ANNEXURE TO THE NOTICE

Explanatory Statement under Section 173(2) of the Companies Act, 1956.

Item No.6

On resignation of Shri S.P. Subhedar representing L.I.C. on the Board of the Company, at the latter's request, Shri H. Narayanan has been appointed as an Additional Director of the Company by the Board of Directors pursuant to the provisions contained in Article 110 of the Articles of Association of the Company and Section 260 of the Companies Act, 1956. According to the provisions of the said Article and the said Section he will hold office only upto the date of this Annual General Meeting. As required under Section 257 of the above Act, notice has been received from a member signifying his intention to propose him as a candidate for the office of Director. Shri Narayanan is Zonal Manager (Retd.) of L.I.C. and as such has considerable commercial experience. His re-appointment on the Board will be in accordance with the desire of L.I.C. which holds a fair amount of equity in the Company and will also confirm with modern corporate practice.

It is in the above circumstances that the Resolution mentioned in this item of the notice is proposed to be passed and commended for your acceptance.

Shri Narayanan is interested in this Resolution relating to his re-appointment.

Item No.7

On account of the sad demise of Dr. Ramnath A. Podar, a Director of the Company, the number of Directors now in office stands reduced from 11 to 10 and the vacancy is not proposed to be filled up for the time being. The specific Resolution as in Item No.7 though not strictly necessary is being proposed to be passed in view of the provisions of section 258 of the Companies Act, 1956, by way of abundant caution.

Item No.8

Shri B.L. Jain, Senior President of Century and Maihar Cement Divisions of the Company, was appointed on the Board with effect from 1st April, 1999 pursuant to the provisions contained in Article 110 of the Articles of Association of the Company and Section 260 of the Companies Act, 1956 and thus became a Whole-time Director of the Company. In view of his appointment as additional Director, under the Provisions of the said Article and Section 260 of the Companies Act, 1956, he will hold office as Director only upto the date of this Annual General Meeting and has to be re-appointed at the general meeting. Shri Jain has been in the service of the Company for the last nearly 37 years holding a very senior position and has considerable experience about the business and affairs of the Company. It is, therefore, desirable and in the interest of the Company that it should continue to avail of his services as a Member of the Board and consequently as a Director in the whole time employment of the Company for a further period.

Accordingly, it has been decided subject to the Central Government's approval, to continue his appointment as Director in the whole time employment of the Company with effect from 1st

April, 1999 for a period not exceeding five years as the Board may determine. It is in these circumstances that the resolution in item No.8 of the Notice is being proposed for the consideration of the Members. The details of the remuneration payable to him incidental to his employment with the Company are set out in the resolution. The same may also be treated as an abstract required to be circulated to the Members under the provisions of Section 302 of the Companies Act, 1956. As required under Section 257 of the Companies Act, 1956 notice from a member together with the required deposit, in respect of the resolution has also been received by the Company.

Shri B.L. Jain is deemed to be interested in this resolution concerning him.

Item No.9

Although not strictly necessary, this Explanatory Statement is being given in respect of the Resolution mentioned in this item of Notice since the Resolution for the re-appointment of the retiring Auditors will be proposed as a Special Resolution in view of the provisions contained in Section 224A of the Companies Act, 1956. The Financial Institutions, Banks and Insurance Companies at present hold and are likely to continue to hold at the date of ensuing Annual General Meeting, more than 25% of the subscribed share capital of the Company which necessitates the passing of a Special Resolution.

In view of general increase in costs associated with services rendered, the remuneration of the Auditors is also proposed to be increased from Rs.34.00 lacs to Rs.37.40 lacs plus service tax on Audit Fee as is applicable and actual travelling and other out of pocket expenses incurred incidental to their functions as mentioned in the Resolution.

As required under Section 224 of the said Act, the Auditors have forwarded a Certificate to the Company stating that their re-appointment if made, will be within the limit specified in sub-section (1B) thereof.

