DIRECTORS' REPORT**To the Shareholders**

The Directors have pleasure in presenting the Fifteenth Annual Report together with the Audited Accounts for the Year ended 30th June, 2006.

Financial Performance

	(Rupees in lacs)	
	2005-2006 12Months	2004-2005 15Months
Sales and Other Income	3238.03	2631.06
Profit/(Loss) before Tax	258.38	70.59
Profit/(Loss) after Tax	227.18	63.39

The Financial performance for the year 2005-06 includes Three months operations of May (India) Laboratories Private Limited(May India) consequent to the merger of May India with your Company with effect from 1st April 2006 by the Orders of the High Court of Judicature, Chennai

DIVIDEND

Keeping in view the need to conserve resources, your Directors after careful consideration, have decided not to recommend any dividend for the year ended 30th June, 2006.

OPERATIONS & OUTLOOK

The Company could achieve a growth of 54 % as compared to previous year with 3.5 times of Profit Before Tax. This is mainly due to increase in outsourcing opportunities as well as the revenue arising out of three months merged entity operations.

As stated in the earlier reports, subsequently to the close of the year, the Company was able to successfully complete the one time settlement with the Banks with the support of the strategic Investor who could mobilize additional resources to meet the settlement with the Bankers. The Company was able to seek waiver of Rs...183.95 lakhs towards interest provision made by the Banks as part of the one time settlement.

With the enhanced manufacturing capacity coupled with new markets and product range, consequent to the merger, the company will move from a major outsourcing company to an exporter in the coming years.

Necessary provision has been made for obsolete inventory and doubtful receivables.

Merger of May India Laboratories Private Limited

Consequent to the Orders of the High Court of Judicature, Chennai , May (India) Laboratories Private Limited merged with this Company with effect from 1st April 2006, and the Shareholders of May India were allotted 79,20,000 Equity Shares of Rs.10/- of your Company in consideration of the same, on the terms and conditions stipulated by the Orders of the High Court and the Stock Exchanges.

Management Discussion and Analysis Report**Industry Structure and Development/Opportunity – Threat**

The Indian Pharmaceuticals market ranks 4th in the world in terms of volume and 13th in terms of value. The Government has taken a number of steps to fuel further growth in the sector such as export incentives, patent protection, import liberalization and increased outlay on health.MRP (Maximum Retail Price) based excise duty was made applicable to the pharmaceutical industry from January 2005. This caused many pharmaceutical companies to revisit their cost structure including your company

Risk & Concerns

Lack of clarity on the Governments future policy in relation to Price control continues to be a concern facing the industry .The introduction of VAT has also affected the demand due to the uncertainty on VAT as the implementation in several states are still under process. Though there is potential for your company in the market to expand, the lack of working capital and term loan facility was a major bottleneck in expanding our growth and with the merger of May India and resumption of working capital facilities it is planned to scale up the operations .The introduction of VAT in Tamil Nadu recently has resulted in increase in off take of pharma companies thus increasing our outsourcing opportunities.

The major risk in our export front is the lack of our presence in the past two years in view of the financial position of the Company. But the past relationship and several steps which the Company has initiated including aggressive pricing to revive the export market on its own will yield better export performance in the coming years.

Internal Control Systems and their Adequacy

The company maintains a system of internal control, including suitable monitoring procedures and the same needs to be strengthened and with the support of the principal manufacturers the system and procedure are being strengthened. Significant issues are also brought to the attention of the Audit Committee.

Outlook for the year 2006-07

The company has now planned for a two pronged strategy namely on the one hand increase out sourcing opportunities of MNC's and renew the export opportunities which the company has not been pursuing in the past years owing to lack of working capital support thereby the revenue is expected to grow substantially. The Company is also exploring various new Product/Process technologies from overseas Research/Institutions to meet the local and export market in the niche segments. The Company is also planning to revive its market thrust in the South American countries where several of your products have already been registered.
