MESSAGE FROM MANAGING DIRECTOR

Dear Shareholders,

We can now confidently say that CCL International Limited continues to operate from a position of balance and strength. We are growing construction business in not only India but also stretching global. We are performing today to deliver top-tier financial performance, while investing to ensure that our performance levels can be sustained in the long term. This year we stepped up our investments without compromising in brand building, R&D, emerging markets infrastructure and our people.

The ability to effectively identify, mitigate and manage the construction risk inherent in every project it undertakes, and the ability to deliver those projects in a manner that appropriately protects the safety of employees, stakeholders and the public, are key elements of success in the construction industry. Developing industry leading capabilities in these areas is a fundamental part of CCL's strategy. CCL International has established a detailed set of project criteria and risk management practices that are continuously reviewed, updated and improved. From the criteria set for selecting the projects it bids, to the evaluation of project risks and appropriate mitigation measures, to project pricing and the senior management approval processes a bid must go through, risk management is a strategic and operational priority for CCL International. An important element of CCL International's risk management strategy is the ongoing monitoring of projects under construction to ensure that the risk management plan established at the bid stage of the project remains sufficient and is being effectively implemented. To assist in this effort, CCL International has established a 'project controls' team, consisting of some of CCL International's most experienced and knowledgeable staff, whose mandate is to ensure that complex projects are provided with state-of-the-art management controls for contract administration, cost control, scheduling and other best practices. This team also reviews the status of key projects against a set of pre-determined criteria, and ensures that the project is meeting its financial and risk management objectives.

This year we started certain safety programs from our front line employees to the managing division onsite. It is the responsibility of everyone at CCL to ensure each worker, including direct employees and subcontractors, gets home safely to their families each day. Training is being provided for various activities now on-site to reduce accidents to zero levels, which include tripping hazards, pedestrian and vehicle traffic, construction awareness, ladder safety, dressing for the weather, secured shelving in storage areas, electrical safety, and personal protective equipment.

We are confident that CCL International will be India's premier construction and infrastructure Development Company. Our employees across India are hard at work making CCL International the best company for our clients, our partners, and you, our valued shareholders.

Thank you for your continued support.

RAMA GUPTA