Item No.10

At the Annual General Meeting of the Company held on 8th September, 1998 the members had approved the re-appointment of Messrs Dalal & Shah, Chartered Accountants, the retiring Auditors as statutory Auditors of the Company to hold office from the conclusion of that meeting until the conclusion of the next Annual General Meeting of the Company on a remuneration of Rs.34.00 lacs (Rupees thirty four lacs only) for the said period plus actual travelling and other out of pocket expenses incurred incidental to their functions. However, subsequent to the members' approval, the service tax provisions as per the Finance Act, 1998 are also applicable to remuneration payable to the Auditors of the Company. The Resolution set out at item No.10 of the Notice is proposed to obtain the approval of the members of the Company for payment of such service tax to the Auditors.

The Directors accordingly recommend the resolution mentioned in this item of the Notice for approval of the shareholders.

By Order of the Board,

Mumbai,
Dated : 15th June, 1999

D.K. AGRAWAL.
Secretary

DIRECTORS' REPORT

Dear Shareholders,

We present the 102nd Annual Report of the Company alongwith the audited statements of Accounts for the year ended 31st March, 1999. The financial results are shown below. The results of the Company during the year under review have been adversely affected because of the severity of the ongoing recession, the maximum impact of which was felt for most part of the year. Though the working and operational parameters at all the major plants of the Company were satisfactory, the position was further worsened by the stay-in illegal strike resorted to by the workers resulting in lock-out at the factories of Pulp and Paper Division which lasted for sixty eight days. Global demand recession, generally adverse market conditions, instability of the Central Government and the South-East Asian crisis further augmented the difficulties faced by the Company.

In view of the adverse financial performance, pressing need for cost reduction and for making further improvements in operational efficiencies, we have recently appointed Andersen Consulting for conducting strategic performance improvement projects in relation to the Textiles, Rayon and Manikgarh Cement Divisions of the Company. Their report should be available within next 4 to 5 months.

From February 1999 onwards, there has been improvement in the offtake and prices of cement. Bagasse Paper Plant has now achieved optimum capacity utilisation and paper market has shown some signs of recovery. In Textiles, marginally cheaper imported cotton should help to improve the financial results.

1. SUMMARISED FINANCIAL RESULTS:

	(Rs. in Crore)	
	1998-99	1997-98
Gross Sales	2174.87	2207.94
Gross Profit after interest	56.12	58.26
Provision for Depreciation	148.82	145.57
Provision for Wealth Tax	0.30	0.24
Excess tax provision relating to prior years	—	+2.37
Profit/(Loss)	(93.00)	(85.18)

2. DIVIDEND:

The Board of Directors has recommended, subject to approval of the Central Government and Banks in view of the net loss, dividend of 6% (six percent) on Paid up Equity Share Capital for the year ended 31st March, 1999 as against 10% (ten percent) in the previous year on Equity Shares of Rs.10/- (ten) each, which will be paid out of General Reserve. The Directors have paid 10.25% dividend on Redeemable Cumulative Non-Convertible Preference Shares of Rs.100/- each for the year ended 31st March, 1999. The members are requested to confirm the same at the ensuing Annual General Meeting.

3. DEPOSITORY FACILITIES IN RESPECT OF EQUITY SHARES:

As you are aware, National Securities Depository Ltd. (NSDL) has been providing Depository facilities in respect of Company's Equity Shares under the Depositories Act, 1996 and the Regulations made thereunder.

Recently, the Company has entered into an agreement with Central Depository Services (India) Ltd. (CDS), another depository established under the Depositories Act, 1996 to provide depository facilities. Those members who are desirous of opting for this facility may contact one of the Depository Participants (DPs) of either National Securities

Depository Ltd. (NSDL) or Central Depository Services (India) Ltd. (CDS) as per their own evaluation and convenience.

4. NON-CONVERTIBLE DEBENTURES:

During the year under review, 50,00,000 15.5% Secured Redeemable Non-Convertible Debentures of Rs.100/- each (Xth series) aggregating to Rs.50 crore were issued on private placement basis. The funds raised are being utilised for the purposes for which these were raised.

5. EXPORTS:

Exports continued to be an area of thrust and total Exports of the Company during the year under review amounted to Rs.435 crore which is about 22% of its Net Sales.

In view of large exports, the Company continues to enjoy the status of 'Star Trading House' awarded by the Ministry of Commerce, Government of India.

6. TEXTILE DIVISION:

During the year under review, the value of cotton consumption has gone up by about 16% due to increased cotton prices which had an adverse impact on the performance of this Division. The wages & dearness allowance also continued to rise.

