### REVIEW OF OPERATIONS

#### Insulation Division:

Recession in the economy continued to affect the Company's performance all around. All efforts are being made to control cost.

Due to automation and improved methods of operation the margins on EPS improved. However due to tight liquidity, volumes dropped resulting in lower profitability in this division. Measures to improve production in Thane & Ganganagar factory are underway, due to which current year's results are likely to be better.

#### Isowall Panels:

Customers acceptance for this product is encouraging due to speedier erection and power savings. Government of India is giving thrust to cold storages and this division's performance is likely to further improve.

#### Marketing, Consultancy and Export Divisions :

##### Marketing Division:

##### (A) EPAD:

The main industry to which this division caters is textiles where the recession continues and due to this the performance has been affected. Your Company has been appointed as Systems House by Jyoti Ltd., Baroda for Vacuum Circuit Breakers in Tamil Nadu, Kerala and Pondicherry.

##### (B) Chemicals:

Due to changes in credit policy of principals and liberalised imports, this division's sales has come down. Government of India has imposed safeguard duty on some of these products and hence the performance is likely to improve in future.

##### Consultancy Division:

Consultancy division's performance was satisfactory.

##### Export Division:

This division's performance has improved and efforts are being made for further progress.

### FUTURE PLANS

Your Company's entry into manufacture of Sandwich Panels has been fairly successful and it is proposed to add a range of panels for various applications. To improve the performance of marketing division, Company is increasing outsourced products.
