The Company achieved sales turnover of around 2 Million MT and Rs. 1921.28 Crores up 14% and 6.51%, from the previous year, respectively. The Profit before Tax of the Company is higher at Rs. 155.24 crores in 2001-02 compared to Rs. 126.92 crores in 2000-01 due largely to higher sales. The profit for the year has been arrived at after considering downward revision in the revised Provisional Retention Price of Gadepan I plant due to revision in consumption norms, re-assessment of capacity of Gadepan II, Interest claim based on the recent Govt. notifications, recognizing Internal Accruals as equity and the likely downward impact of 7th and 8th pricing periods on Gadepan I.

Profit after tax is lower than that of the previous year on account of the provision for deferred taxation made in accordance with the requirement of Accounting Standard 22 as prescribed by the Institute of Chartered Accountants of India. The provision for deferred taxation is applicable from the current year. The adjustment upto the previous year has been made in the General Reserves and Profit and Loss account, in line with the Accounting Standard 22.

2. Redemption of Preference Shares

Your Company had allotted 9.40% - 2,50,00,000 Cumulative Redeemable Non-Convertible Preference Shares of Rs. 10 each aggregating to Rs. 25 crores, to HDFC on private placement basis on May 31, 2000. These Preference shares were redeemed by the Company on January 31, 2002. The Company has created a Capital Redemption Reserve as required under the Companies Act, 1956.

3. Dividend

During the year the Board of Directors at its meeting held on January 16, 2002 approved the payment of interim dividend as per the fixed dividend rate of 9.40% on pro-rata basis on 2,50,00,000 Cumulative Redeemable Non-Convertible Preference Shares of Rs. 10 each. The outgo including dividend tax on this account was Rs. 2.16 crores.

The Board recommends dividend of Rs. 1.50 per equity share on 40,60,00,000 equity shares of Rs. 10 each (Previous year Rs. 1.40 per share). The total outgo on this account will be Rs. 60.90 crores. This year the dividend is taxable in the hands of the shareholders.

4. Retention Price

Gadepan - I

Urea price is regulated by the Government of India through fixation of uniform Consumer Price and Ex-Factory Retention Price for each manufacturing unit under the Retention Price Scheme. During the year, the Retention Price for Gadepan - I plant was accounted on the basis of Revised Provisional Retention Price which has considered the recent interim changes in the consumption norms effective 1st April, 2000 and further adjusted to the price escalation/ de-escalation of inputs and dual fuel facilities. The interest rate concession claim has been accounted based on the recent notification dated November 29, 2001, which extended the original scheme that had lapsed on December 31, 1998, until the final repayment of the loans.

As a prudent measure, the Company has accounted for the likely downward impact of the 7th and 8th Pricing Policy recommendations, being considered by the Government.

The Final Retention Price is expected to be finalized before the Price under 7th and 8th Pricing Policy is notified.

Gadepan - II

The Retention Price for Gadepan II plant has been

accounted on the basis of notified Ad-hoc Retention Price including claims for escalation/de-escalation of input prices, the recent notification on interim re-assessment of capacity of the plants effective April 1, 2000, in line with that of gas based plants and the recognition of Internal Accruals as Equity for purposes of calculating return on equity in the Retention Price. The Company does not expect significant financial impact of 7th and 8th Pricing on the Retention Price of Gadepan - II as it had started commercial production in October 1999.

With the finalisation of the current year's Accounts, the Company will be approaching FICC with the financial and technical data for 2 completed financial years in respect of Gadepan II so that the Final Retention Price for Gadepan II can be computed without further delay. The Company expects the Final Retention Price to be higher than what has been considered for the year under review.

5. Accounting Standards

The Institute of Chartered Accountants of India has introduced various Accounting Standards in the year under review, to make the financial statements and disclosures in line with the International accounting practices and disclosures. Most of these Accounting Standards are of mandatory in nature and the Company has incorporated them in the accounts accordingly.
