Management Discussion & Analysis Report

Annexure I to the Directors' Report

FORWARD LOOKING STATEMENTS

Statements in this Management Discussion and Analysis of Financial Condition and Results of Operations of the company describing the company's objectives, expectations or predictions may be forward looking within the meaning of applicable securities' laws and regulations. Forward-looking statements are based on certain assumptions and expectations of future events. The Company cannot guarantee that these assumptions and expectations are accurate or will be realized. The company assumes no responsibility to publicly amend, modify or revise forward-looking statements, on the basis of any subsequent developments, information or events. Actual results may differ materially from those expressed in the statement. Important factors that could influence the company's operations include changes in government regulations, tax laws, economic developments within the country and such other factors. The financial statements are prepared under historical cost convention, on accrual basis of accounting, and in accordance with the provisions of the Companies Act, 1956 and comply with the accounting standards issued by the Institute of Chartered Accountants of India.

The management of Bilpower Limited accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. These estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, in order that the financial statements reflect in a true and fair manner the state of affairs and profits for the year.

INDIAN POWER SCENARIO

The growth of the economy calls for matching rate of growth in infrastructure facilities. The Indian Power Sector is a core component of the Indian infrastructure and its expansion is essential for the success of economic liberalization of India. India, which inherited a little more than 1,300 MW at the time of its independence in 1947, today has an installed generating capacity of around 1,14,000 MW. The growth rate of demand for power in developing countries is generally higher than that of their GDP. In India, the ratio of demand growth to GDP growth was 3.06 in the first Plan and peaked at 5.11 during third plan and came down to 1.65 in the eighties. At present, a ratio of around 1.8 is projected. Therefore, in order to support a rate of growth of GDP of around 7% per annum, the rate of growth of power supply needs to be over 10% annually. This is evident from ever increasing power demand of the country's vibrant economy leading to a widening gap between the supply and demand. The Government of India has an ambitious mission of '**POWER FOR ALL BY 2012**'. This mission would require that our installed generation capacity should be at least 2,00,000 MW by 2012 from the present level of 1, 14,000 MW.

Bilpower Ltd., continued to deliver its best ever performance during the year under review. Increased realization, product

mix enrichment and improved operational efficiencies resulted in both revenues and profits surpassing their previous levels.

We, at Bilpower, look upon the Electrical Lamination business as a core business that has enormous growth potential in revenues and earnings. Our vision is to become a "Leading Power Engineering Solutions Company" manufacturing superior quality products for electricity sector and by offering reliable, economical and innovative solutions in generation, transmission and distribution areas.

Consolidation of business leads to enhanced synergies, as Bilpower became an integral player across the value chain. The power industry has geared up to provide phenomenal opportunities on account of ongoing power capacity additions and government thrust on power for all by 2012, which facilitates your company to immensely benefit in the years to come.

An ISO Certified Company, Bilpower, has also co-sponsored a high profile technical conference "India Rising - Challenges of Building World Class Power Sector" organized by "Power India - 2007". In an exclusive research conducted by The Economic Times, your company has been rated as 26th fastest growing small company out of the top 100 fastest growing small companies in India.

PERFORMANCE REVIEW

You will be happy to learn that during the year, your company has made a significant improvement in its financial and operational performance. The salient features of the company performance are:-

- Total Sales of Rs 332.56 crore, against Rs 245.87 crore in the previous financial year, an increase of 35.26 per cent.
- Net profit of Rs 22.71 crore, against Rs 17.28 crore in the previous financial year, an increase of 31.42 per cent.
- Earning Per Share (EPS) for the year is Rs. 21.63 against Rs. 25.42 in the corresponding previous financial year.

With a net worth of about Rs 112.47 crore as on March 31, 2008, Bilpower Ltd., counts among the top Indian Electrical Lamination manufacturing companies. Your company remains free from long-term debt at the net level, and enjoys the ratings of 'A-/Stable' and 'P2' assigned by CRISIL - a resounding re-affirmation of our unwavering and long-standing commitment to financial prudence and conservatism.

BACKGROUND

Power is a significant input to the economy and plays a critical role for a sustained economic growth. The power sector being highly capital intensive in nature requires regular streams of huge investments to ensure quality and economic power on a
