OPERATIONS

During the year, the operations of the Company continued to be affected due to lower realisation because of protracted sluggish market conditions, on-going labour unrest at plant and increase in costs including fuel costs.

During the year, the workers continued to disrupt the operations of the Company by resorting to frequent and partial strikes thereby causing loss of operating efficiencies, production, deterioration in quality, extra generation of waste and delays in delivery schedules. The Company suffered a production loss of 120 M.T. and 2096 man-days due to disruption in the working because of strikes and partial stoppages which has had a significant impact on its profitability.

During the period under review, the Company produced 9042 M.T. and exported 3832 M.T. of yarn against 8474 M.T. and 2094 M.T. respectively in the previous year. The Company has been able to achieve this growth in exports

by exploring new markets and improving its product mix. The total turnover of the Company grew by approximately 15% at Rs.108.93 crores against Rs.95.06 crores in the previous year. However, this has not resulted in improving the operational margins of the Company, due to labour trouble, increase in fuel costs and other inputs.