The severe recession worldwide and general economic slow down witnessed by the country last year also had an adverse impact on the export and domestic markets which continued to remain depressed during the year under review. In view of the abolition of Anti Dumping Duty on the export of unbleached cotton grey fabrics by the Indian Textile Industry to European Countries, it has become easier to sell the goods in the export markets but the price realisation has not been to the Company's expectations.

It is gratifying to mention that this Division has received Special Gold Trophy from Texprocil for outstanding export performance for the year 1997-98. Further, it has also received 'Silver Plaque' and 'Certificate of Merit' from Government of Maharashtra for outstanding export performance successively for three previous years ending 1996-97.

It is gratifying to note that due to our quality consciousness and thrust on consumer satisfaction, we have been able to export fabrics/yarn worth Rs.247 crore during the year.

Some signs of optimism are also on the horizon in view of the availability of marginally cheaper imported cotton and possibilities of some recovery in the sale of cloth.

Modernisation and technological upgradation programmes with special emphasis on the use of computers continue.

For Research & Development, we have concentrated towards achievement of sustainable environmental improvement and enhancement of fabric quality at minimum possible cost. Improved dye combinations for large number of shades have been achieved to satisfy ever changing consumer taste.

7. CENTURY YARN DIVISION:

We have achieved optimum capacity utilisation and consistency in production, and have exported Yarn worth Rs.51 crore which is deemed satisfactory considering the present market scenario. The quality of our yarn is widely accepted in the global markets.

This unit has received accreditation to ISO:14001 Environmental Management System.

8. CENTURY DENIM DIVISION:

We are pleased to inform that this state-of-the-art high tech Division has made a dent in the global denim markets and is producing denim fabrics of consistent good quality, which have acquired worldwide acceptance. The value of exports during the year amounted to Rs.51 crore. At present, the world market for denim fabrics is highly depressed due to increased supply and lower demand.

We are in the final phase of acquiring Registered Trade Mark for "Rapid Wash Denim" process developed through inhouse R & D which is economical, ecologically better and meets the requirements of garment manufacturers.

As per new government policy, EOUs have been allowed to sell their products in domestic market to the extent of 50% of their export turnover. With this, Century Denim is all poised for increased domestic marketing and expects to make a dent in this competitive market.

9. RAYON, TYRECORD & CHEMICALS DIVISIONS:

Production of Rayon Yarn during the year under review was marginally lower at 13985 Metric Tonnes against 14387 Metric Tonnes produced last year. Due to poor offtake of Yarn, we had to cut down production. Price realisation has also been lower. The Company, however, continues its efforts towards improving quality and productivity through revamping of existing processes and undertaking steps towards upgradation of technology. One major step was revamping of After Treatment Section for washing of Rayon Yarn cakes. Once completed, this is expected to further improve the quality of Rayon Yarn. Efforts towards energy conservation were also continued during the year, which led to further reduction of about 2% in power consumption. As against the poor local demand, Rayon Yarn exports were higher at 1524 Metric Tonnes which is an increase of nearly 22% over the previous year.

Commissioning of 12 continuous spinning machines supplied by M/s. Snia Engineering S.P.A., Italy was accomplished during the year and production of continuous Spun Rayon Yarn has started from May 1998. Production of 1078 Metric Tonnes of continuous Spun Yarn was achieved during the year. However the demand for this yarn also is at present depressed.

Performance of Tyre Cord Division was good and the production of Tyre Cord was substantially higher at 5505 Metric Tonnes which was 63% higher as compared to last year. Demand in the local market also was stable. Demand for Tyre Cord is expected to remain stable during the current year.

Offtake and prices of caustic soda lye continued to be extremely low. Production from membrane cell plant continues to take care of inhouse requirement, whereas the mercury cell plant was shut down due to non-viable cost of production and poor demand. Sale of other chemical products was generally satisfactory.

Installation of 2 x 6 MW DG sets has been completed and the trial run of the sets have been started. Electric power thus generated shall be of stable quality at lower cost compared to supply from the State Electricity Board.

Construction work of salt refinery project at Jamnagar has been completed and the plant has been commissioned. As a result of cyclonic storm in June 1998, salt production during the year was lower. In spite of poor demand of industrial salt, prices remained firm due to overall lower production of salt in Gujarat area.

