MANAGEMENT'S DISCUSSION AND ANALYSIS

1. Industry Trends and Business Analysis

Volatility ruled the Indian stock market during the financial year ended 31st March, 2011. The key benchmark indices edged higher since last 31 months, many times during the year under review, helped by sustained buying by the foreign investors and strong global markets.

Foreign institutional investors (FIIs) made a baseline for Indian equities, helping stocks register strong gains. FIIs played a significant role in domestic equity markets and their movement (inflow and outflow) caused fluctuation in benchmark indices. The market witnessed a strong post-Budget rally driven by sustained buying by foreign funds since the presentation of the Union Budget 2010-2011 on 26th February 2010. Foreign funds have shown steady interest in Indian equities since the presentation of above budget which emphasised on fiscal consolidation and higher consumption power.

The market attained its highest closing level in more than 25 months on 7th April, 2010. The barometer index BSE Sensex scaled the psychological 18,000 level in intraday trade but it settled below that level. As debt worried the euro zone weighed on investors' sentiment, the barometer index BSE Sensex fell below the psychological 17,000 level after flirting with that level throughout the day on 6th May 2010. The market tumbled in May, 2010 on persistent concerns about the euro zone sovereign debt situation and tougher financial regulations in some developed markets. Investors feared that the euro zone's efforts to tackle its sovereign debt crisis will fall short, jeopardizing the global economic recovery. However anticipation of robust corporate financial performance boosted the domestic bourses after front line companies paid higher advance taxes for the first quarter ended June 2010. Rally in world stocks aided the rally on the domestic bourses as euro zone debt worries eased and the market rose as a result of substantial purchases by foreign funds.

In a major development, the stock market regulator Securities & Exchange Board of India (Sebi) allowed physical settlement of both stock options and stock futures in July, 2010. Prior to that only cash settlement of derivatives was allowed. The Centre and states in July 2010 arrived at a broad consensus on rolling out independent India's biggest tax reforms by introducing the goods and services tax (GST), which is to replace the existing value added tax (VAT), service tax, excise duties and central sales tax among others that will simplify the manner in which corporates, small enterprises and traders will be levied taxes on goods and services. The new indirect tax reform is to streamline the movement of goods and services across India with a single tax structure.

On the macro front, India reported its strongest GDP number since the global financial crisis began, expanding at the fastest pace in 2-1/2 years in Q1 June 2010. The gross domestic product (GDP) grew 8.8% in Q1 June 2010.

Key benchmark indices surged to 2-1/2-year highs on 9th August 2010. The BSE 30-share Sensex rose 143.51 points or 0.79% to 18,297.50, its highest closing level since 5th February 2008. The S&P CNX Nifty gained 46.90 points or 0.86% to 5486.15, its highest closing level since 18th January 2008. Bulls were in command as the key benchmark indices achieved highest closing level second time, in more than 2-1/2-years on 15th August 2010. The BSE 30-share Sensex jumped 197.82 points or 1.08% to 18,454.94, its highest level since 5th February 2008.

Improved rainfall in the year 2010 helped farmers plant various crops over a larger area than last year. The kharif sowing has been 10% more than the drought-hit 2009, leading to optimistic outlook for harvests. Good rains in August 2010 and in the first week of September 2010 strengthened the optimism about a record kharif harvest this season.

The key indices scaled 31-month highs on 6th September 2010, on signs the global economic recovery. Besides strong global cues, robust July 2010 industrial production growth good monsoon in the year 2010 and sustained buying by foreign funds, boosted domestic investor sentiment. Consequently the two key benchmark indices — the barometer index BSE Sensex and the 50-unit S&P CNX Nifty witnessed a fresh 31-month highs on 6th, 8th and 9th September 2010, respectively. Strong momentum and substantial buying by FIIs helped the key benchmark indices reached above psychological levels, sensex crossed psychologically crucial 20,000 mark and the Nifty crossed 6000 mark till the last week of September, 2010.

The government on 23rd September 2010, doubled foreign investment limits in government securities to \$10 billion from \$5 billion and increased the limit for corporate bonds to \$20 billion from \$15 billion.

