MANAGEMENT DISCUSSION & ANALYSIS

(a) Overview of operations

Sales during the year were Rs. 6,977.46 Lakhs as compared to Rs. 7,437.93 Lakhs recorded in the previous year, resulting in decrease of 6.60%, though the volume of boron products gone up marginally during the year. The reduction in sales is on account of difficult economic environment during the year, as prices of Boron products declined significantly coupled with downward trend in Export of Specialty Boron Chemicals due to continued recession in western countries.

During the year, income from Wind Farm has also declined to Rs. 98.16 Lakhs from Rs. 117.31 Lakhs for the previous year. This decline is primarily on account of lower generation of power at Wind Farm, Satara in Maharashtra as well as at Kutch in Gujarat due to low wind velocity and breakdown. In addition, there is an increase in Wheeling & transmission losses from 7% to 13.85% for Wind Farm Satara, consequent upon the order of Maharashtra Electricity Regularity Commission (MERC) resulting in lower units available for Captive consumption at Chemical Division.

During the year under review, in August 2009, the Company has sold its Timber Division for a total consideration of Rs. 361 Lakhs resulting in surplus on sale of assets amounting to Rs. 138.91 Lakhs, included in other income. Net gain from the sale of Timber Segment works out to Rs. 31.20 Lakhs, after taking into consideration the operating loss till August, 2009 and writing off old receivables and non-moving stock/current assets etc.

The Gross Profit for the year before depreciation is Rs. 594.56 Lakhs against Rs. 734.61 Lakhs for the previous year. The profit before tax amounted to Rs. 384.30 Lakhs as compared to Rs. 528.62 Lakhs for the Previous year.

After providing Rs. 124.97 Lakhs for current & deferred taxes, your Company ended the financial year with a profit after tax of Rs. 259.33 Lakhs against Rs. 388.78 for previous year. After taking into account short tax provision written off for earlier years and brought forward profit of Rs. 234.21 Lakhs from previous year, your Company has Rs. 492.11 Lakhs available for appropriation.

The profits of the Company got affected during the financial year mainly because the results of chemical division were adversely impacted due to high cost of imported raw material during the first half of the year as well as due to over supply situation in the market, resulting in significant under cutting of prices by competitors during the second half of the year. Consequently, the prices of boron products declined significantly as compared to the first half of the year.

Further, this year onwards Company has to pay newly introduced open access charges to Maharashtra State Electricity Distribution Company Ltd. (MSEDCL) for Captive use of power generated at Wind Farm Satara in Chemical Division, consequent upon the order of MERC dated 09/03/2010. Accordingly, during the year, your Company has paid Rs.15.96 Lakhs to MSEDCL on account of open access charges in addition to loss of revenue on account of increase in Wheeling and transmission losses as said earlier, eroding profits of the Company.

(b) Industry Structure, Development

The year under review for the Indian economy was mixed with uncertainty and confidence running low. The global financial crisis in the industrialized nations spread across to all sections of the economy, thereby leading to severe slowdown across countries. Though Indian economy not being much affected, also felt crisis on a lesser scale and domestic industry in India passed through an exciting phase.

Chemical Division

There are few major manufacturers of Boron Chemicals in India, of which your Company is the largest and has excellent track record of more than four decades in manufacturing quality Boron products. With its strong technical expertise and sound marketing network your company has expanded the geographical coverage both in India and abroad with total commitment to achieve customer satisfaction.

Your Company is offering quality products at reasonable prices to the satisfaction of customers through established network of distributors built up over last four decades due to which Company has been able to maintain its market share. Further, your Company's Quality Management System has been certified by Bureau of Veritas Quality International (BVQI) for ISO 9001:2000 quality standard for manufacture of boron and specialty boron products.
