14. Social Objectives

Company is not only a Profit Oriented Unit, but also meeting its Commitment & Responsibility towards the society by undertaking the following measures:

- a) Development of new technique whereby rice could be made Pesticide Residue Free.
- b) Development of low cost water filters for poor segment of the society. The Company has named the new invention after the name of its Brand as Begum Water Filter.
- c) Project for tackling problem of wastewater logging and treatment of sanitary discharge in villages is under process.
- d) Development of diabetic rice for diabetic patients.

Chaman Lal Setia Exports Ltd.

- e) Zero Energy cool chamber development of more cost effective more users friendly cooling system at a very nominal cost.

15. Delisting of Shares

The share of the Company are listed on Mumbai Stock Exchange Limited and listing fees has been paid timely.

16. Pollution Free Environment: - Company's Slogan

During the Year Company has distributed free of cost plants of Neem & Jamun for plantation. As such company has prepared a nursery plants of Neem, Jamun etc. Further the Company has also used the Neem as bio pesticide for controlling infestation. To further accomplish Company's motive of pollution free environment Company is trying hard in making Bio Compost from waste and rejects of paddy to overcome the problem of waste. The Company's research & development Deptt. is also trying to stabilize rice bran for human consumption.

The Company's research work for paddy steeping to desired level of moisture without using excess water is still under trial.

Appreciation

The Board of directors thanks company's customers, public in general, shareholders, bankers and suppliers.

The Board also places on record its appreciation of the services rendered by staff at all levels and look forward to their valued co-operation and contribution in meeting the future challenges.

FOR & ON BEHALF OF BOARD

Place Amritsar
Dated 18-08-2006

CHAMAN LAL SETIA
Chairman

ANNEXURE - A

Particulars as required under Companies (Disclosure of particulars in the Report of Board of Directors) Rule 1988 and forming part of the Director's Report for the year ended 31.03.2006

A. CONSERVATION OF ENERGY

Maharani Zero Energy cool chamber has been developed by the Company to save Consumption of Electricity to a great extent. This system is of great help for common farmers whereby 30 to 35% wastage of vegetables/fruits can be saved resulting in a huge saving of the Country which otherwise are wasted due to sudden ripping due to high temperatures and humid atmosphere conditions.

B. TECHNOLOGY ABSORPTION

(i) Research And Development(R&D)

1. Various R&D initiatives were undertaken which have resulted in :
 - a) Development of Pesticide Residue Free aged Basmati rice;
 - b) Development of Smoked Basmati Rice;
 - c) Development of quick cooking Brown Rice;
 - d) Development of Sugar Free Rice;
 - e) Use of neem as Bio-pesticide;
 - f) Improvement in Parboiling for improvement in quality parameters;
 - g) Use of Plastic Buckets in parboiling plant thus reducing cost;
 - h) Development of Bhatti Sella for the first time in India;
 - i) Development of Fragrance Rice.
 - j) Reducing broken in paddy with very high sun checks under process.
 - k) Rice bran stabilization for human consumption under process.
 - l) Making bio-compost from waste and reject of paddy under process.
 - m) Cool Chamber system.

Chaman Lal Setia Exports Ltd.

2. Future plan of action.

The Company will try to assist any R&D Unit of any academy/University in this line.

3. Expenditure on R & D.

Wages, salaries, stores, spares & consumable used for R&D activities have been debited to Respective Heads.

(ii) Technology absorption, adoption and innovation.

The Company has completely indigenous technology & has not imported any technology from abroad.

C. EFFLUENT TREATMENT

Your Company has developed a "no cost" water treatment system for its Parboiled Unit.

D. ELIMINATION OF PESTICIDE RESIDUE: -

Aged rice is preferred for eating & cooking quality. But aging requires one & more years of storage and for safe storage, pesticides fumigants are invariably used to preserve the rice. These are highly toxic and even its residues are health hazards. Even recently some soft drinks have been found to contain pesticides residue contents.

As per norms of WHO these pesticides are to be phased out for human health & environment concerns and it is remarkable achievement of the company that it has developed a technology of aged rice without fumigation & pesticide usage resulting thereby a healthy and tasty rice for your health & family.

E. SMOKED BASMATI RICE: -

The company has yet another development to its credit that it has developed a new quality of rice called "Smoked Basmati Rice" which is monopoly of few millers in the world.

