Letter from the Chairman

Dear Shareholder,

The past year was one that most of us in Blue Star would rather forget. It began somewhat innocuously on a modestly hopeful note. We had expectations of tackling the slowing economy and facing challenging market conditions in our usual determined

Ashok M Advani, Chairman

manner. But our confidence was shaken by some disturbing developments that came to light in Q1 itself.

The problems I am referring to pertain to Blue Star's biggest business, namely Electro Mechanical Projects Group (EMPG). It is basically a contracting business which involves system design and engineering, manufacture and procurement of equipment, project execution at job site, and commissioning.

The industrial economy has been slowing down for a couple of years especially in sectors such as infrastructure and capital goods. This has affected new order inflow and billings in EMPG Projects and Professional Electronics & Industrial Systems.

At the start of 2011-12, the tempo of many ongoing projects had reduced due to tight liquidity conditions leading to undue delay in collections from customers. This resulted in poor cash flow in the business, higher borrowings and increased interest cost. Because of inflationary conditions, the Company reviewed

the majority of projects under execution to assess actual costs incurred and expected costs to completion. The review revealed substantial cost over-runs and erosion of gross margin in the majority of the fixed price contracts. In accordance with Accounting Standard AS7, the cost increase was absorbed in the accounts for the year 2011-12 resulting in losses and reduced revenues.

As a corrective measure, we promptly issued strict guidelines for minimum gross margins and terms of payment for new order bookings. While the revised guidelines improved the quality of new business booked last year, they also further reduced the volume of business in the shrunken market. This decline in revenues is a price we have to pay until the economy revives, but it reinforces a sound business principle: Top-line growth is good only if it makes a profit for the Company.

One of the bright spots of the year was the growth of the room airconditioner and refrigeration products businesses. In an otherwise dull room airconditioner market which declined by 10%, the Company showed 25% growth by successfully expanding market coverage in the residential segment and mid-sized Tier III and Tier IV towns.

Persistent inflation had driven up raw material costs like copper, steel and oil-based raw materials. This led to a squeeze on gross margins across the board. For room airconditioners and refrigeration products with substantial import content, the problem was compounded by the depreciation in the exchange rate of the rupee.

Faced with such a variety of negative factors, the Company took decisive action on multiple fronts:

- Cash flow was the top priority that needed urgent attention. By September 2011, borrowings had climbed to over ₹600 crores. A Company-wide drive on collection of dues with careful control of cash outflows was able to bring total borrowings down by almost ₹250 crores by year-end. This creditable achievement did a lot to boost confidence. The emphasis on cash management continues in the current year with obvious benefits to the balance sheet and lower interest expenses.

- Price increases became unavoidable due to escalating input costs, but raising prices to maintain margins was only possible to a limited extent because of competitive pressures and customer resistance to higher prices.
- A longer term plan was initiated to address costs across the entire value chain including product design, value engineering, procurement, manufacturing, logistics and marketing. This should start yielding results in the current year.
- Since the decline in Corporate revenues will take time to reverse, control of operating expenses and overheads is essential. Employee expenses are being curtailed by trimming excess headcount and outsourcing various processes in support functions like administration, warehousing and payroll.

All this requires discipline and hard work and we have been making progress. With the worst behind us in 2011-12, the recovery process has begun. The Company expects to make a modest profit this year. A big concern continues to be the difficult and uncertain economic environment. Much depends on revival of economic growth which, when it happens, will help immensely in the drive back to good Corporate health. In the meanwhile, financial prudence must remain a Corporate priority.

Directors' Report

The Directors are pleased to present their 64th Annual Report and the Audited Accounts for the year ended March 31, 2012.

SUMMARISED FINANCIAL RESULTS

(₹ in crores)

	April 2011 - March 2012	April 2010 - March 2011
Total Revenue	2724.59	2892.91
Profit (Loss) before Interest, Depreciation and Taxation	13.25	282.58
Financial Expenses	70.25	24.36
Depreciation	31.45	31.71
Add: Profit on sale of investments	-	0.43
Profit (Loss) before Tax	(88.45)	226.94
Taxes	0.70	71.94
Profit (Loss) after Tax	(89.15)	155.00
Add: Balance brought forward	279.77	213.44
Total available for appropriation	190.62	368.44
Less: General Reserve	-	15.50
Proposed Dividend	8.99	62.96
Corporate Dividend Tax	1.46	10.21
Balance carried forward	180.17	279.77

DIVIDEND

The Directors have proposed a dividend of ₹1.00 per equity share. The dividend will absorb ₹10.45 crores including Corporate Dividend Tax.

OPERATING PERFORMANCE

Total Revenue of the Company was ₹2724.59 crores for the year ended March 31, 2012 compared to ₹2892.91 crores in the previous year. Operating Profit Before Interest, Depreciation and Tax declined from ₹282.58 crores to ₹13.25 crores.

The sharp decline in Operating Profit was largely caused by a combination of factors in the Electro Mechanical Projects business in Segment 1. These included a slowdown in execution of projects due to delays in collections from customers; inflationary cost over-runs and erosion of gross margins on fixed price contracts; and higher expected costs for completion of ongoing projects. In accordance with Accounting Standard AS7, all these cost increases were absorbed in the accounts for 2011-12, resulting in losses and reduced revenues.

In the Cooling Products segment, while top-line growth was favourable, margins were under pressure due to higher input costs and significant increases in fuel and freight costs. Consequently, the segment result was marginally lower. The Professional Electronics and Industrial Systems business was also affected by the general business slowdown.

FINANCIAL PERFORMANCE

Finance costs increased sharply from ₹24.36 crores to ₹70.25 crores. This was partly due to higher interest on increased borrowings. In addition, there was a significant foreign exchange loss and cost of forward cover of ₹36.67 crores. Profit/(Loss) After Tax was a disappointing ₹(89.15) crores compared to ₹155 crores in the previous year.

EXPORT & FOREIGN EXCHANGE EARNINGS

Foreign exchange inflow for the year, including commission income, was ₹149.5 crores compared to ₹160.3 crores for the previous year. Foreign exchange outflow for the year was ₹544.4 crores as compared to ₹561.5 crores in the previous year.

SUBSIDIARY COMPANY

During the year, the Company made a further investment of ₹19.52 crores in the shares of the wholly owned subsidiary, Blue Star Electro-Mechanical Limited.

CONSOLIDATED RESULTS

The Annual Report also includes the Consolidated Financial Statements of the Company. This incorporates the results of the Company's wholly owned subsidiary, Blue Star Electro-Mechanical Ltd and its share in the results of its joint venture companies and associate company. The consolidated results for the year show a Total Revenue of ₹2843.03 crores compared to the previous year's ₹3012.59 crores and a Net Loss of ₹105.10 crores versus Profit After Tax of ₹160.96 crores in the previous year. In terms of the general permission granted by the Ministry of Corporate Affairs vide General circular no.2/2011, the Accounts of the subsidiary have not been attached with the accounts of the holding company. Any member desirous of obtaining the same will be provided with a copy thereof upon making a request to the Company.
