2. DIVIDEND :

3. OPERATIONAL HIGHLIGHTS:

Turnover/Total Income for the year Rs.3514 lakh was 15% lower than Rs.4158 lakh in the previous year. The decline was mainly due to stiff competition in the form of steep drop in selling prices of bulk gases. This has affected the working and financial results though the capacity utilization was sustained and vigorous marketing efforts continued. As a result of this, the operational profit before Interest & Depreciation for the year was Rs.895 lakh as against Rs.1401 lakh during the previous year.

In the last year it was reported that the long-term sales agreement for 5 years for sale of 50% of the liquid Oxygen and Nitrogen was entered into with M/s. Praxair India (P) Limited.

However, in February 2007 M/s. Praxair India (P) Limited has abruptly terminated the said agreement. This has had serious impact on the working of your Company. Nevertheless, efforts are on to make good the quantum loss through new customer base on vigorous marketing efforts.

4. FUTURE OUTLOOK:

Your Company has been making unstinted efforts to expand its market share in Industrial and Calibration Gases. As a part of the Strategy, the task of market survey and study is entrusted to a reputed Professional Research Organisation to explore various avenues for expansion of market share, more particularly Calibration gases. As a part of continuous growth effort, your Company is exploring Overseas Trading Operations.

In the last year's Report it was stated that your Company is proposing to expand its activities to Power Generation through Windmill source of Energy Power generation will be distributed for business/Commercial purposes. Proceeding in this direction efforts were made to set up a 3.2 MW Wind Mill at Nargund, Gadag District, Karnataka, after tie-up of Term Loan arrangement with State Bank of India and the same was in advanced stage of completion. However, due to certain changes in the norms of wheeling and banking arrangement with Karnataka Power Transmission Company Limited and Karnataka Electric Supply Companies having cascading effect on the economics of the project it was decided to shelve the implementation of project.

5. SAP - ERP

It is heartening to report that, during the year under review, your Company's operations have been integrated with World renowned ERP/ Business solutions from SAP. To begin with 7 modules viz., MM, SD, FICO, PP, PM, QM and Cylinder Tracking were taken up and was put to live in December 2006. It is proposed to review and introduce more modules depending upon need based requirement.
