2. OPERATIONS REVIEW:

Total income from operations during the year under review was Rs. 449.28 crores as compared to Rs. 494.49 crores in the previous year signifying a fall by 10.06% in top line. During the year under review, the Company has recovered from the effect of global recession and has made profit after tax of Rs.2.08 Crores as against a loss of Rs. 8.06 Crores in the previous accounting year.

Company has implemented expansion plan at its unit at Wada which is yet to be operative in full capacity due to inadequate working capital. However the same has been considered by working capital bankers and operations will be in full swing in FY 2010-11.

In order to improve financial performance and profitability, Company has taken up various action plan in current year which include raising long term funding resources through equity, concentrating in improving productivity, efforts for optimum capacity utilization of the Wada and Hoskote plants and an overall cost reduction exercise. As a long term strategic plan, management is exploring amalgamation of other group companies, integration of operations and captive power plant.

Company's products continue to be well accepted by the market. Company has participated in tenders floated by govt. undertakings and is poised to receive large orders to be executed during next 2-3 quarters. Due to renewed thrust on Infrastructure sector by the existing government at the centre, it is expected that the demand for steel may pick up in coming quarters.

3. DIVIDEND

The Management has decided to retain the profits for the current year for future plans.

4. SUBSIDIARY COMPANY

Management Discussion and Analysis

INDUSTRY STRUCTURE & DEVELOPMENTS:

The Company's primary product, steel rolled product, is catering to the demand of construction, infrastructure, power, Telecom and engineering industries. There are large no. of re-rolling mills across the country who are largely local players.

During the year under review, the steel prices continued to be volatile and the price of rolled products were market driven. For improving margins, Company has taken serious steps for reduction in the cost of production and overheads. Company is concentrating to optimise its capacity utilization so as to achieve economies of scale. Further to create a wide product base to cater other growing industries such as telecom and engineering, Company has implemented modernization and expansion at its facilities at Wada. Modernization will also help company in improving productivity.

OPPORTUNITIES, THREATS AND CONCERNS:

Deep economic recession coupled with global meltdown has affected all the commodities market across the globe in FY 2009-10 and steel was one of the worst affected commodity. There is surge in demand in current year, however the momentum is slow, in an emerging economy like India, there will be good opportunity for growth though may be lower than earlier targets and renewed emphasis on infrastructure by the existing government may work as stimulus for the industries at large.

In latest Global Investor Meet (GIM) held at Bangalore, State and Central Government have shown their willingness to support metal and infrastructure industry and a lot of investment is planned by investors in Karnataka itself, which is a promising opportunity for company's product.

Competition from un-organised sector is still a threat to the Company. However, renowned builders and infrastructure companies are keen to source their requirement from organized company like yours. Moreover, Company's better-structured product portfolio will enable it to penetrate into new markets and to meet the requirements of existing customers.

Price volatility and higher cost of borrowing remains serious concern of the Company. Company has already initiated necessary steps to mitigate this risk.

Outlook:

The year ahead looks promising as there is growth envisaged in demand in various industries to whom company's products are catered to. Company is catering to requirements of Housing, Power, Telecommunication and Engineering Sectors. Large integrated plant mainly focuses on flat products and long products are generally the domains of secondary steel makers like us. A growth rate higher than the global industry average has been envisaged in the national steel policy. The long-term goal of the country is to become self reliant and globally competitive in steel sector.

Risks and concerns:

The cost of power (including fuel) and its availability is major concern. High power tariffs and volatility in input prices may adversely affect the profitability of the Company. However, it is not significant considering the level of operations of the Company and normal correlation in the price of raw material and finished goods. High volatility in commodity prices remain serious concern. Company is also exposed to financial risks like exchange fluctuation and interest rate variations. Management has already identified these risks and taking necessary steps to mitigate the risks such as exploring the possibilities to having captive power plant to become self sufficient, linkage to coal and iron ore mines for uninterrupted production and to reduce cost of borrowing by various means.

Internal control systems and their adequacy:

The Company's internal control systems and procedures are adequate and commensurate with the size and nature of Company's operations. Company has sufficient procedures that form part of internal control system which provide for check and balances. In current year, Company has engaged industry and finance experts to further strengthen its internal control and audit system for reduction of various costs and overheads.

Cautionary Statement:

This report contains forward-looking statements, which are based on certain assumptions and future events. It cannot be guaranteed that these are accurate or realized in future. Company's actual results may materially differ from those projected in forward looking statements. The reader should bear this in mind. Further, Company undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

CORPORATE GOVERNANCE

- The philosophy of the Company on corporate governance envisages the attainment of the highest level of transparency, accountability, trusteeship, integrity and equity in all areas of its operations. Company is committed to good corporate governance. The fundamental objective of the Company is enhancement of shareholder value, whilst taking into account the interest of all other stakeholders for wealth creation.
