Dividend

Operations

The Revenues of the Company during the year 2003-2004 was Rs.1721.80 Lacs as against Rs.1498.46 Lacs in the previous year showing a growth of 15%.

The Operations of the Company would have reflected even better results but for the fact, that the prices of raw materials increased during the year. The Company has taken steps to offset this by increasing the production levels and optimize the capacities. New products have been introduced and the same has been well accepted by the customers. The Company has also introduced new brands of 'Havana' and 'PSP' Plates to compete with the paper and the plastic segment.

Exports

The Exports during the year were higher at Rs.772.72 Lacs as against Rs. 546.75 Lacs last year representing a growth of 41%. This was possible due to repeat orders from a USA, UK and UAE customers. These markets have shown a good potential to absorb higher volume at competitive prices.

Expansion

As approved by you last year, the company embarked on expanding its capacities. Accordingly, a new site was identified which is in close proximity to our existing facilities at Silvassa. We have already placed

orders for the import of the equipments and also in the final stages of completion of the building. This expansion will house 60,000 sq.ft. which will be utilized for our manufacturing facilities as also for storage which consumes a lot of space due to the volumes. The company has already opened LCs on foreign suppliers. The equipments are in the process of being shipped and will be installed at the site by August, 2004. Barring unforeseen circumstances, the trial run and commercial production should commence in September, 2004. The total cost of the project would be Rs.1700 Lacs and this has been financed by a consortium of Canara Bank / Vijaya Bank for Rs.1200 Lacs. The balance amount will be funded by internal accruals.

The turnover and the profitability of the Company would be substantially improved after implementation of the expansion and we would be in a very competitive position to compete in the international market due to higher capacities.
