## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### 1. Industry Structure & Developments:

Construction Industry continued to be one of the key segments in Industrial Sectors of India as development of infrastructure such as Power, IT, Transportation, Mining, Large and Heavy Industries and Housing have been given added thrust by Government of India and State Governments. Careful planning and timely investments will definitely give good returns to all Construction Companies.

### 2. Opportunities and Threats:

Immense opportunities are there for BEL with its good track record and brand image as one of the leading South Indian based construction companies. Heavy investments made by the Company in mobilising equipments for the Road Projects, implementation of the same got unduly delayed due to factors beyond the control of the Company together with very low realisation from projects resulted in mounting the debts. Invocation of bank guarantee against road projects added to the debts of the Company. Corporate Debt Restructuring is implemented by Consortium Bankers under the leadership of State Bank of India.

### 3. Performance:

Our Company could not take advantage of the favourable factors in the construction sector on account of the financial stringency. Earnest efforts are being made to tide over the present difficulties and to show improvements in performance.

### 4. Outlook

Steps are being taken to induct a strategic partner who will bring in adequate capital to enable the company to participate in bids and to undertake new projects so as to add on to the

turnover of the Company. It is expected that by undertaking new projects, it would be possible for the Company to wipe off the losses at least to some extent in the near future.

### 5. Risk & Concerns:

Heavy dependence on Road Projects by your Company has resulted in unpredictable loss. Hence the Company is planning to reduce dependence on Road Projects and to concentrate on other sectors also.

### 6. Human Resources:

The Company recognizes the importance and contribution of its human resources for its growth and development and is totally committed to the development of its employees. The Company continues to make efforts to upgrade the skills and effectiveness of all its employees through various initiatives. Relations between the management and employees were cordial during the year under report.

### 7. Cautionary Statement:

Statements in the Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be viewed as "forward-looking statement" within the meaning of applicable laws and regulations and have been made in good faith. Actual result could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include changes in Government's regulations, tax regimes, economic developments, and delay in disbursement or lack of funds with Government and their agencies, within India and other incidental factors.