As foreign funds continued to pump capital into domestic equities, bolstered by the government's move to relax certain foreign investment limits, foreign funds continued to aggressively mop up Indian shares. A sizable chunk of FII inflow the year 2010 was from India-focused exchange traded funds as well as long-only funds. FII inflow in the calendar year 2010 totaled Rs 1,33,266 crore. The annual inflow in 2010 was at record level.

The key benchmark indices tumbled and extended losses due to heavy selling by foreign funds and underperforming mostly higher global stocks initially in the month of December, 2010. Meanwhile, corporate India reportedly paid 15-20% higher tax for the third quarter, consequently the barometer index BSE Sensex and the 50-unit S&P CNX Nifty regained their psychological 20,000 and 6,000 mark respectively. As macroeconomic worries arising from a high global crude oil prices weighed on investor sentiment, the key benchmark indices shed. A surge in crude oil price to 26-month high, stoked macroeconomic worries, which also weighed on sentiment. Global food prices reached a new record peak in January, 2011 caused by steadily rise in the food prices. The barometer index BSE Sensex fell below the psychological 19,000 mark and the 50-unit S&P CNX Nifty fell below 5,700 level, in January, 2011. Concerns of political instability over the 2G scandal added to the already jittery investor sentiments with the barometer index. On the macro front, a surge in crude oil prices amid unrest in Egypt added to concerns about high inflation and rising interest rates caused the market to correct sharply in Feb, 2011. In addition selling by foreign funds also weighed on the sentiment.

To control surging inflation, the Reserve Bank of India (RBI) at its quarterly policy review in January 2011 raised repo rate by 25 basis points to 6.5% and the reverse repo rate by 25 basis points to 5.5%.

The favorable announcements in the Union Budget 2011-12 unveiled on Monday, 28th February 2011, were lower fiscal deficit target set by the government for the year ending March 2012, a lower-than-expected net borrowing programme, a thrust on infrastructure and agricultural sectors, reduction in surcharge on corporate tax, permission for foreign investors to invest in mutual fund schemes and plan to move towards direct transfer of cash subsidy to people living below poverty line. The basic excise duty that was kept unchanged was a major positive for the Indian industry. Among the unfavourable announcements were increase in social sector spending and a plan to bring food security bill which could strain government's finances going ahead. A slight increase in minimum alternate tax (MAT) also unnerved some.

The Government allowed foreign institutional investors (FIIs) to invest in mutual fund schemes and raised limit the FII investment limit in corporate bonds for investment in infrastructure.

The Indian market surged post the Union Budget announcement despite it being a much muted one as far as outright reform announcements are concerned. The positive mood post the budget was felt to be dying down as the wider macro concerns and global geo-political risk took over. The Libya crisis continued to deteriorate while the crude oil price continued to rise.

The sensx closed at 19,445 at the end of FY 2011 (17,528 at the end of FY 2010) with a high of 21,108 and a low of 15,960. Benchmark NIFTY closed at 5,249 and 5,833 respectively with a high of 6,338 and a low of 4,786.

The total value of trade of the Indian Commodity Futures Market during the year 2010-11 stood at Rs. 119.49 lakh crore. The Market registered a growth of 54% during the year, as compared to the value of trade of Rs. 77.65 lakh crore during 2009-10. The value of agriculture commodities traded in the commodity Exchanges stood at Rs. 14.56 lakh crore growing at a rate of 20% over the previous year. The top five commodities traded in the Futures Market during 2010-11 were Silver, Gold, Crude oil, Copper & Nickel. The top five agri commodities traded in the futures market were Soy oil, Guar seed, Chana, Rape/Mustard seed and Soya bean/seed.

DIRECTORS REPORT

Your Directors have pleasure in presenting the 19th Annual Report on the business and operations of your Company together with the Audited Accounts for the financial year ended March 31, 2011.

