After providing for interest of Rs. 81.62 Lacs and depreciation of Rs.70.06 Lacs, the company has made an operating loss of Rs.15.06 Lacs as against loss of Rs. 37.73 Lacs during last year. After providing for Taxation of Rs. 1.25 Lacs and short provision of income tax of Rs. 0.82 Lacs, the deficit of Rs. 17.13 Lacs is carried to Balance Sheet.

#### DIVIDEND

In view of operating loss sustained during the year under report, your directors are unable to recommend any dividend for the year.

#### REVIEW OF OPERATIONS

During the year under report, your company has achieved a turnover of Rs. 2498.77 Lacs as compared to Rs.1987.91 Lacs during the previous year.

The year under report has resulted in to operating loss of Rs. 15.06 lacs mainly due to allround increase in input cost coupled with higher marketing expenses under stiff competition prevailing in the market for sale of fertilisers. The increase in input cost is not adequately reimbursed by the Government while fixing the fertiliser sale prices and subsidy. Similarly the margins were also under pressure for the Company's Plastic and Chemical

## BHARAT FERTILISER INDUSTRIES LIMITED

Divisions during the year under review.

### CURRENT YEAR'S WORKING

The working of the fertiliser Division is adversely affected during the current year on account of various notifications issued by the Government for control and monitoring of production, inspection, and despatches of fertilisers which comes in the way of smooth production and despatches of fertilisers. The Government of India has also reduced the fertiliser subsidy from Rs. 900 to Rs. 700 per metric tonne with retrospective effect from 01.04.2000 by notification issued on 31.07.2000.

The despatches of Fertilisers also declined during the first quarter of the current year on account of delayed monsoon and scanty rains in Fertiliser marketing zones of the company in the state of Maharashtra.

The price of 98% sulphuric acid has also been drastically reduced on account of very lower prices offered by some of the manufacturers who are selling 98% sulphuric acid as their bye product. The prevailing market prices of 98% sulphuric acid can not cover the cost of production thereby restricting the sales of 98% sulphuric acid and mainly reserving the same for captive consumption.

The company has obtained repeat orders from M/s. Rashtriya Chemicals & Fertilisers Ltd. for supply of HDPE Bags for packing their Fertilisers at very competitive rates due to excess supply position in the market.

There is all-round increase in the manufacturing cost mainly in cost of power and fuel, transport charges and other marketing expenses due to heavy competition resulting into lower margin on the Company's products.

However, the company is taking all steps to cut the expenses at all levels and implement the cost reduction measures to cope-up with increased cost of production.

In view of the foregoing difficulties faced by the company, it is too early to make any prediction regarding the working results during the current year.

### DIRECTORS

Shri G. V. Patel and Shri A. M. Patel, Directors retire by rotation as per the Articles of Association of the Company and being eligible offer themselves for reappointment. The necessary items have been included in the Notice convening the Annual General Meeting and reappointment of Shri G. V. Patel and Shri A. M. Patel is recommended for adoption by the members.
