### **About Us**

An Original designer and manufacturer (ODM), Calcom Group started its operations manufacturing Calculators in 1976. Within a few years we ventured into the manufacturing of Televisions. This expansion led to us becoming one of India's largest Television manufacturer with an annual volume touching 1 million TV sets per year, catering to leading brands such as Philips, Thomson, BPL, LG, Samsung etc.

We then broadened our horizons and began manufacturing Lighting Electronics and developed an all-inclusive range of LED products, Traditional Luminaires and Electronic Ballasts. After that there has been no

### CHAIRMAN'S MESSAGE

Dear Shareholders,

Over the last one year, the global economy has been grappling with a Volatile, Uncertain, Complex & Ambiguous environment. COVID-19 pandemic has ravaged the economic foundations of world trade and is forcing an unprecedented social, economic, and business response. It has fundamentally changed the way we live, work, and has made 'Work from Home', 'Social distancing', and 'Higher technology adoption' as the 'new norm'. As the world deals with the spiraling effects of the pandemic, at Calcom, we quickly took decisive action to respond to the unfolding challenges.

FY 2019-20 was a period of significant external challenges, even before the COVID-19 crisis. Weakening macroeconomic environment, sectoral liquidity tightening and slowdown in infrastructure segment impacted the demand for the lighting industrial products. In addition, muted consumer sentiment impacted the demand for electrical goods.

Factory was closed from March 22, 2020 following countrywide lockdown due to COVID-19. Obtained permission to reopen with limited manpower and the Factory reopened on May 18, 2020 after sanitization. The Company is taking utmost care of its staff and work force in terms of regular sanitization of premises, maintaining social distancing, mandatory mask wearing, thermal checks at the gate, maintaining proper hygiene etc.

In this background and these unprecedented difficult times, your Company has been able to perform reasonably well and achieved a sale of Rs.4736.23 lacs during FY 2019-20 in comparison to Rs.5232.28 lacs during the previous year.

There has been a huge slide in the EMS Job work services. The major demand for the EMS Services comes during the festival seasons, when demand for the consumer goods peaks up and manufacturers look for additional capacities during third and fourth quarter of the year. However because of the contraction in the economy the business shrank in the second half of the year and EMS Services business crashed. The situation was worsened with the lockdown in the month of March, 2020. All this impacted the financial performance badly.

Despite the challenging scenario, we are optimistic about successfully navigating through these tough times and emerging stronger. Our focus towards OEM/EMS business model, backward integration of almost all our products, new customer additions with an enhanced product portfolio and focus on cost reduction helped us achieve our goals.

The Company had tied up with PANASONIC LIFE SOLUTIONS INDIA PVT LTD and started producing LED Bulbs for them in the month of June,2020. We produced little over 2,00,000 in June and have been able to ramp up to 1 Million Bulbs in the month of October, 2020. We have also developed some exclusive products for BAJAJ ELECTRICALS LIMITED whom we added as one of our privileged customers last year.

The company is also in discussion with other major brands and expects to conclude the business in the financial year 2020-21.

The Company has started the production of Low Wattage Bulbs in this Financial Year and plans to increase the capacity further to meet the increasing demand. We have imported Automatic Bulb Assembly Machine to increase the production capacity and improve the quality.

The company is now focusing mostly on LED bulbs. It designed bulbs which are more reliable and are able to withstand voltages upto 440V and spikes/surges upto 4000V. Your company has designed bulbs for various wattages as per new BEE standards which will become applicable from 1st January 2021. These bulbs are more energy efficient, as the lumen output per watt is increased by almost 15%.

Amidst all the disruption and economic fallout, there is an opportunity for India to acquire new overseas markets as companies across the world look to mitigate risk and diversify their supply chains or relocate their manufacturing hubs.

I would like to thank the Board and the Board members for their wisdom, guidance, support and dedicated efforts. Board present their deep condolence on the sudden death of Mr. Hamidullah Kabir Khan and thankful to his vision and guidance during his tenure. The Board pleased to share that Mr. Ashok Kumar Sinha, is appointed as an Independent Director of the Company, who brings his expertise and competence in the growth of the Company.

I would also like to take this opportunity to show our appreciation to our employees who, individually and collectively, make us a better and stronger organisation. As to our customers, business partners and shareholders, we look forward to your steadfast support as we continue our path of sustainable growth and value creation. Thank you for believing in us and be our companion in this journey!

With Best Wishes,

Sushil Kumar Malik Chairman and Managing Director
