Annexure to the Directors' Report**Management Discussion and Analysis**

Your Company's healthy growth record continues year after year only and the growth got bettered in this fiscal.

The uninterrupted growth of your Company, despite the clouds of housing construction slow down, is due to the marketing efforts and product quality. On the marketing front, your Company inducted Miss Dia Mirza, a well-known celebrity from the film fraternity, as CERA's brand ambassador. The new television commercials, print advertisements featuring Miss Dia Mirza in various media were released during the year.

Your Company also strengthened its CERA Care division with induction of technicians for taking care of its after-sales services in all key cities of the country.

Another milestone in improving the retail experience of customers is inauguration of CERA Style Studio in Mumbai in the prime western suburb Veera Desai Road in Andheri (West).

a) Industry Structure and Developments

Your Company's brand CERA, with its impeccable legacy of over three decades, continue to grow, much above the industry rate, despite the competition from peer brands-both domestic and international. Your Company's well-entrenched and loyal distribution network, nation-wide teams for quick response in sales and service, immaculate product quality, and continuous advertising and promotion of the brand through television, print, OOH and POP have helped place CERA in an enviable platform in the minds of the customers.

Your Company's brand extension to other related categories like showers, faucets, PVC cisterns, seat covers, etc. has also helped in accelerating the growth. Such brand extensions will continue in the coming years as well, which will help CERA establish eventually as a total home solutions brand and place the brand ahead of its peers.

The industry structure remains unchanged with domestic and International brands vying for space in the Indian market and for getting larger shares.

b) Opportunities and Threats

Though there was no significant drop in housing construction rate in the fiscal under review, the fears of Euro-zone cloud looming over India too is not ruled out. However, your Company is unperturbed by such prediction because of its well-established mid-segment positioning in the market. The demand in mid-segment housing is likely to be least affected by any impending slow-down and hence your Company is confident of maintaining the growth rate.

c) Outlook

Your Company's brand CERA has strong equity, loyal and dedicated network. The width of distribution network is also being increased continuously for across India to reach out to tier two towns, where there is huge potential.

In addition to this, your Company has been continuously present in television and print media and today, CERA has near top-of-mind recall amongst architects, interior designers and builders.

Your Company is also been fortifying its rapport with housing developers and influencers like architects, interior designers and plumbing consultants. This is being done through personal contacts by your Company's sales team as well as through sponsorship of get-togethers by the organizations of these personnel like CREDAI, IIA, IIID, IPA, etc.

Your Company's growth continues to be much above the industry growth, year after year, which is testimony to its product quality and marketing success.

The successful display centre concept of your Company, introduced through CERA Style Studios is now extended to more cities. One such CERA Style Studio was opened in Andheri West in Mumbai. Soon, another CERA Style Studio in Gurgaon will be opened.

The CERA Style Galleries opened in several cities in collaboration with CERA dealers have been a success, with many more dealers coming forward for opening such Galleries. Already 36 CERA Style Galleries are functional all over the country.

Together, the CERA Style Studios and CERA Style Galleries have been of great impact in improving the retail experience for prospective customers and institutional buyers of CERA.

d) Risks and Concerns

Any drastic change in the Government Policy may affect the sanitaryware and faucetware manufacturers.

(e) Internal Control Systems and their adequacy

The Company has an adequate system of internal control relating to the purchase of stores, raw materials, plant & machineries, equipments and various components and for the sale of goods commensurate with the size of the Company and the nature of business.

The system of internal control of the Company is adequate keeping in mind the size and complexity of your Company's business. Systems are regularly reviewed to ensure effectiveness.

(f) Financial performance with respect to operational performance is discussed in the main part of the Report.

(g) Material Developments in Human Resources / Industrial Relations

Faced with the shortage of quality manpower, the thrust of your Company has been on talent improvement through training programmes.

Your Company continues to invest in training and development of its employees and has been organizing various training programmes from time to time.

CERA's manpower strength as on March 31, 2012, stands at 1895.
