CHAIRMAN'S MESSAGE

Dear Shareholders,

It gives me pleasure to come before you and share some of my thoughts on the working of your Company.

The year 2008-2009 was a year of mixed feelings of sweet and sour. During this year, Company's modern plant at Dudhwada was put on stream. With this plant, the Company is geared to separate the productions of Water Treatment Chemicals at one consolidated facility at Dudhwada while the entire manufacturing facility at Tarapur is now used for the manufacture of Surface Treatment Chemicals. A separate building at Dudhwada is exclusively producing the Construction Chemicals. This action has streamlined the raw materials and finished inventories while removing the bottlenecks of movement of materials within the plant.

Your Company has also acquired substantial shareholding in Protochem, a company engaged in the manufacture of surface treatment chemicals since the time that Chembond started its operations in early 70s. The acquisition of Protochem is being completed currently. This acquisition will provide a broad based market and synergy to our joint venture Henkel Chembond Surface Technologies Limited. This acquisition will also provide an additional manufacturing facility at Mahape, Navi Mumbai.

On the sour side, the profits have declined compared to the previous year. In fact, the year turned out to be a proving ground for the management because of the challenges thrown up by the slump in Indian economy and scaled down industrial production. I am happy to say that the management has been thoughtfully responsive and sensitive to the crisis and has garnered new business sectors to partially offset the reduced sales volumes.

These economic challenges continue in the current year, especially in the infrastructure sector. The Company's performance is somewhat encouraging though, at least on a sequential basis, and with the expected improvement in the economy, your Company is well poised to fare better.

Best Wishes

Vinod D. Shah

PERFORMANCE REVIEW

The year in review was a challenging one for your Company. It started off quite well. At the half year mark sales were growing by over 30 % and profits had more than doubled over 2007 - 08. Sales of construction chemicals were exceptionally strong during this period due to the ground work prepared over the past several years. Subsequent to September your Company was affected by the economic slowdown to the extent that the sales ended the year higher by only 16.1%. Particularly hit were sales to infrastructure and building projects and to the metals industry. This slowing coincided with the start-up of the new plant resulting in higher manufacturing costs, depreciation, and interest expenses. As a result of this your Company has recorded a decrease of 13.4% and 4.8% in Profits before Tax (PBT) and Profit after Tax (PAT) respectively over the previous year. The Earning per Share (EPS) decreased to Rs.16.01 as at March 31, 2009 from Rs. 16.81 at the end of the previous fiscal year.

Your Subsidiary Company, Chembond Ashland Water Technologies Limited which supplies industrial water treatment chemicals registered an increase of 25.20% and 13.13% in Sales and PBT respectively.

After several successive years of double digit sales and profit growth your Joint Venture Company, Henkel Chembond Surface Technologies Limited recorded a nominal 1.27% growth in sales for the year ended 31st March, 2009. Profits were however, lower by 23% due to Raw Material Cost increases and planned organisational expenses based on forecasted business gains which were affected by the slowdown.

DIVIDEND

Considering the results and the significant investments planned by your Company, your Directors recommend maintaining the dividend at Rs. 3.50 per Equity Share for the financial year ended 31st March, 2009. The total outflow on account of dividend and the tax thereon amounts to Rs. 12,284,000/- (Previous year Rs. 12,284,000/-). The Company has also transferred the amount of Rs. 5,000,000/- (Previous year Rs. 5,500,000/-) from its current years profit to Reserve account.

SAFETY, HEALTH, ENVIRONMENT, AND QUALITY (SHEQ)

During the year your Company has implemented a 5S program at its Tarapur plant and attained the third level by year end. This disciplined and highly effective process, which is followed by the leading manufacturing companies of the world, focuses on better plant maintenance, reduced wastage, and organized storage among other measures and results in higher morale, greater efficiency and a safer workplace.

Your Company follows an integrated SHEQ Management System under which all plants will be certified to the applicable standards. The Tarapur plant continues to be ISO 9001 and 14001 certified and is in the process of OSHAS certification.