F. DIABETIC FREE RICE:-

Company has succeeded in developing a new variety of rice which is called "Rice for Diabetic people". These rice are with moderate G.I. Our claim for diabetic free rice has been upheld by department of Nutrition & diabetic of P.S.G college of Arts and Science (An ISO 9001 2000 certified institute also accredited at the 5 star level by NAAC) after two simultaneous research's.

G. LIGHT WEIGHT TILES:-

The Research & Development wing of the Company have been able to achieve a remarkable thing by developing lightweight tiles made from Rice Husks. Which can be used in multi stored building while construction. These tiles are light in weight and company foresee a good prospect of this innovative product along with elimination of Hazardous waste of rice.

H. CARDAMOM FLAVOUR RICE:-

The Company has yet another mile stone achieved to its credit by developing a different quality of rice called "Cardamom Flavour rice". This special rice has started giving its results by creating a Niche for its quality in middle East and Europe etc.

Management Discussion and Analyses

1. Economic Environment & Rice Industry:-

With 8% GDP growth foreign exchange of \$ 165 billion (Appox), FDI almost 8 billion and an over 20% rise in export, the Indian Economy is clearly on a strong growth path. Although rising inflation and heavy increase in oil prices are the matters of concern.

The performance of rice Industry is largely dependent on monsoon. Due to drought prevailed in the past in some areas, uneconomical rice prices, many rice Industries went through a period of recession. The minimum prices for paddy and rice of a few qualities is fixed by central govt. and some levies are also levied on rice Industry.

2. Outlook – Global Rice Industry:-

Gradual changes in economy are already visible with strong rural and urban growth and an end to down trading which strongly hampered market growth earlier. The implementation of VAT has also been a key to this changing scenario. It has enabled higher levels of compliance, transparency and reduced tax evasion. Going forward a thrust on innovation and enhances focus on branding, increased advertisement spent, focus on globalization and improved penetration levels are all going to be the key to drive growth.

During the year under review your company has tried to do all these while maintaining the growth rate. In addition to introducing new products company is also performing well in social sector by developing light weight tiles, eliminating pesticides residues introducing low cost water filter for common people.

Opportunities & Threats: -

Opportunities: _

1. The Company has developed a unique product i.e. Pesticide Residue Free Aged Basmati Rice which is absolutely free from any pesticide residue. This product of the company can be called triumph card for the future. As it is well known now that some of very popular food items have been found having pesticide residue content. But as far as our company is concerned, our product is now pesticide residue free and this is perhaps unique in the world. Its sale is increasing day by day.
2. Yet another development for which we can boast of is Smoked Rice having something-unique taste and flavour. This rice is now also picking up particularly in Saudi etc.
3. The company's novel product Bhatti Sella that was introduced three years before is selling at a premium in the rice market. This rice has the qualities like taste, aroma, easy cooking and longer preservation period.
4. Quick cooking brown rice developed by the company is very useful for large function at a big level and its sale is picking up especially in Saudi Area.
5. Yet another product of the company introduced last year is for Diabetic People who avoid normal rice. This rice developed by the company contains low quantity of sugar as compared to the normal rice available in the market. This will also prove a backbone in the profitability and sales of the company in the coming year.
6. **CARDAMOM FLAVOUR RICE:-**
The Company has yet another milestone achieved to its credit by developing a different quality of rice called "Cardamom Flavour rice". This special rice has started giving its results by creating a Niche for its quality in middle East and Europe etc. All these factors have largely contributed to increase in sales of the company both in domestic market as well as export market.
7. The Steam plant at Amritsar unit has been installed and ready for production and cater the need of steam rice especially for Saudi Arab.
8. The Company is in process of having a corporate office at Delhi to give a boost of its Export and domestic Sale.

Chaman Lal Setia Exports Ltd.

9. The fixed cost can be brought down substantially with increased production as the Company has the total Infrastructure at its both the units which has also led to increase in profitability. The Company has considerably reduced the financial cost by making a prudent use of funds and still hopeful for further decrease in financial expenses.

Threats: -

Under performance of world economy, global recession and unfavorable & deficit monsoon change in govt. policy are the threats which can depress the prices and the demand for rice. This risk can be mitigated largely due to the concept that Food Industry has lesser elasticity of demand as compared to the other products. Further the business wisdom and technological aspirations inherent in the management team can be quite helpful to overcome such difficulties.

