Quality Control

Quality is of prime importance to us at Bella Casa. We understand that customers demand and expect value for money and as producers of apparel and home furnishings, we constantly endeavour to produce work of good quality. For the home textile and apparel industry, product quality is measured in terms of standard of fibres, yarns, fabric construction, colour fastness, surface designs and the final finished garment products and Bella Casa strives to deliver that.

Designing capabilities

At the outset, our design teams adapt trendsetting styles inspired by celebrity outfits, street styles, and active sportswear into marketable garments for consumers.

We use latest computer-assisted design techniques that allow designers to rapidly make changes to a proposed design's silhouette, fabric, trimmings, and other elements and making it easy to promptly share the proposed changes with partner fabric mills.

Manufacturing capabilities

The manufacturing process at Bella Casa is meticulously structured to ensure maximum efficiency and optimal quality output. Bella Casa is now moving away

from traditional manufacturing towards the lean system according to which assembly line workers learn to execute a variety of production tasks, take charge for product quality.

Bella Casa thrives on innovation in design, packaging and products. Innovation to us means providing something new, extra, delightful and useful to the consumer at frequent intervals.

Between inception and now, we established earnest business relationships with knowledgeable suppliers, which resulted in a burgeoning customer base. We take great pride in our development that has been possible because of assiduous teams who work together in remarkable alignment to develop and execute our strategic and tactical priorities.

our Philosophy

Bella Casa's business philosophy is to establish and cultivate positive employee and customer relationships where we all benefit as a result of having one another in each other's lives. The realistic application of this philosophy is to ensure that there is a constant need to provide undying support for mutual success in the form of sharing knowledge and resources necessary to accomplish the desired business goals.

It is not an easy task to make a lasting impression in an industry like fashion. However, we're pleased to admit that we stood the test of time. And we attribute this passing to Bella Casa's business philosophy which principally encapsulates the essence of the brand—trust, innovation, quality and superiority.

the Team

They personify the invigorating power that has molded the past, present and future of Bella Casa.

Visionaries, trendsetters and leaders are just some of the many roles they play with ease. Together, they form the cornerstones of Bella Casa's success and an unwavering foundation that has held strong for over five decades.

CHANDERI

The brand **Chanderi's** essence was to combine the timeless elegance of tradition with contemporary flair, making every outfit a masterpiece of art and style. At the heart of **Chanderi** was the belief that fashion is more than just clothing; it is a form of expression that tells a story.

The **Chanderi** design philosophy drew inspiration from the diverse tapestry of Indian art, music, dance, and folklore. The skilled artisans at **Chanderi** meticulously transformed this inspiration into intricate patterns, exquisite embroideries, and captivating silhouettes that captured the essence of India's cultural & tradition.
