## BOARD'S REPORT

To,  
The Members of  
Banco Products (India) Limited

Your Directors have the pleasure in presenting the 57<sup>th</sup> Annual Report together with the Audited Financial Statements of Banco Products (India) Limited ("the Company") and its subsidiaries for the financial year ended on 31.03.2018.

### 1. OVERVIEW OF THE COMPANY'S PERFORMANCE :

Global economic situation improved in 2017 with all the major regions of the world experiencing an uptick in economic growth. The World Bank forecasts global economic growth to edge up to 3.1% in 2018 as the recovery in investment, manufacturing and trade continues and as commodity exporting developing economies benefit from firming of commodity prices.

For India, 2017-18 was a transformative year as the Government implemented GST from 01-July-2018 in order to achieve the long felt need for creating a single Indian market. The GST implementation was not without hiccups as there were challenges around clarity of rules and provisions which led to temporary disruption in the market, especially during the first half of the year. To its credit, the market did recover from these hiccups, adjusted itself to the new GST regime well and posted smart growth across all sectors in the second half of the year. The estimated GDP growth in India for the year 2017-18 was placed at 6.7% - lower than the last year, yet the highest in the world.

Besides GST implementation, Indian government took a slew of structural reforms such as steps towards resolution of NPA in banks and further liberalization of FDI. These reforms will certainly provide necessary impetus to long term economic growth of the country.

Automotive industry is the engine of economic growth in India. For the year 2017-18, all the segments of Indian automotive industry saw positive development. Two wheelers grew by 16%, Passenger cars by 5% and Commercial vehicles grew by 10% over last year reflecting strong economic environment and growing consumption in the country.

For your Company, the year 2017-18 was yet another good year. Sales grew by 22% (consolidated 12 %) while profit before tax expanded by 8 % (consolidated 20 %) over the previous year.

Our Company follows strategy to realize profitable growth and thus create sustainable value for the organization.

Government regulations, customer expectation and growing competition are pushing manufacturers to design and implement technological improvements in the products with ever reducing, "time to market". These are exactly the kind of challenges that our engineers thrive on. Customer is at the centre stage of all our initiatives. In close cooperation with our customers, we develop bespoke engineering solutions that are designed to deliver maximum efficiency under practical operating conditions. This innovation driven approach has helped us to establish and maintain leadership position as preferred engine cooling system provider to our customers in focus sectors such as Commercial Vehicles , Agricultural tractors, Off Highway equipments, Power generation and Railways .

We continue to expand our customer and product portfolio. During the year under review, your company accelerated product development initiatives and added new products for OEM, Replacement and Exports markets. Flexibility in the designing approach, speed in prototyping and in-house testing competence, helps us to shorten time to market significantly.

During the year under review, cooling modules developed by your company for BSIV compliant engines demonstrated their technological superiority through excellent field performance. The Indian industry is preparing itself to leapfrog to the global level of emission norms by 2020 (BS VI for CV, BS IV for Construction machinery and BS VI for 2 Wheelers). Your Company is closely collaborating with its leading customers to develop new generation engine cooling modules suitable for the emerging emission standards.

On the manufacturing front, our Company follows a vertically integrated approach. All the critical components are manufactured at our modern manufacturing plants located at Bhaili and Waghodia. During the year under review, our plants increased production output substantially to support sales growth of over 20%.