As the company is mainly dependent upon Agriculture which totally depends upon the quality of rains in India, the poor rainfall can adversely affect the costing of the Company and consequent price realisation. But the Company has developed its procurement market through out India and if in any region the rainfall is lesser the Company can buy its raw material from the another region.

Risks and Concerns

The unprecedented nature of Rice Industry and volatile prices are areas of concern for which the company's focus to make cost of production internationally competitive and reduces interest cost by more & more utilising its own resources and cutting other cost through technological upgradation and computerisation of company's operations.

The protectionist measures initiated by other countries may close down the window for exports. However the company's focus is also on the domestic market.

In case of Sugar free Rice Company's claim proved to be correct by Dept. of Nutrition and dietetics of P.S.G College of Arts and Science.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The company continued to lay emphasis on strengthening and improving internal supervision and control. The Company has a proper and adequate system of Internal controls to provide reasonable assurance that all assets are safeguarded and protected against loss from unauthorized use or disposition, and that transactions are authorized, recorded and reported correctly. The internal control system provides for well-documented policies, guidelines, authorization and approval procedures. Management information system (MIS) is the backbone of your company's control mechanism. Well-conceived annual planning and effective budgetary control ensures adequate control on all the expenditures of the company.

An extensive programme of Internal Audit by the internal audit department and periodic review by the Management further supplement the Company's internal control systems. In the line with the International trend, planning and conduct of internal audit is oriented towards review of control in the management of risks and opportunity in the Company's activity.

The Internal Auditors report significant audit observations, periodically at regular intervals to the Audit Committee that comprises of three independent Directors. The Committee met regularly during the financial year and reviewed audit observation and followed up implementation of corrective actions. The Audit committee also met the company's Statutory Auditors to ascertain their views on the adequacy of Internal Control System in the Company.

FINANCIAL PERFORMANCE:

Despite difficult market scenario, erratic monsoon, tight money market and other factors viz fall in exchange rate company maintained its record of profitability and earned Rs 320 lacs as cash profit as compared to 291 lacs last year. During the year company's sales record a growth from 7854 lacs to 8046 lacs and EPS increased to Rs 1.80 from Rs 1.54.

Chaman Lal Setia Exports Ltd.

INDUSTRIAL RELATIONS & HUMAN RESOURCE MANAGEMENT:

Like any high performance organization, your company firmly believes that success of the company comes from good Human Resources. Employees are considered as important assets and key to its success. HRD always strives for sourcing and developing high caliber employees, providing them relevant training for enhancement of their competence and facilitating their assessment process through an effective performance Management System (PMS). Company aims to remain lean and dynamic in a continuing de layed structure.

Training and development initiatives aim at bridging the gap between existing skills and desired skills of the employees in line with organisational needs. Extensive training inputs aim at building up competence amid commitment to employees through understanding and utilizing new technology, hands on job training, inter functional knowledge, furtherance of safety awareness and training in behavioural area etc.

During the year company has incurred Rs. 3.53lacs on the training of its employees and Rs 52.34lacs on staff welfare & other provisions for the benefit of employees..

Employee relation continued to be satisfactory. The number of persons directly employed by the company was above 130 as on 31st March 2006..

The company continued with the existing welfare schemes for the benefits of its employees. The Provident Fund, Bonus, Promotion, Gratuity and other fringe benefits were bestowed upon all the confirm employees of the company to motivate them for attaining the ultimate goals of the company. In addition to these benefits Group Insurance, Medical Insurance and Retrenchment Compensation were also assured for the employees of the company.

In addition to these ultimate benefits, employees are also provided with better working environment, first aid medical facilities, conveyance facility and computerised environment.

CAUTIONARY STATEMENT:

Statement in this report on Management's Discussion and analysis describing the company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" are based on certain assumptions and expectations of future events. Actual results could differ materially from those expressed or implied important factors that could make a difference to the Company's operations include economic conditions affecting global and domestic demand supply, finished goods prices in the domestic and overseas markets in which the Company operates, raw material cost and availability, changes in Government regulations, tax regimes, economic developments within India and other factors such as litigation and Industrial relations. The company assumes no responsibility to publicly amend, modify ore revise any forward looking statements on the basis of any subsequent developments information or events.
