BIG CHALLENGES BIGGER OPPORTUNITIES

BCL is an established player in the edible oil industry, with a legacy of over 4 decades in the business. Our expertise lies in - processing of oilseeds to producing the final packaged edible oil - with the help of our completely integrated manufacturing unit. BCL has also established itself nationally in the distillery business with over a decade of experience and by producing one of the best qualities of grain based Extra neutral Alcohol and Ethanol.

The Company started off with a small oil mill in the edible oil business but with relentless efforts we have grown to become one of the prominent Edible Oil manufacturers in North India. Gradually we expanded into the distillery business smoothly. With our humongous experience and resilience to consistently grow, we have strategically increased our contribution of revenues from the distillery business so as to match it with the edible oil revenues and mitigate the risk.

BCL supplies ENA to multiple locations across India and we are one of the most preferred partners for several IMFL and IMIL brands in the country. Furthermore in this business, we are also benefitted by the government's efforts in blending Ethanol with petrol as we have diverted some portion of our capacity for it. Our distillery is a state-of-art manufacturing facility which derives utmost efficiency of all the raw materials resulting in superior output. The company has undertaken expansion initiatives to address the growing demand in the domestic markets, by planning installation for a new state-of-the-art Distillery of 200 KLPD with 8.0 MW co-generation power plant in Kharagpur, West Bengal.

BCL has been always focusing on sustaining all the odds and nevertheless to give the best results. We have historically proven this by consistently growing in the edible oil business despite all the volatility in the business & industry. Alongside, we have also developed our distillery business to be one of the most reliable suppliers of ENA in the country for many IMFL and IMIL brands. During the recent pandemic, there was an increased demand for hand sanitisers and the company saw an opportunity in it, hence commenced the production of the product under its own brand and received a great response for it, going forward this would be a growth area for the company. As everyone is aware the situation was difficult and as mentioned earlier we will continuously put more efforts to gain the momentum back.
