Item No.6

The Company has been sanctioned the following financial assistance by the banks/ financial institutions for the business of the company:

- Term loan of Rs. 600 lakhs from Bank Of India (BOI),

- Term loan of Rs. 517 lakhs from Punjab National Bank (PNB),
- Additional working capital facility of Rs. 210 lakhs (fund based) from BOI,
- Working capital facility of Rs 170 lakhs (fund based) and Rs. 110 lakhs (non fund based) from PNB and
- Additional bills discounting facility of Rs 50 lakhs from Small Industries Development Bank of India (SIDBI).

The term loans of Rs. 600 lakhs from BOI and Rs. 517 lakhs from PNB will be secured by first pari passu charge on the assets of the Company both present and future where as the working capital financial assistance from BOI, PNB and SIDBI as mentioned here in above will be secured by second pari passu charge on the said assets.

Creation of charge/mortgage on the assets requires approval of the shareholders under the provisions of Section 293(1)(a) of the Companies Act, 1956.

Section 192A of the Companies Act, 1956 read with the Companies (Passing of the Resolution by Postal Ballot) Rules, 2001, provides that the consent of the members for sale of whole or substantially the whole of undertaking of a Company as specified under Sub-clause (a) of Sub-Section (1) of Section 293 (which also includes creation of charge/mortgage) is to be obtained by means of a postal ballot. However, since this is not pertaining to sale of the undertaking, no such formalities are required.

None of the Directors are interested in this resolution.

Resolution placed at item No 6 of the accompanying notice is recommended for your approval.

Item No.7

The Remuneration Committee of Directors has approved formulation of Stock Option Scheme for the Corporate Financial Year 2005-2006 ("ESOS 2005-2006"), in accordance with the provisions of the "Securities and Exchange Board of India (Employees Stock Option Scheme and Employees Stock Purchase Scheme) Guidelines, 1999"("the Guidelines"). The salient features of the Scheme are as under:

a) Number of Options:

The Number of options to be granted shall not exceed 50,000 (Fifty Thousand) options per employee and 461000 (Four Lac Sixty One Thousand) in total.

b) Classes of Employees / Eligible Employees:

Employees under the management Grade of the Company (other than such Directors / employees who are excluded as per the Guidelines).

c) Vesting of Options:

The options shall be vested with the eligible employees on expiry of one year from the date of the grant of options.

d) Exercise Price / Pricing Formula :

The exercise price shall be the average of the daily closing price of equity shares of the company during the period of 15 (Fifteen) days immediately preceding the date on which the options are granted.

e) Exercise Period:

The options can be exercised within a period of 4 (Four) years from the date of vesting in one or more tranches.

f) Appraisal Process:

The appraisal process and the criteria to be followed in respect of grant of options shall be such as may be decided by the Remuneration Committee.

g) Accounting Policy:

The Company shall conform to the accounting policies specified in the aforesaid Guidelines of SEBI or any other policy as may be prescribed under the law in respect of the accounting for such options.

h) Adjustments in case of Corporate Actions (e.g. Rights / Bonus issue, merger and sale of division etc.) :

A fair and reasonable adjustment in the manner as provided in the said Guidelines shall be made to the number of options and to the exercise price in case of Corporate Actions (e.g. the rights / bonus issue, merger, sale of division etc.) by the company between the date of grant of options and the exercise of the options.

i) Valuation of Options:

The company shall use intrinsic value method as defined in the said guidelines to value its options or by any other method as may be decided by the Remuneration Committee of Directors within the SEBI Guidelines.

j) Employee Compensation Cost:

The Company shall calculate the employee compensation cost using the intrinsic value of the stock options or by any other method as may be decided by the Remuneration Committee of Directors within the SEBI Guidelines. The difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value of the options, shall be disclosed in the Directors' Report and the impact of this difference on profits and on EPS of the company shall also be disclosed in the Directors' Report.

The Remuneration Committee of Directors will monitor the administration and superintendence of ESOS 2005-2006 once approved by the shareholders.

The company has employed certain technicians at its Hoskote plant on a contract basis through an engineering service provider company. It was felt by the Committee that the employees of such engineering service provider company could also be granted the Stock Options under ESOS. The Committee, therefore recommended for grant of options to the employees of the said engineering service provider company in the manner as the committee may deem appropriate.

The aggregate number of options to be offered to the employees of the engineering service provider company shall be within the overall limit of 4,61,000 (four lakhs sixty one thousand) options.

Approval of the shareholders is being sought for the ESOS for the Corporate Financial Year 2005-2006 for all the eligible employees of the company as well as for the employees of its engineering service provider company, by way of separate Special Resolutions required under the SEBI Guidelines.

