## CHAIRMAN'S STATEMENT

## Moving Ahead to Create Sustainable Growth...

**Bank on the path of  
consolidating its position  
as a premier Public Sector Bank.**

**M. D. Mallya**

*Chairman & Managing Director*

### Dear Stakeholder,

**D**espite the fact that the year 2007-08 was a tough and challenging year for the banking industry on account of rising inflationary tendencies, sustained monetary tightening and consequent pressures on margins and profitability, the Bank could very well maintain its growth momentum and overall progress set in the recent past. Touching its global clientele base at 33 million, the Bank comfortably achieved the global business level of Rs 2,58,735.45 crore by the year-end. I am also happy to report that the Bank achieved all the SOI (Statement of Intent) targets pertaining to business, profitability and asset quality that it had committed to the Government of India for 2007-08.

### New Initiatives

In the pursuit of becoming a “multi-specialist bank”, the Bank took a slew of business oriented and customer-centric initiatives. The spree of CBS rollout covering over 1,700 branches in India and overseas, accounting for more than 90.0 per cent of the Bank’s total business, and expansion of ATM network to touch the count of 1,100 continued in the year 2007-08. The Bank launched biometric ATMs and took many other technology-

driven initiatives such as online payment of direct taxes, Baroda Easypay and online Railway booking facility. During 2007-08, the Bank opened a record number of 125 branches, merged four branches and opened two Gen Next Branches focusing on young IT professionals in Pune and Bangalore.

Amidst various sales and marketing campaigns during the year, the total number of Retail Loan factories reached 15 and SME Loan Factories 27. The Bank believed that, in tune with the spirit of "multi-specialist banking", the product offerings should largely cater to the varied life cycle and life style needs of different customer groups. In this backdrop, a number of new assets and liability products were launched. Adding further to the stream of new wealth management products, the Bank entered into tie-up arrangements with India Infoline Ltd. for offering to its customers online e-trading facility in equity and derivatives, and with a few more global asset management companies for distribution of mutual fund products.

Fully aware of its social role, the Bank contributed materially to the cause of the rural development of the country in terms of major initiatives taken in rural and agricultural banking. The Bank identified 500 villages for 100.0 per cent financial inclusion and adopted many rural areas for their integrated and overall development.

### Business Performance Highlights

The Bank continued scaling new heights of business size recording global business growth of 24.07 per cent during 2007-08. Its domestic deposits increased by 22.82 per cent and domestic advances rose by 25.63 per cent. The priority sector credit more than comfortably attained the

mandatory requirement and formed 47.10 per cent of the Bank's net credit. The Bank recorded a growth of 31.11 per cent in SME credit with farm credit increasing by 28.0 per cent and Retail credit by 17.97 per cent despite a noticeable deceleration in credit growth at the banking industry level.

During 2007-08, the Bank's overseas business grew by 24.56 per cent primarily due to a substantial increase of 35.70 per cent in overseas advances. The overseas business contributed 20.0 per cent to total business and 23.8 per cent to net profit. The level of net profit at Rs 1,435.52 crore for the year 2007-08 reflected a robust year-on-year growth of 39.9%.

On the front of asset quality management, while the Gross NPA in domestic operations stood at 2.18 per cent at end-March 2008, the same for Overseas Operations was just 0.55 per cent. The global Net NPA was pegged at 0.47 per cent by the year-end 2007-08 in line with the promise given by the Bank to its stakeholders.

### The Centenary Year

On the 20th July 2007, the Bank entered its Centenary year. In its quest to become a world-class bank with global best practices, the Bank is, now, well poised to take-off with the most modern business and HR systems and processes. The Bank

has already initiated myriad HR interventions with special thrust on internal talent discovery, upgrading the managerial skills through training, and improving the motivational level of the employees of the bank. The Bank engaged the services of a world-class HR Consultancy firm for the next-generation leadership management in the Bank.

The foundation for a comprehensive web-enabled HR System called HRnes was laid as one of the key innovative projects in the Bank. Your Bank also

#### 2007-08 Highlights

**+ Rs. 250,000 Crore  
Global Business Size**

**+ 24%  
Worldwide Business  
Growth**

CBS Branches**

**+ 1100  
ATMs**

completed the process of KHOJ-II identifying talent in various critical functional areas like Credit, Forex, Treasury, I.T. , Marketing and Retail Banking.

### The Challenges Ahead- Regaining the Leadership Position

Backed by the great vision of the founding father, Maharaja Sayajirao Gaekwad III, your Bank has a rich heritage of many flagship achievements, pioneering endeavours and an undisputedly strong place in the Indian Banking industry today. The Bank has seen many ups and downs over a period of 100 years but stood undaunted to surmount all hurdles, coming out with flying colours and reinforcing its strong fundamentals. The world was convinced time and again that this is the Bank with impregnable foundation and immense potential to forge ahead to contribute to the nation's economic growth.

Business transformation is an unabated process with regular adjustments in business strategies in accordance with the market demands and Bank's set objectives. The Bank has built up a strong business regime touching the global business level of Rs 2,58,735.45 crore. The future business growth has to be broad based and sustainable on basic banking principles of expansion and consolidation. Cost Control and technological advancement as enablers in dispensation of best quality customer service shall be the focal point of the Bank's business plan.

I am sure, in the back of HR reforms and continuous improvements in various systems, processes, and structures in the Bank, the Bank shall make an immaculate concerted effort to regain the market leadership in the banking industry in near future.

### Our Corporate Goals & Strategy

**“To leverage technology as an enabler for providing superior customer experience and broad-based business expansion with cost consciousness”.** Our strategies to achieve our corporate goals and objectives will be as follows :

- Primary thrust on protecting the NIM by improving the CASA share.
- Improving the share of Retail/SME business in total business without compromising the asset quality.
- Leveraging technology/re-branding exercise to extract maximum benefits, recruitment of specialised marketing staff.
- Targeting on improving non-interest income through innovative Wealth Management Products.
- Special focus on improving “relations” with the existing corporate customers as well as efforts to add new quality customers to the Bank's Book.
- Thrust on business process reengineering to reduce the “transaction costs”.
- A dedicated effort to add 2.5 to 3.0 million quality customers to Bank's book in FY09 and in subsequent years.

In our future journey, I solicit your continued cooperation and patronage.

**M. D. Mallya**

*Chairman & Managing Director*
