The Sales and other income for the financial year under review are Rs. 790.96 lacs against Rs. 925.89 lacs for the previous financial year indicating a decrease of 14.57%. This decline in sale is mainly due to recession in steel industry & overall economy. The Rajasthan State Electricity Board have adopted negative attitudes towards steel industry and have imposed undue & unjustified demands. There is a dispute about payment of electricity dues going on between the company and RSEB. The Company is not functioning since 8th June 1998. The company has filed cases against the RSEB and the directors hope that the company will soon commence its production.

### 2. PROGRESS OF THE ROLLING MILL PROJECT

As the members know that the Company had already acquired land approximate 12000 sq. meters for the project. Building and Shed work is complete and major parts of the Machineries have been installed while some minor machineries are under installation. The company has already deployed its own sources on the Project and also Rs. 91.21 lacs obtained from RIICO Ltd. The production of first phase of the project will be commenced in Nov. 98. The Project is delayed due to negative attitude of RSEB to give the power connection for the Rolling Project. Now the company has planned to start the Project without obtaining Power Supply from RSEB by installation of generator. The company is negotiating deals for the same.
