### REVIEW OF OPERATIONS 1998-1999

During the year under review, though the thrust was to improve the operations through better capacity utilisation with expectation of higher sales realisation, it could not be achieved. Both the the production and sales have come down. While there was a marginal 90MT increase in production at Chalakudy factory, production at Edayar factory fell short by 889 MT as there was stoppage of operations for nearly 32 days for MG grinding and other plant maintenance.

The power supply position in Kerala improved and all raw materials were available at reasonable costs. However, the general show down in economy confronted by recessionary trends in major sectors of the industry and the sluggish market conditions has resulted in depressed selling prices. There had been no improvement in selling price, the net price realisation in fact declined by 3% on an average. The dull market conditions thus has considerably affected Company's operating results. Added to this, higher incidence of interest and financing cost depressed the net profit.

The Company obtained Electricity duty exemption for a period of 5 years from 29-10-1995 to 29-10-2000 for its Chalakudy factory.

#### AWARDS

Kerala State Pollution Control Board awarded the Company a second place among medium scale industries, in making substantial and sustained effort in pollution control in the year 1998 at our Chalakudy factory and, besides certificate of merit, a cash award of Rs. 10,000/- received.

#### PROSPECTS FOR 1999- 2000

The performance of the Company for the current year so far has shown some signs of

## **SREE SAKTHI PAPER MILLS LIMITED**

improvement. Both the production and sales have picked up. In the paper industry, there is a turnaround. This is not just a local phenomenon but a global one. Import prices of raw material waste paper have been going up and paper prices will follow suit with a time lag. Paper prices in the local market have been hiked recently. Economic recovery in various other industrial sectors will result in demand for the Company's products. There is a definite customer preference for our Company's paper/paper boards due to quality. The Company expects a reasonable profit margin, as the current production levels are at optimum. The Company expects to further improve efficiency through reduction in variable costs and reduction in working capital.

In spite of this optimistic scenario, the Company will be continuously under pressure due to heavy burden of interest. The Company is negotiating with I.D.B.I. to see whether it is possible to reduce interest costs marginally through a financial restructure of major part of a loan.

Your Directors do hope that the Company will achieve satisfactory performance for the current year.

### **INDUSTRIAL RELATIONS**

With the excellent support and cordial relations extended by the employees at all the Company's units, your Company could achieve satisfactory levels of performance.

### **DIVIDEND**

Considering the lower profits and keeping in view the need for conserving funds to meet the working capital requirements, your Directors do not recommend any dividend.

### **BOARD OF DIRECTORS**

In accordance with Article 83 of the Articles of Association of the Company, Sri S. Subramaniam and Smt. E. Kamalam retire on rotation, they being eligible offer themselves for re-appointment.

### **AUDITORS**
