MANAGEMENT DISCUSSION AND ANALYSIS REPORT**FORWARD-LOOKING STATEMENTS**

Forward-looking statements are based on certain assumptions and expectations of future events. The Company cannot guarantee that these assumptions and expectations are accurate or will be realized. The Company's actual results, performance or achievements could thus differ materially from those projected in any such forward-looking statements. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

Chandra Prabhu International Limited is a well-known name in the trading of Coal, Synthetic Rubber & Chemicals for last many years.

DIRECTORS REPORT**Chandra Prabhu International Ltd.**

Over the years Chandra Prabhu International Limited has built a formidable reputation of being a completely professionally managed Company where customer-satisfaction is of paramount consideration.

The Industry: Opportunities & Threats.

Braving the recessionary trends India managed 6.7% economic growth in the year 2008-09. A 5.8% growth rate during the last quarter of the fiscal at a time when most developed economies have shrunk puts India among the top most growing nations. It is estimated that in the second half of 2009-2010 Indian economy will pick up. Further despite the economic slowdown the mining industry has registered growth in the fiscal which is positive indication for the company in coming future.

The trading activities of the Company can be broadly divided into four business segments i.e. Coal, Synthetic Rubber, petroleum products and minerals.

Coal has been recognized as the most important source of energy for electricity generation and industries such as steel, cement, fertilizers and chemicals are major sectors of coal consumption. As per "Indian Coal Industry outlook till 2012" a market research report by RNCOS, Coal requirement for the power utility will grow at a CAGR of around 10% during 2007-08 to 2011-12. Coal demand from the Indian cement industry looks bright and it is expected that coal requirement by the industry will rise steadily from 2007-08 to 2011-12 and coking coal requirement in steel production is expected to touch over 85.34 million tonnes in 2011-12.

India's synthetic rubber production is increasing marginally, but rising demand from auto tyre and non-tyre segment has led to higher imports. Consumption of Synthetic Rubber is expected to grow in the coming years on account of increasing demand in products of industries using it as ingredients. Further lack of substitutes and poor availability of natural rubber has led to higher demand for synthetic rubber.

Major player of the industries using coal and synthetic rubber as raw material have grown to significant size in the recent past and would play a dominant role ultimately in determination of your Company's future prospects.

Business Outlook and Overview:

In line with the objectives of Long-term growth, the Company is developing the strategic competency and enhancing its operational efficiencies. Our strategy is to strengthen business, where we have competencies and remain leaders.

The Company is aggressively strengthening its coal business by increasing its network and source of supplies. In addition of coal, synthetic rubber and petroleum products the Company has explored minerals as new product from the international market, as there is huge demand of Minerals required for production of high purity materials for use in electronics and other newly emerging technologies.

The overall performance of the Company depends largely on trading coal and imported synthetic rubber, the core of its business portfolio. Apart from strengthening its coal business, to gain competitive strength and consolidate customer relationship, the Company plans to foray in mineral in the future. The Company's subsidiary M/s South West Drilling & Infrastructure Ltd., is venturing in the field of coal mining and has entered into agreements/joint ventures with third parties during the year.

Internal Control Systems and Cost:

The Company presently has an adequate internal control system. The Company has an internal audit department headed by a senior executive of the Company. The Company has also appointed an external firm of Chartered Accountants for a continuous internal audit of the affairs of the Company and the reports are sent to the Directors of the Company.

At the branches, external firms of Chartered Accountants specifically appointed for the purpose of internal audit simultaneously audit all the expenses.

The company has undertaken an extensive exercise to control the overall cost and has finalised the expenditure budget for all the branches as well as the Corporate Office. All the branches/ regional offices of the Company have been given specific cost budgets in order to monitor the costs as well as to explore and finalise ways of cost reduction.
