DIRECTORS' REPORT

Your Directors present their Thirty-sixth Annual Report and the Audited Accounts for the year ended 31st March, 1999.

FINANCIAL RESULTS

	v 1	(Rupees in lacs)
	Year ended 31.3.1999	
Gross Sales (Including Excise Duty)	6230.38	5646.38
Excise Duty	307.12	284.43
Gross Profit for the year after interest	351.70	332.89
Less: Depreciation	339.90	314.87
Profit before tax	11.80	18.02
Provision for tax	5.61	3.09
Net Profit after tax	6.19	14.93
Add: Balance as per last year	513.35	553.42
Balance available for appropriation	519.54	568.35
Transfer to Debenture Redemption Reserve		55.00
Balance carried to Balance Sheet	519.54	513.35

DIVIDEND

In view of low profits and the need to conserve resources, your Directors do not recommend payment of dividend for the year ended 31st March, 1999.

PERFORMANCE

During the year under review the performance of the Company was affected due to various factors as listed below:

- (a) In June, 1998, there was a fire due to electrical short circuit at Marol Plant. Production in both furnaces was resumed in about 6-8 hours. However, as discovered much later some strategic areas in Furnace No. 2 received an internal thermal shock due to which the furnace conditions prematurely deteriorated affecting both the quality and quantity of output and had to be shut down in February '99.
 - Necessary insurance claims with the underwriters have been filed.
- (b) The sales continue to be affected owing to continuing budgetary constraints of the Government bodies.
- (c) The performance of M. M. Nagar has been below expectations. The furnace there has been shut down for major expansion cum modernisation in the current year.
- (d) The energy cost has increased owing to substantial increase in power tariff by the Tamil Nadu Electricity Board as well as total withdrawal of Government subsidy thereon.
- (e) Cost of imported raw material has increased substantially due to depreciation of the Rupee by approximately 8%, imposition of 4% additional custom duty (effective cost to the Company 6.5%) and reduction in moduat claim by 5%.

The supply of Natural Gas at Marol Plant has commenced in December, 1998. However, in view of drop in LPG prices the benefits expected to accrue by converting to Natural Gas have greatly reduced.

FUTURE PLANS

The Company has decided to change its product mix by re-entering into production of medium expansion pharmaceutical tubing. The Company has received an enthusiastic response from trade in its market survey. The rebuilt furnace No. 2 would be dedicated to this product. Meanwhile, the Company's market for Bake & Serve products is being adequately protected by substitute products.

M. M. Nagar's furnace is proposed to be modernised and major expansion undertaken. An upgraded Tube Draw would be installed to give international quality tubing which has a good market overseas.

Furnace No. 2 is scheduled to be commissioned in the first week of September, 1999. The full benefits of the modernisation cum-expansion plan is expected to accrue to the Company from the year 2000-01.

FINANCE

Although the Company's production and sales were higher, however, because of prevailing sluggish market conditions, the average credit period has gone up. This has resulted in severe pressure on Company's cash flow position.

DEBENTURES

The second instalment on Non-Convertible Portion of debentures amounting to Rs. 20/- per debenture in respect of those debentureholders, who had not opted for deferment, has been duly paid.

EXPORTS

Exports during the year were Rs. 200 lacs as against Rs. 250 lacs in the previous year. During the year under review, the Company has developed new export markets in Australia, Botswana, Tunisia, Greece and Denmark. It is expected that the exports during the current year will be sustained.

SUBSIDIARY COMPANIES

As reported last year, Gujarat Borosil Ltd. has become a sick industrial company in terms of provisions of the Sick Industrial Companies (Special Provisions) Act, 1985. A rehabilitation package is being worked out by ICICI, the Operating Agency which is expected to be implemented in the current financial year.

The financial results of Gujarat Borosil Ltd. and Swapan Properties Ltd. are given in the Annual Accounts and Directors Reports of the respective companies which are annexed hereto.

SAFETY AND POLLUTION CONTROL

The Company is continuously endeavouring to ensure safe working conditions for all its employees.

The manufacturing activities of the Company do not pollute the environment.

INDUSTRIAL RELATIONS

Industrial relations at both the plants of the Company were normal.

FIXED DEPOSITS

The Company mobilised fresh fixed deposit of Rs. 194.51 lacs in the year 1998-99 and the total amount of deposit as on 31st March, 1999 was Rs. 320.03 lacs. There were 136 deposits amounting to Rs. 7.77 lacs due for repayment which remained unclaimed as on 31st March, 1999. Out of these unclaimed deposits, 10 deposits for Rs. 0.59 lac have been renewed and 4 deposits for Rs. 0.22 lac have been repaid as on the date of this report.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

The particulars prescribed under the Companies (Disclosure of particulars in the Report of Board of Directors) Rules, 1988 are furnished in the Annexure to the Report.

AUDITORS

Members are requested to appoint Auditors for the ensuing year.

M/s. S. R. Batliboi & Co., Chartered Accountants, retire and are eligible for re-appointment. As required per proviso to Section 224(1) of the Companies Act, 1956 a written certificate has been obtained by the Company from the Auditors stating that if they are re-appointed Auditors of the Company, such re-appointment would be within the limits specified in Section 224(1-B) of the Companies Act, 1956.

AUDITORS' REFORT

The Auditors have in their report expressed a very conservative view suggesting the need to provide for certain exposure in subsidiary company, Gujarat Borosil Ltd. (GBL). In the opinion of your Board of Directors, a provision at this stage is not called for in view of the fact that necessary reference has been made by GBL to the Board for Industrial and Financial Reconstruction and there is a strong possibility of securing reasonable concessions from the lenders. With grant of such concessions and the fact that GBL has been continuously making profits before depreciation and interest, it could be reasonably hoped that GBL should be able to turn-around in next few years time and the Company's exposure therein would be fully restored.

The other comments in the Auditors Report are self explanatory.

DIRECTORS

During the year under review, there was no change in the composition of Board of Directors of your Company.

Mr. U.C. Kheruka and Mr. P.K. Kheruka retire by rotation and are eligible for re-appointment.

PARTICULARS OF EMPLOYEES

Particulars of employees as required under Section 217(2A) of the Companies Act, 1956 are annexed to, and form a part of the report.

Y2K PREPAREDNESS

The Company has constituted a committee of executives under supervision of Vice President (MIS) to assess and address the Y2K problem. Testing on hardware/software that would need remedial measures will start from third week of August, 1999 and the compliance of Y2K problem is expected to be completed by November, 1999. The cost of upgradation is likely to be around Rs. 10 lakhs.

ACKNOWLEDGEMENTS

We record our appreciation of the co-operation received from our employees, bankers and financial institutions during the year.

For and on Behalf of the Board of Directors

Place: Mumbai

B.L. KHERUKA

NOTE: (*) Self generation - Diesel Generators are run during power failure and on regular interval to maintain the equipment

(B) CONSUMPTION PER UNIT OF PRODUCTION

It is not feasible to determine productive consumption figures per unit production owing to the large number of products and highly diverse variety of items manufactured.
