## Message from the Chairman

Driven by its core values of integrity, excellence and accountability, CRISIL enhanced its market leadership and gained ground.

The year 2019 was a challenging one marked by economic slowdown and increased regulatory scrutiny. Driven by its core values of integrity, excellence and accountability, CRISIL enhanced its market leadership and gained ground.

The ratings business registered strong growth as issuers and investors leaned towards best-in-class analytical quality amid credit events and rising asset quality worries. India Research increased data and credit coverage to over 62,000 companies through the Quantix platform. This enabled market participants to leverage unique datasets and new models to gain differentiated insights.

Coalition's analytics, born out of triangulation of data, industry intelligence, and deep understanding of business, enabled its customers to make strategic decisions with conviction. The business saw sustained demand for its benchmarking analytics among corporate and investment banks, both global and regional.

A shift in assets from active to passive investing, impact of regulation such as MiFID II and IBOR, changing operating models and adoption of cutting-edge technology informed the strategy of our Global Research & Analytics business. The focus during the year

was on fundamental research, building data science capabilities, and pursuing opportunities in the risk change and transformation space.

During the year, we also took another step towards strengthening our position as a leading, agile, global analytics company with the acquisition of Greenwich Associates LLC.
Greenwich is a US-based company and leading provider of proprietary benchmarking data, analytics and qualitative, actionable insights that helps financial services firms worldwide measure and improve business performance.

The collaboration between S&P Global Ratings and CRISIL continues to expand, with the Global Analytical Centre ramping up both ratings support and surveillance coverage.

Our Advisory business won marquee mandates from governments and multilaterals, and continues to play a pivotal role in shaping the infrastructure landscape of India and emerging markets. Our risk assessment models and early-warning systems found greater resonance with banks and non-banks.

Mein Pragati, CRISIL Foundation's flagship program in Assam and Rajasthan, continued to work towards sustaining and deepening the impact in its second phase with the help of a trained cadre of over 600 community workers, expanding the coverage to over 250,000 women. I am proud to inform you that this program received the prestigious National CSR award from the Hon'ble President of India. We introduced GramShakti, a new certification model that will enable scaling up of this initiative. Further, our environmental conservation efforts also gathered momentum with plantation of over 28,000 trees, taking the employee to trees planted ratio to 1:8.

The company's efforts to provide a diverse and inclusive workspace was recognized for the fourth year in a row by Working Mother & Avtar.

I take this opportunity to thank our employees for their dedication and hard work. I would also like to thank you, our shareholders, for your strong support over the years.

Best wishes for a great 2020!

Warm regards,

**John L Berisford** Chairman