As the ESOS will entail further shares to be offered to the persons other than existing shareholders of the company, consent of the members is also being sought pursuant to the provisions of Section 81 (1A) and all other applicable provisions, if any, of the Companies Act, 1956.

None of the Directors are interested in this resolution.

Resolution placed at item No 7 of the accompanying notice is recommended for your approval.

Documents for Inspection:

Copy of the correspondence relating to sanction of financial assistance from Banks, institutions and the scheme of ESOS for the financial year 2005-06 approved by the Remuneration committee and the Board are available for inspection by the members at the Registered Office of the Company during usual working hours.

MANAGEMENT DISCUSSIONS & ANALYSIS:

INDUSTRIAL SCENARIO:

The year under review was the year of consolidation in the Indian economy for various activities carried out in the earlier years. There was a change in the Government at the Central level. The new Government decided to continue with policies with a clear focus for the overall economic growth in general. The second year with good rains in most part of the country has helped the growth in the agricultural sector. The improved consumer demand helped in the growth of industrial activities. The effect of the growth has been well noticed in service sectors like Banking and the IT sector.

As mentioned above the new Government continued implementation on the policy of rationalization of tax structure in order to support the domestic industries. The reduction in the custom duty has opened the doors to source better quality of the required raw materials and stores at a very competitive prices from abroad.

Lower interest rate and easy availability of the housing loans from the private and public sector banks had helped the construction and its allied industries. The permission for foreign direct investment in the real estate market is a welcome step taken to further strengthen the economic growth. The construction industry has been providing employment on a very large scale through out the country.

OUTLOOK OF THE INDUSTRY:

The overall improvement in the construction industry has to some extent helped to overcome the problem of excess production capacity in the ceramic tile industry. Competition between the organized vis-a-vis unorganized sector is no more a major issue in the Indian ceramic tile market. However the major threat is the cheaper import of ceramic tiles particularly from China. The competition in the global market has adversely affected export of the ceramic tiles from India. This has created a high pressure on the selling price of the product. Ceramic tile industry being fuel intensive industry, the steep increase in the international prices of crude has adversely affected the earnings of ceramic tile manufacturers. Almost 30% hike in the diesel prices over a period of last one year has increased the cost of manufacturing and selling expenses due to increase in the freight charges for the incoming and outgoing materials. The long awaited introduction of VAT has materialised in most part of the country and efforts are on for the left out states to implement the same. This will help the process of rationalization of the tax structure.

REVIEW OF COMPANY'S OPERATIONS:

As in the Indian economy, the year 2004-05 was a year of consolidation for the company's operation due to increase in the installed capacity at Hoskote plant. Efforts for the optimum utilisation of the plant capacity and better management in the outbound logistic has helped in improving the turnover of the company. In order to manage the finished goods inventory at a reasonable level and thereby improving the cash flow position, there was a heavy pressure on selling prices. Distribution of the company's product through the established market network has resulted into increase in the sales quantity and speedy recovery of the receivables.

a. DORA (Baroda) Unit:

During the year under review, the improvement continued in the working of this plant. Controlling the cost of production at a

reasonable level has become a big exercise in the recent trend of rising input costs. Emphasis is more on the value addition to the products. Introduction of new designs were made to cater the requirements of various segments of the consumers. The products of this plant continue to get a good response in domestic and export market. This plant was operated at a capacity of almost 100% of its installed capacity.

PROPOSED EXPANSION IN THE INSTALLED CAPACITY OF THE DORA UNIT:

As mentioned in the previous year report, the company has during the year enhanced the installed capacity of this plant from 3650000 m² p.a. to 4927500 m² p.a. The increase in the installed capacity was made effective from 01.12.2004. This capacity is further being enhanced from 4927500 m² to 6387500 m² p.a during the year 2005-06. The finance has been raised by way of loans from Punjab National Bank and Bank of India.

b. HOSKOTE (Bangalore) Unit:

During the year under review, the increase in the installed capacity from 3650000 m² p.a. to 8212500 m² p.a. was carried out. The capacity expansion was completed with in the predetermined time schedule and the commercial production with the enhanced capacity commenced from 01.12.2003. This part of the expansion was financed from the internal accruals and by deferment from IDBI in its principal repayments.

Utilisation of the plant capacity was affected due to frequent disturbances in the operations and the teething problems from the new machines. Steep increase in the cost of power and fuel during the year has increased the cost of manufacturing at this unit. Despite such adverse conditions the overall performance of the unit remained satisfactory. Company can look forward for better results in the years to come.

