KEY MESSAGE FROM CMD

Dear Shareholders,

While we had a better year, it was the last few days of the Financial Year 2019-20, where our culture was truly tested. I am pleased to inform you that amidst a global pandemic, we continued to be guided by our principles of employee safety and wellbeing, business continuity, and social responsibility.

Despite the headwinds caused by COVID-19 during the last few months, through a dedicated workforce, we have ensured continued production and supply of medicines.

Your company continues to prioritize and invest in nurturing talent and development whilst focusing on its diversity and inclusion agenda. As we march towards a post-pandemic world, the next few months will be challenging but your company's robust business model, better financials, and deep relationships with customers, will play a critical role in keeping us ahead of the curve. The future of your company looks prosperous with a dynamic relationship with our new investor M/s. SRJR Life sciences LLP. I believe your company is poised to embrace the change and take the business to new heights. As always, my sincere gratitude to all stakeholders for your continued trust, confidence, and support as you stood by the company in its most difficult times.

As you are aware, your company has successfully warded off prolonged litigations in the NCLT, Chennai, NCLAT, New Delhi and the Supreme Court of India. Now, with the timely support of our new investor, M/s. SRJR Life Sciences LLP, your Company is debt-free as on March 2020.

Even though the revenues fell slightly compared to last year, the operational performance hindered due to prolonged litigations, resulted in delayed supplies. Even though the supplies were erratic we have not lost a single customer. Now our prime focus will be to satisfy customers with timely supplies first, instead of focusing on expanding to new territories. Your Company will henceforth focus on bottom line instead of top line.

Research & Development is the backbone of our business and a key determinant of our future growth and profitability. Our efforts to move up, in the pharmaceutical value chain mandate that we keep investing in FR&D. Our FR&D is mainly targeted at developing complex generics and niche products.

We continue to be disciplined in identifying potential FR&D projects for the generics market while simultaneously investing in developing a specialty portfolio. This will enhance our product pipeline for regulated and emerging markets.

We are gradually ramping up our generic specialty business along with our already successful CMO business. We plan to increase its contribution to consolidate our revenues in the long term. We are also expecting reasonable growth in our business in the emerging markets.

Given these factors, we expect top line growth in our revenues for FY21 over FY20 and better EBDITA.

Also, dear family this year marks the silver jubilee of your company becoming a public limited concern. I take this opportunity to thank to all our Stakeholders, Board of Directors and the entire Team of BAFNA Pharmaceuticals who stood by the company in both its best and most trying years. We now complete our 25 Years of continued existence in this competitive pharmaceutical biosphere.

We are grateful to our Board of Directors for their continued guidance and support.

We are thankful for your support as a shareholder.

Warm Regards

Sd/-
