The Company's working has been adversely impacted by the slow down in economy for the reasons mentioned below:

The Company operates in three businesses:

Textile business:

Overall sales declined by around 11% mainly on account of Exports which dropped from Rs. 80 crores to Rs. 50 crores. Domestic sales were flat due to general economic slowdown and low stocking by trade. The margins were adversely impacted due to unprecedented increase in cotton prices.

Polyester business:

PSF industry continued to face excess capacity. Additionally, there had been a severe shortage of supply of the key raw material, PTA, due to delay in commissioning of a plant. Business profitability suffered on account of low realization due to severe competition coupled with higher raw material prices. Although export markets expanded, the margins remained under pressure.

Real Estate business:

Real Estate business recorded healthy growth. The construction of one residential tower and one commercial building was progressed during the year. The sale of commercial building was completed. However the profit of this division was significantly offset by losses of the other divisions.

B. Steps to improve profitability:

Under these circumstances, the Company has initiated several steps including the following specific measures to control its costs and improve its competitive position and performance:

- (i) New CEO and Heads of Exports, Accounts and Purchase were appointed to improve the performance of the Textiles Division.