RISKS AND CONCERNS:

- (a) With the depletion in the availability of natural gas from the domestic sources, GAIL has started supply of the imported LNG (Liquidified Natural Gas). This has however increased the cost of fuel at the Gujarat plant of the company. LNG has been priced at almost 2.5 times higher than the natural gas prices being supplied from the domestic sources.
- (b) The currency in Euro vis a vis Indian rupee remained unfavorable through out the year. The ceramic industry is more dependent on the countries which have been dealing in Euro. This has impacted the cost of imported parts, raw materials and the capital equipments.
- (c) With reduction in the custom duty on import of ceramic tiles the industry has been facing a big threat from cheaper imports more particularly from China.
- (d) In the international market the prices of crude has reached the highest level and its impact is seen in the year ended 31.03.05. Such frequent increase in the prices of crude in the international market results into increase in the diesel and petrol prices in the Indian market. This will result into higher cost of freight for both the incoming and outgoing materials. Power and fuel cost at the Hoskote plant of the company will also likely to be affected due to frequent increase in the prices of HSD and LPG. The position on the supply price of crude is not likely to improve in the near future.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

The various internal control system prevalent in the Company includes:

- (a) Implementation of an ERP System for out bound logistic (sales & marketing), company's accounting systems and for manufacturing activities have strengthened the Management information system.
- (b) Periodical verification of assets at both the plants of the Company and stocks of finished goods at warehouses as well as at the depots through out the country were carried out at a regular intervals both internally as well as through independent firms of Chartered accountants.
- (c) Generation of periodic management reports to monitor the statutory and other compliance.
- (d) Review of the internal audit system and compliance of the accounting standards prescribed by the Institute of Chartered Accountants of India by an independent audit committee.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO THE OPERATIONS OF THE COMPANY:

Despite the competitive market conditions, your Company could achieve the turnover of Rs. 16338 lakhs during the year as against the turnover of 13862 lakhs for the previous year which shows increase in turnover by 18% over the previous year.

For the year ended 31.03.2005, the Company has achieved cash profit of Rs. 2029lakhs (previous year Rs. 1998 lakhs) and the net profit before tax of Rs.870 lakhs (previous year Rs. 607 lakhs).

During the year under review, the Company was regular in payment of interest to all the financial institutions and banks.

The Company's request for reduction in the interest rate from 12.5% to 11% on the entire financial assistance has been favorably considered by IDBI w.e.f 01.04.2004. The bankers of the Company have also helped the Company in reduction of the effective rate of interest by regularly considering conversion of its loans into foreign currency with forward coverage. The Company has been sanctioned reschedulement in the repayment schedule by IDBI to facilitate financing the expansion in the installed capacity of its plants. Punjab National Bank and Bank of India have sanctioned loans of Rs. 517 lakhs and Rs. 600 lakhs for part financing the expansion. These two banks have also sanctioned working capital finance to meet with the appraised gaps in the total working capital requirements for the expansion.

MATERIAL DEVELOPMENT IN HUMAN RESOURCES AND INDUSTRIAL RELATIONS:

The Company has been regularly monitoring its policy for enhancement in the skills of its employees by providing need based training.

Industrial Relations continued to be cordial during the year resulting in constant co-operation by all the employees in day-to-day work and implementing policies of your Company.

ANNEXURE TO THE DIRECTOR'S REPORT:

Conservation of Energy:

A> Energy Conservation measure taken:

The operation of 1 MW Turbo Generation remained satisfactory for generation of electricity and for operation of Spray Dryer with its exhaust gasses resulting in to substantial conservation of energy.

Regular planned preventive maintenance has helped in considerable energy saving.

B> Technology absorption:

The fuel efficient dry process technology at Bangalore Plant was fully absorbed. By achieving higher capacity utilisation, the per unit consumption of LPG at Bangalore Unit could be controlled by effectively managing the process parameter.

C> Research and Development (R&D):

Following R&D activities were carried by the Company:

a) Production Development:

Development of wall tiles & floor tiles with new tones/ hues in popular designs, new textures as per the requirement of the market.

Indigenous development of Frits for both the plants and outsourcing its production facilities resulted into considerable saving of foreign exchange outgo.

Development of local sources for spares for the imported machines to reduce dependence on import.

b) Cost Reduction:

Efforts made to source alternative raw materials for reduction in the cost as also flexibility in the input materials.

c) Benefits derived as a result of the above R&D:

Better quality of the product helps in reducing the finished goods inventory level.

The Company has developed local substitutes for some of the imported components

Established quality assurance by adopting procedures to ensure international quality.

d) Future Plan of Action:

Efforts to continue to increase the production level and to concentrate on quality products.

e) Expenditure on R&D:

During the year Company has spent nominal amount on R&D.

f) Foreign Exchange Earnings & Outgo:

The information of foreign exchange earnings & outgo are contained in para 17, 18 and 19 of the notes to accounts in Schedule 15.
