He has rich experience in steel businesses. He continues to guide the Company in its major policy decision.

DIRECTORS' REPORT

To,
The Members of Balaji Galvanising Industries Limited,
Secunderabad

Your Directors take pleasure in presenting the Nineteenth Report on the affairs of the Company for the financial year 2008-2009 together with the Audited Financial Statements and Report of the Auditors thereon.

BUSINESS PERFORMANCE:**Financial Results:**

The overall performance of the Company for the financial year 2008-09 is summarized as under:

Particulars	2008-2009	(Rs. in Lakhs)
		2007-2008
Sales	737.16	658.19
Increase / (Decrease) in Stocks	(21.33)	107.91
Other Income	11.27	7.77
Total Revenue	727.10	773.87
Manufacturing / Operating Expenses	724.30	736.19
Profit/Loss before Financial Expenses & Depreciation	2.80	37.68
Interest & Financial Expenses	6.48	10.01
Depreciation	18.54	17.61
Net Profit/(Loss) after Financial Expenses & Depreciation	(22.22)	10.06

During the year 2008-09, the Company has generated a gross turnover of Rs.727.10 lakhs as against Rs. 773.87 lakhs in previous year (including other income) and has suffered a Net Loss of Rs.22.22 lacs due to substantial increase in the price of steel worldwide and recession in the market.

Dividend:

Due to the loss in operations, your Board of Directors do not recommend any dividend in order to conserve resources.

FUTURE OUTLOOK:

The steel industry which was witnessing a robust growth till December, 2007 started to face the tremors of slowdown since March, 2008 and further slipped into red by June, 2008 due to fall in demand from all major infrastructure projects which were placed on hold or deferred, both in Public Sector and Private sectors. This may continue for sometime till the inflationary pressure eases out which will again fuel the demand. The inflation driven increase in cost of raw material has continued to haunt the Company but can be set off due to rise in demand thus pushing prices up leading to better realizations. The Indian steel industry is catching up the pace and luring the steel majors from all over the world. The industry has been gaining strength from the fact that large infrastructure spending is required to maintain GDP growth above 7% and major spending will happen in infrastructure, construction and automobile. Although India consumes less steel as compared to other Asian countries, it was ranked the fifth major crude steel producer in the world in 2008. Thus, the company is also geared up to reap the benefits of rise in demand upon revival of the economy and is confident to achieve turnover exceeding Rs. 800 lakhs in the coming year.

DIRECTORS:

Shri Sanjay Kumar Bagaria retire by rotation and being eligible offer himself for reappointment. The Board recommends his reappointment as Director liable to retire by rotation. Shri Shiv Ratan Bagaria

has resigned from directorship of the Company w.e.f 27.06.2009. The Board places on records its appreciation for the services rendered by him during his tenure.

DIRECTORS' RESPONSIBILITY STATEMENT:

In accordance with the provisions of Section 217(2AA) of the Companies Act, 1956, your Directors state:

- (i) That the accountings standards to the extent applicable to the Company have been followed in the preparation of then annual accounts. There are no material departures there from.
- (ii) That the accounting policies selected by the Board for the purpose of preparation and presentation of the financial statements have been and are being applied consistently and reasonable and prudent judgments and estimates (wherever applicable) have been made for the said purpose, so as to give a true and fair view of the affairs of the Company as at the end of the financial year under review and of the profit/loss for the said year.
- (iii) That proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 1956 for safeguarding the assets of your company and for preventing and detecting fraud and other irregularities.
- (iv) That the annual Accounts have been prepared on a going concern basis.

AUDITORS:

M/s. Dagliya & Company, Chartered Accountants, Secunderabad, the Auditors of the company retire at the conclusion of the ensuing Annual General Meeting and are eligible for reappointment. The Board recommends their reappointment.

The observations made by the Auditors in their report read with the Notes on Accounts are self explanatory and do not require any comments from Directors.

ANNEXURE- B TO REPORT OF THE DIRECTORS**Management Discussion & Analysis:**

Pursuant to the revised Clause 49 of the Listing agreement, the Management Discussion and Analysis report covering the performance and outlook of the Company is given below:

Industry structure and developments

The India Steel Industry is experiencing a slow but steady growth. The India Steel Industry has a huge scope in the future with a massive scale of infrastructural development happening all across the country. The India Steel Industry caters to many other Industrial Sectors such as Construction Industry, Automobile, Consumer durables, Mining Industry etc.

The pricing of products is largely depending on the input costs which have gone up due to inflationary pressure and the trend is continuing. The Indian economy growth rate has slowed down to 6.2% which is affecting this demand scenario due to high costs and slowing down of really and infrastructural projects plan in India.