FINANCIAL HIGHLIGHTS

Particulars	(Rs. in lacs)	
	Fiscal year ended March 31, 2011	Fiscal Year ended March 31, 2010
Total Income	90.19	87.83
Profit before depreciation & Tax	59.20	56.38
Depreciation	1.19	1.74
Profit Before Tax	58.01	54.64
Provision for Taxation	9.78	6.52
Profit After Tax	48.23	48.12
Balance Profit B/F from earlier year	217.27	194.54
Profit available for appropriation	265.50	242.65
APPROPRIATION:		
Transfer to Reserve Fund	9.65	9.62
Proposed Dividend	16.90	13.52
Provision for Dividend Tax	2.74	2.24
Profit C/F to Balance Sheet	236.21	217.27

DIVIDEND

The directors recommend dividend amounting to 50 Paise per share (5%) as against 40 Paise per share (4%) for the previous year. If this recommendation is approved at the forthcoming Annual General Meeting, it would involve outflow (excluding dividend tax) of Rs. 16, 90,200/-. Dividend tax will be subject to the applicable taxation rates.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Your Company's performance in the financial year under review is at par with the performance in the previous financial year in terms of profit after tax as its profit after tax in the current financial year is Rs. 48.23 Lacs as compared to previous year's profit after tax amounting to Rs. 48.12 Lacs.

The Indian capital markets witnessed robust activity in the earlier part of FY 11. The markets were also positively influenced by some reasonably priced large public sector issues like Coal India. However, subsequently negative sentiments adversely effected the markets. The markets, therefore, went through some difficult times after scaling a new high on Diwali 2010.

The equity markets continued to be affected by a lack of interest by retail investors, volatile FII flows and concerns on corporate earnings. High interest rates also affected capital raising activity. The commodity markets were also volatile in view of pressure on global commodity prices. However, with an expected boost in the infrastructure expenditure and with the industries already facing capacity crunch, we hope investment activity will revive. Assuming normal monsoon, as predicted, and interest rate stabilization we expect capital markets to improve from September - October 2011.

Management Discussion and Analysis of financial condition and results of operation of the Company for the year under review, as stipulated in Clause 49 of the Listing Agreement with the Stock Exchanges, are given as a separate statement in the Annual Report.

COMMODITY MARKET

The Company earned a brokerage on commodity exchange of Rs. 8.22 Lacs in the financial year under review as compared to 2.77 Lacs in the previous financial year justifying the potential of this sector.

The Company had also obtained the trading membership of National Spot Exchange Limited (NSEL) in the month of June, 2011. NSEL is a National level institutionalized, Electronic, Transparent Spot trading platform, which is poised to transform the commodity market by way of reducing the cost of intermediation and thereby improving marketing efficiency.

(Formerly Known as Bharat Bhushan Share & Commodity Brokers Ltd.)

Referred to in Paragraph 2 of our report of even date for the year ended 31st March, 2011

- i.) In respect of its fixed assets:
 - a. The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 - b. As explained to us, the fixed assets have been physically verified by the management during the year, which in our opinion is reasonable, having regard to the size of the Company and nature of its assets. No material discrepancies were noticed on such physical verification.
 - c. The Company has not disposed of substantial part of fixed assets during the year and therefore going concern status of the Company is not affected.
- ii.) In respect of its inventories:
 - a. According to the information and explanations given to us the Inventories have been physically verified by the management during the year at reasonable intervals.
 - b. In our opinion and according to the information and explanations given to us, the procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
 - c. The company has maintained the proper records of inventories. The discrepancies noticed on verification between the physical verification and the book records were not material and have been properly dealt with in the books of accounts.
- iii.) The Company has neither granted nor taken any loans, secured or unsecured, to/from companies, firms or other parties covered in the register maintained under Section 301 of the Companies Act; 1956:

Accordingly, paragraphs 4(iii)(a) (b), (c), (d), (e), (f) and (g) of the order are not applicable.
- iv.) In our opinion and according to the information and explanation given to us, there is adequate internal control System commensurate with the size of the Company and the nature of its business, for the purchase of inventory, fixed assets and also for the sale of goods and services. Further, on the basis of our examination and according to the information and explanations given to us, we have neither come across nor we have been informed of any instance of major weaknesses in the aforesaid Internal Control System.
- v.) In respect of transactions covered under Section 301 of the Companies Act, 1956:
