**Bharat RASAYAN LIMITED***19th Annual Report 2007-2008*

ANNEXURE - I TO THE DIRECTORS' REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Structure and Development

The Company is engaged in the business of agrochemicals. In Indian agrochemicals industry, there is equal presence of Multinational as well as Indian Companies. The MNCs have focused on high-end speciality products whereas Indian players have focused on generic and off-patent products. With the growth of Indian economy and the emphasis placed by the Government on improving productivity in the Agriculture sector, the agrochemicals industry has a pivotal role to play.

The industry has built up large capacities and has many players resulting in high level of competition. Due to seasonal nature of the business and uncertainties involved in the coverage of monsoon, a large inventory is required to be maintained.

Financial Performance with respect to operational performance

During the year under review, gross receipts were Rs. 70.02 Crores as compared to Rs. 60.20 Crores in the previous year, registering a growth of 16.30%. Exports during the year were Rs. 29.35 Crores as compared to Rs. 24.44 Crores in the previous year, registering a growth of 20.09%. Profit after tax has increased to Rs. 4.00 Crore as compared to Rs. 0.88 Crore in the previous year, registering a growth of 356.80%.

Outlook

Having regard to the thrust given by the Central Government to the agriculture sector and overall good monsoon, the outlook for the current year 2008-09 appears to be good. Further, during the year, the Company got registration of the new products.

Risk, Concern and Threats

The overall pesticides business is dependent on monsoon which affects the demand for the agrochemicals. Due to the unusual increase in crude oil prices globally, the prices of raw materials have consequently gone up.

Even though, the agrochemical industry plays a very positive role to increase the productivity of the agriculture but there is always a negative perception in the minds of the people and environmentalists about its effects on environment and agriculture produce.

The industry has to maintain a large inventory and offers extended credit due to seasonality of agricultural operations.

SWOT ANALYSIS

Strength

1. Your Company is one of the foremost Companies in India that has a large manufacturing range of agrochemicals. It is one of the few companies manufacturing own technical grade pesticides from basic raw materials. This gives it an inherent advantage over quality and prices.
2. The Company's products have been widely accepted in foreign markets and our export market is exploring further.
3. The Company has a team of professionally qualified, competent and dedicated managers on its roll.
4. The Company's In-house Research & Development Unit is recognized by Ministry of Science & Technology, Govt. of India, Department of Scientific & Industrial Research, New Delhi.

Weakness

In today's modern economy with the changing preferences, the business environment is changing at a very fast pace. The multinational companies have been expending huge amounts on R&D for developing new molecules and your company is manufacturing the generic range products. The Company has to gear up its R&D efforts to align itself to the WTO/Patent Regime that will affect most of the manufacturing sectors in India.

Opportunities

1. Several agriculture oriented policy initiatives under implementation by the Government and the availability of credit to the agriculture sector as priority sector are expected to improve the prospects of Agrochemicals industry as a whole.
2. Enhanced awareness among the farming community regarding usage of pesticides for better yields.
3. Export potential of generic pesticides.

Adequacy and Internal Controls System

During the year, the Board and Audit Committee have vigorously interacted with the external auditors of the company to review the overall systems and all major findings and suggestions are complied with and reported to the Audit Committee on a quarterly basis. Further, the Company has proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorized use and that the transactions are authorized, recorded and reported correctly.

Human Resources Development

Your Company believes that human resources are the most precious assets of your Company. Your Company's ongoing thrust is to maintain productive work culture and to orient the employees to effectively face the new and emerging challenges emanating from the competitive environment. Number of employees on Company Roll as on 31.03.2008 was 195. Besides, the Company also employed casual workers through contractors during the year. The job description of each member has been defined and performance indicators are monitored accordingly to improve motivation level and to encourage talent. The company has been continuously conducting in-house and external training programmes through Workshops, Conferences, Seminars etc. for its people so as to develop their skills and capabilities.

The industrial relations climate of the Company continues to remain harmonious and cordial.

Cautionary Statement

Statements in the Management Discussion and analysis describing the company's objectives, projections and expectations may be forward looking statements within the meaning of applicable law and regulations. Actual results might differ from those expressed or implied. The important factors that could make a difference to the Company's operations include climatic conditions, economic conditions affecting demand/supply, global players and price conditions in the domestic and overseas markets in which the Company operates, changes in the Government regulations, tax laws and other statutes and other incidental factors.
