Item No. 4

Presently the securities of the Company are listed at Bombay Stock Exchange Ltd. (BSE), Ahmedabad Stock Exchange Ltd. (ASE) and The Delhi Stock Exchange Association Ltd. (DSE). With the extensive connectivity of the BSE and the extension of the BOLT terminals to other Indian cities as well, the investors have access to online dealings in the securities of the Company all over the country. The bulk of the trading in the securities of the Company takes place on the BSE only. The trading on the ASE and DSE is negligible. Accordingly, the listing fees paid to the ASE and DSE is disproportionately higher with no trading volumes. As a part of the cost reduction measures, it is suggested to delist voluntarily the securities of the Company from ASE and BSE. As per the SEBI regulations, member's approval by a Special Resolution is required for the voluntarily delisting of the securities from the stock exchanges. The proposed delisting will not adversely effect the investors, as the Company's securities will continue to be listed on the BSE. The delisting will take effect after all approvals, permissions and sanctions are received.

The Securities and Exchange Board of India (SEBI) has notified the SEBI (Delisting of Securities) Guidelines, 2003. As per the Guidelines, a company whose securities are listed for a minimum period of three years on any stock exchange may voluntarily delist its securities from that exchange. The Guideline further mention that a company proposing to delist its securities shall provide an "exit opportunity" to the shareholders. However, such an exit opportunity need not be given in cases where the securities continue to be listed on stock exchange having nationwide terminals.

Since, the Company's securities shall continue to be listed on the BSE, which have nationwide terminals (viz. BOLT), the Company need not provide an exit opportunity. The proposed delisting would be subject to the guidelines for voluntary delisting as laid down in SEBI (Delisting of Securities) Guidelines, 2003

Directors recommend the resolution for approval of the members. None of the Directors of the Company are interested in the above resolution.

Item No. 5

In order to facilitate our customer to know the present directors of Company from the Articles of Association, the Article 140 is proposed to be altered as such as contained in the Resolution of Item No. 5. This alteration can be made with consent of members by way of special resolution under section 31 of the Companies Act, 1956. The Board of Directors recommends passing of the proposed resolution.

Directors recommend the resolution for approval of the members. None of the Directors of the Company are interested in the above resolution.

MANAGEMENT DISCUSSION AND ANALYSIS

Industry structure and developments

The Company has setup manufacturing facilities at its factory premises at MIDC, Lote (Maharashtra). The report contains certain forward-looking statements, which are based on certain assumptions and expectations of future events.

Opportunities and threats

There is growing demand for bulk drugs & intermediates in India and abroad specifically due to opening of the Indian Economy to world competition. Herbal & Aurvedic products and formulations are on demand both in the local and export market. The Company has plans to tie up with various prospective buyers (for test marketing) of indigenous as well as foreign market.

As far as threats are concerned no significant threats except the general market conditions are perceived in the near future.

Outlook

The outlook for bulk drug, herbal products and formulations in general is good for the years to come. The Company is taking necessary measures to arrange the required finance for the project implementation and working capital requirements.

Internal control systems

The company has a proper and adequate security system to ensure that all assets are safeguarded and protected against any possible loss from unauthorised use or disposition. The internal systems and other records are reliable, for preparing financial statements and other information, and for maintaining accountability of assets. Proper security arrangements are being made for safety of all assets, even though the insurance cover for plant and machinery is not obtained.

Financial and operational performance

During the year under review, the Company has not carried out any manufacturing activities from facilities available with the company and the necessary permission under pollution control regulations is still awaited.

Cautionary Statement

The delay in project implementation has caused increase in project preoperative expenses. Statements in this Management Discussion and Analysis Report are based upon the data available with the company at this point of time and on certain assumptions having regard to the economic conditions, government policies, political developments within and outside the country. The management is not in a position to guarantee the accuracy of the assumptions and the projected performance of the company in future. It is, therefore, cautioned that the actual results may differ from those expressed or implied herein. Delay in project implementation and commercial production has already caused depletion of the existing plant & machinery, due to plant being in chemical zone and the same will have a barring in the near future for extensive repairs & maintenance.