It is heartening to mention that Century Rayon Division has been awarded ISO-9000 certification from ICMA and certificate for Export Recognition for 1995-96.

10. SHIPPING DIVISION:

During the year under review, the Company sold two overage Bulk Carriers, m.v. ADITYA KIRAN & m.v. ADITYA KANTI built in 1976 & 1977 respectively. With the sale of these two ships, the Company's fleet now consists of 6 ships aggregating to 201,117 Metric Tonnes deadweight.

During 1998 dry bulk sea borne trade declined, whereas the available tonnage remained at about the same level, resulting in freight rates being under pressure throughout the year. Dry bulk freight rates reached a record low in August '98 which was once again breached in January/February '99. However since then, there has been slight improvement in the freight rates.

The Company's two product tankers continue to be employed on time-charter to Indian Oil Corporation Ltd.

11. CEMENT DIVISIONS:

The comparative production figures are as under:
(In lac tonnes)

	Clinker		Cement	
	1998-99	1997-98	1998-99	1997-98
Century	8.05	10.02	10.95	11.30
Maihar Unit I	5.94	6.53	8.31	7.70
Maihar Unit II	9.58	9.93	10.41	10.64
Manikgarh	11.27	11.12	11.65	11.48
	34.84	37.60	41.32	41.12

The cement production could have been much higher but for the following adverse factors:

- Poor quality of coal.
- Unsatisfactory market conditions.

In spite of increase in the rates of power & coal, which are major components of cost, our cost of production has increased marginally due to improvement in productivity and curtailment in expenses.

The price realisation was better as compared to previous year which has resulted in somewhat improved performance of these divisions.

Improvement in Productivity

Due to concept of total productivity maintenance, there has been considerable improvement in power consumptions and these compare favourably with the other efficient units in the industry, in spite of the fact that two of our units are nearly 20 years old, and are of uneconomical size, judged from the existing standards.

Consumption per M.T. of production

	1998-99	1997-98
Electricity (kwh)	96.23	100.83

Captive Power Plants

The Captive Thermal Power Plants of 15 MW each at Century Cement and Maihar Cement are working at satisfactory levels of production. This has not only helped us to overcome power crisis to a considerable extent but also the cost of captive power generation is lower as compared to the cost of outside power which has helped in improving the overall performance of these divisions.

12. PULP AND PAPER DIVISION:

The comparative production figures are as under :

	(Quantity in tonnes)	
	1998-99	1997-98
a) Paper (Wood Based)	14,264	37,556
b) Paper (Bagasse Based)	54,490	59,546
c) Rayon/Paper Grade Pulp	26,542	34,290

Due to depressed market conditions, poor demand and piling up of stocks, the production of wood based paper was stopped for three months from April 1998 to June 1998.

Later during the year under review, workers resorted to a stay-in illegal strike resulting in lock out in all plants which contributed to low production and adverse working results during the year.

External factors such as heavy imports due to low import duty on Paper and Rayon Grade Pulp, excess of supply over demand and cut throat competition have adversely affected the industry in terms of declining sale prices.

However, on quality front, due to continuous endeavour of the management, our products have increased acceptability in the market. We are pleased to inform that our efforts towards quality and systems have made it possible to get ourselves accredited for ISO-9002.

As reported last year, the availability of both timber and bagasse continues to be limited, resulting in higher prices of both the basic raw materials.

13. BIRLA TYRES:

Birla Tyres, run by a Consortium of four companies with the Company's share at 60% has shown improved performance in terms of productivity and profitability due to optimum capacity utilisation coupled with vigorous cost reduction exercises. The QS-9000 Certification in recognition of its Quality Management System has been received.

The Confederation of Indian Industry (Eastern Region) has awarded Certificate of Appreciation (HRD Award 1998-99) in recognition of the commendable efforts made by Birla Tyres towards Human Resource Development.

It's second phase of expansion programme is in the advanced stage of completion. Efforts are being made to start production before the end of the year 1999.

The relations with employees have been cordial and conducive to growth.

