Operations

Strong economic growth and continued focus on several measures, aggressive marketing efforts, cost cutting and quality process improvement have all helped the Company in achieving its best performance yet, with sales volume in both domestic and international markets and profits touching new peaks.

Historic Event

Your Company has acquired Cimmco Spinners a yarn manufacturing unit situated at Solapur, Maharashtra from Xpro India Limited (a S K Birla Group Concern) on 21-10-2003. Acquisition of Cimmco Spinners is a **significant landmark** in the history of the Company.

Cimmco Spinners has a capacity of 26,208 Ring Spindles & 9 TFOs to produce 100% Cotton single and double, electronically cleared, high quality spliced, siro cleaned Yarns.

Markets

Yarn

The Yarn prices continued to be subdued in the International markets, but prices in the domestic market were significantly better in the later part of the year. "Quota" restrictions on volume of textile exports being removed from 1st January, 2005. The problems of market access would be in the form of tariff and tariff barriers. Under these circumstances pure economic performance and well-managed competitive advantages will count more than ever. CLC has already started taking initial steps in this direction. It has also started making its presence felt in newer market round the globe and has been meeting potential customers to take advantage of the market post quota market situation.

Textile

Compared to previous year the trading of fabric is better inspite of uncertainty of market. During the year the direct sales of textile fabric amounted to Rs. 3701 lakhs.

The Indian textile industry is facing serious challenges from cheaper products which are supplied by the neighboring countries and there is a lot of uncertainty about post quota situation in the industry, the expectations are positive, exports from India are expected to increase in the free trade era due to availability of skilled and cheap labour force in India and locally produced raw materials.

Steel & Ferro Alloys

During the year the Steel & Ferro Alloys Industry faced several problems like increase in the power and raw material cost, beside non availability of essential raw material. Inspite of all this the Company has achieved good results and registered a sale of Rs.7222/- lakhs during the year.

Increase in Excise duty and freight rates are major threats to the industry. It is believed that the domestic Steel & Ferro Alloys selling price would be stabilized with cut in excise duty, freight rates and other benefits provided by the Government to the manufacturers.

With sharp increase in global steel prices and further increase in steel prices consistent with opening of Duty Entitlement Pass Book Scheme (DEPB) the Indian steel & Ferro Alloys traders/exporters/manufacturers will play major role in the coming days by becoming more competitive.

Future Outlook

Your Company is planning a major expansion in the manufacturing of cotton yarn by setting up cotton spinning unit to utilize the surplus land approximately 1,43,000 sq. mtr lying at Cimmco Spinners B-1, MIDC, Chincholi - Kondi, Solapur 413 255, Maharashtra.

Your Director's also making efforts to reduce cost at all levels of activity including reduction in borrowing costs and aggressive marketing efforts so as to achieve reasonable levels of profitability.

Dividend

As already informed that Company is planning major expansion, to conserve the Company's resources for its future activities, your Directors have not recommended any dividend for the year under review.

Fixed Deposits

The Company has not invited or accepted any deposits from the public pursuant to Section 58A of the Companies Act, 1956 during the year under review. However the deposits are accepted from promoters and their friends/relatives.
