DIVIDEND

Your Directors do not recommend any dividend for the year ended 31st March, 2009 in view of loss incurred during the year and to conserve resources.

PERFORMANCE

During the year, the Company transferred its Cold-end workers to its new location at Bharuch District in Gujarat, owing to several reasons, including high energy and other operational costs at Marol, Mumbai. These transfers were challenged by the Workers' Union before the Courts. Subsequent to 31.03.2009, the Company has amicably resolved the dispute and signed a settlement with them. In the month of May, 2009, a Voluntary Retirement Scheme (VRS) has been offered to all its workmen at Marol plant, Mumbai which has been accepted and fully implemented. The Union has withdrawn from courts all legal cases filed against the Company.

The Company's furnace at Marol plant, Mumbai has completed its useful life and has been cooled down. All production activities have also been suspended at the above place. The Company has decided to set up a modern borosilicate glass melting furnace at a site in the Bharuch District of Gujarat and till this new plant is completed, market demand will be catered to from its existing stock as well as from imports. The sales during the year under review were lower at Rs.7127.11 lacs as compared to Rs.7757.49 lacs in the previous year. During the year, the Company incurred loss of Rs.940.84 lacs as compared to profit of Rs.53.59 lacs during the previous year.

The reasons for losses are attributed to the following factors:

1. High operational cost particularly increases in energy cost. Electricity price further rose by about 10% from June 2008.
2. Although the Company shifted its Cold-end activities to Bharuch District of Gujarat in April'08, the workers did not join their duties there with the result that the Company outsourced the work to another Company and during the interregnum period, the production suffered a major set back.
3. Owing to ageing of furnace at Marol, the selection level there reduced substantially.