14. MISCELLANEOUS ACTIVITIES:**Floriculture Project:**

Due to overall improvement in technical management, the actual production of roses was 78 lac compared to 36 lac in the previous year. However, due to Global economic slow down and demand recession, prices in Japan and European countries were uneconomical resulting in unsatisfactory financial performance.

Production of other varieties of flowers like Gladiolas, Carnations, etc. for the Indian market has commenced and contribution from these varieties is expected to improve.

15. NEW PROJECTS:

In view of the adverse market scenario, no new projects are being undertaken. However, modernisation and technological upgradation programmes, as may be necessary, will be continued in all the Units of the Company to maintain competitiveness and better quality.

16. GENERAL - SPORTS AND WELFARE ACTIVITIES:**a) Textile Division:**

- At the 40th Annual Vegetable, Fruits and Flower Show Competition held in February 1999 organised by "National Society of Friends of Trees" the Company has bagged 'Runners-up Championship Rolling Trophy', 75 First prizes, 39 Second prizes and 37 Third prizes.
- At the 55th Inter Mill Sports Tournament organised by The Millowners' Association held in January 1999, the Division has won the General Championship, Athletics Championship and Women's Sports Championship.

b) Rayon, Tyre Cord & Chemicals Divisions:

- As part of employees' welfare activities, Kamgar Kalyan Kendra started Computer Education Classes for the employees' children.
- A blood donation camp was arranged in which 134 ladies and gents donated blood.
- Century Rayon Division has received following awards during the year.
 - ICMA Award for Social Responsibility - 1997.
 - National Energy Conservation Award in the Textile Sector for the year 1995.
 - Vishwakarma Rastriya Puraskar.

c) Cement Divisions:

Students of schools run by Century Cement and Maihar Cement Units continued to excel in the scholastic and sports activities. Some students were selected for Ball Badminton tournaments at State level competition.

Manikgarh Cement bagged the National Safety Award from the Ministry of Labour, Government of India for outstanding performance in Industrial Safety for achieving the longest accident-free period during the year 1993.

Century Cement mines have bagged the first prize in transport of material awarded by The Director General Mines Safety, Bilaspur Region and also the first prize in Environment and Mineral conservation awarded for Reclamation and Rehabilitation by the Indian Bureau of Mines, Nagpur Region.

Maihar Cement mines bagged the first prize in overall performance, standard of working, transport of mineral and overburden, house keeping and Environment & Ecology in the Metalliferous Mines Safety week 1998-99 of Jabalpur Region.

Manikgarh Cement mines bagged the first prize in Manufacturing Services from Quality Circle Forum of India, Nagpur chapter 98, best involvement and team work award and best oral version award from National Convention of Quality Circles 1998, Hyderabad.

17. POLLUTION CONTROL:**a) Rayon, Tyre Cord & Chemicals Divisions:**

- 25% of total treated effluent water is recycled and reused for gardening and reused within plant.
- Hazardous Waste Disposal Pit scheme has been commissioned.

b) Cement Divisions:

Top priority continues to be given to environmental protection for all the three units by keeping emission levels to the minimum possible.

18. INSURANCE:

Adequate Insurance cover has been taken for properties of the Company including Buildings, Plant & Machineries, Stocks and Ships.

19. INDUSTRIAL RELATIONS:

In respect of Rayon, Tyre Cord & Chemicals Divisions, Industrial relations continued to remain cordial and peaceful. No incidence of work stoppage or loss of man-days on account of labour problem was reported. In order to strengthen the relations and create further conducive atmosphere, a long term wage settlement covering the period 1.1.1999 to 31.03.2002 was entered into. Further, a 3 year settlement on payment of bonus for the year 1997-98 to 1999-2000 was agreed upon with the workers' union. Most of the other issues are being negotiated and expected to be resolved to satisfaction.

However, inspite of the adverse working, the workers of Century Pulp and Paper Division including bagasse unit resorted to stay-in strike unjustifiably demanding 20% bonus as against statutory 8.33% payable for the year 1997-98. Left with no other option, lock out was declared w.e.f. 15th November, 1998 which was lifted from 22nd January, 1999 after reaching an agreement with labour unions pending decision from the Tribunal. Fortunately, congenial industrial relations have since been restored. Except the above, Industrial relations in all the units remained reasonably stable throughout the year with signs of growing mutual trust between the management and employees.