OPPORTUNITIES AND THREATS**OPPORTUNITIES:**

- The biggest opportunity before Indian steel sector is that there is enormous scope for increasing consumption of steel in almost all sectors in India.
- The Steel sector was one of the primary vehicle of economic development in independent India. India is endowed with essential raw material such as iron ore and coal. The industry has widespread forward and backward linkages with the rest of the economy. The industry has passed through various phases of changing domestic and external policy environment. The industry as a whole has responded to the emerging compulsions of the changing times. It has survived well with its impressive array of achievements.
- The Company's core competence in manufacture of S.S. wires and other products finds easy demand due to dearth of such capacities and only few new capacity build up due to pollution norms. This brings the advantages in maintaining its leadership in local markets and the markets for such specialty products.
- With capacities to be fully utilized and measures being taken to further improve on the same, the production in current year is slated to grow resulting in the revenues to improve with better profitability.

THREATS:

- Technological changes often force the industry structure to change. For a developing country like India where capital itself is costly, technological obsolescence is a major threat.
- The Company's dependence on public sector Steel companies for raw material and increase in prices by them have posed threat to the realization. Efforts to develop alternative sources are proving costlier for the company.
- Due to lower realizations and small size of operations, the company continues to suffer in terms of large volume supplies. Scanty financial resources also place pressure on further growth in capacity.
- The demand for steel is a derived demand and the purchase quantity depends on the end-use requirement. This volatility of demand often affects the integrated steel manufacturers.

OUTLOOK

The Country's Steel Industry is catching up the pace and luring the steel majors from all over the world. The Industry has gained strength from the Indian Economy and strong sectors like Infrastructure, Construction etc. Company is looking towards new projects and trying to complete the existing projects on or before time. The Company is planning to curtail the operating cost and move further with the technological aspects. The increasing cost of raw material has continued to haunt the Company but can be set off due to rise in demand thus pushing prices up leading to better realizations.

However the current economic turmoil has dented the growth curve of various industries which in turn, has hit the Indian Steel Industry hard. But with the Government's plan to boost up the economy by injecting funds in various industries like infrastructure and construction, growth is expected in near future.

RISKS & CONCERNS:

- Despite growing demand and increase in production of steel products at domestic and global level, there exists an imbalance in respect of supply and demand. Rising prices of steel products at global level and domestic market may slow down the demand for steel products.
- The expected growth rate of Indian economy suffering a set back due to inflation is a cause of concern and has put some mega infrastructural projects on hold. This may push down the spiraling demand for some time.
- Dynamic pricing of steel products have loomed large on the Company's pricing policy thereby reducing margins. The efforts for cost reduction and launch of better product mix can only offset the pressure which the Company is pursuing vigorously and benefits may accrue in the current year.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The internal control systems are aimed at promoting operational efficiencies. The Company is conducting internal audit at regular intervals to ensure that:

- a) Transactions are executed in accordance with the Company's policies and authorizations.
- b) Deployment of funds are in accordance with the Company's policies.

The Internal audit is conducted as per the requirement of the Company and the report is submitted to the Audit committee and to the Management. It reviews the policies and procedures followed.

The Audit committee with three independent and non-executive directors meets regularly to investigate any matter relating to the internal control system and reviews the Internal Audit. The committee reviews the quarterly and half yearly financials before they are submitted to the Board of Directors.

FINANCIAL CONDITION:**Share Capital**

During the year under review, Company has not allotted any shares.

Secured Loans

The Company has availed a loan from Tata Motor Finance Limited by securing against hypothecation of a vehicle to the tune of Rs.3.11 lakhs.

Fixed Assets

Fixed Assets (Net Block) have decreased to Rs.223.35 lakhs from Rs.237.11 lakhs during the financial year on account of depreciation and sale of old Asset..

Current Assets

The Net current assets of the Company have come down to Rs.63.74 lakhs from Rs. 90.32 lakhs on account of increase in current liabilities.

Human Resources

The Company has continued with the policy of having a motivated workforce for obtaining best results from the working both Technical and commercial which has resulted in increased performance on both fronts. An efficient technical team has spearheaded our operations. Having acquired expertise in their niche areas, they are now able to provide best results out of the available resources.

CAUTIONARY STATEMENT:

The Management Discussion and Analysis report which seeks to describe the Objectives, projections, estimates, predictions may be considered to be forward looking statements and are stated as required by applicable laws and regulations. Actual results could differ from those expressed or implied and are determined by many factors including global and domestic demand – supply conditions, process, raw materials availability, tax laws, governmental policies and other statutes which may affect actual results which may be different from what the Directors envisaged in terms of future performance and outlook.
