slowdown. This year's company budget and projections are not very encouraging. We are hopeful that the market will turn around towards the end of this financial year and we can improve our company financials & performance. The company has adequate cash flows and existing pipeline to sustain through the down turn through this financial year. B2B is on a cost cutting exercise.

Risks and Risk Mitigations:

Microsoft dynamics being a growing business, new entrants into the market and competition will continue to exert pricing pressure undermining industry profitability. Strategic positioning and generating higher levels of economic value by continuing to build IP and offer value added services around verticals and add ons is mandatory.

Scale of operations is limited to the existing level unless a fresh funding route is identified.
