Our Values

We capitalize on our strengths by embracing the following values:

Stand by our words

We always keep promises - big or small. We work tirelessly to proactively address exceptional circumstances when we face challenges in keeping our commitments.

Valuing differences and respecting them

We are passionate about encouraging diversity and equal opportunity at Choice. We treat every person with respect and value his or her ideas and thoughts. We view constructive differences in opinion as learning opportunities and make decisions rationally.

Honour and develop expertise and apply it to uniquely benefit our customers

We value industry and functional expertise and recognize that our clients look to us to provide the best solutions. We make the investments needed to help our associates build and apply the expertise required.

Anticipate ideas and trends, not just follow them

Our success depends on our ability to innovate and outdo the competition. We think deeply about the new trends that impact our business and are not shy about developing new ideas and taking calculated risks to succeed in a rapidly changing environment. Being an early mover and anticipating trends are the keys to our success.

Recognize and fulfill our responsibilities to the communities around us

We are sensitive to the needs of the communities around us. We constantly look for ways to help them overcome challenges. Our contribution is an important corporate and individual priority.

Managing Director

Message from

Dear Stakeholders,

I am very pleased to present the 21st Annual Report of our company which contains a compilation of the financial performance of our businesses and a brief description of the values, beliefs and practices that shape our company.

The year 2013-14 was one of the most challenging for the Indian economy, with India's GDP growing below the psychological 5% level for the second successive year with high inflationary pressure, rupee dipping to life time lows with large current account deficit and indications of tapering by US Federal Reserve. Being a holistic Financial Service Company, this naturally impacted our business.

Even though the financial year continued to witness the constraints that have hampered the economy in last couple of years. On the positive side, our Company has done well, which in these turbulent times is commendable. Choice's objective is to accelerate a cultural shift to address significant opportunities. On the one hand, we verticalised the marketing function; on the other, we recognized that unless we worked with a high operating efficiency, it was likely that the objectives behind the verticalisation would not be achieved. We have the widest basket of products in India's financial services sector. What we are essentially doing is creating a product-specific company reaching deeper and wider into national pockets that commercial banks find difficult to access. In this product-specific company, what we are building is a distribution pipeline to the customer through which we keep pushing an increasing number of products.

Close to 40 percent of the SME segment's financial demands are met by informal sources of finance at a high cost. Based on a recent study, close to 43 percent of existing bank customers also count on informal sources of finance. CIL, through its distinctive proposition, robust underwriting model and processes coupled with strong monitoring methodology is targeting this segment. We expect significant growth in this segment in the coming financial year.

Capital Markets businesses have, over the last three years, seen a fundamental shift in industry structure; greater volatility has become order of the day and customers have become more discerning. We have transformed our Retail Broking business into an agile organization having low fixed costs and embracing technology in all aspects of its operations, thereby enabling it to benefit substantially during the cyclical upswings. The Retail Broking, Institutional Equities, Investment Banking and Wealth Management businesses have been brought under a common roof to help better utilize client, product and distribution capabilities of the businesses.

The demand for analytics professionals in the knowledge process outsourcing (KPO) centers across the country would grow exponentially in the coming years, "Today analytics has moved from the backroom to boardroom and is fuelling the demand for managers with analytical skills,"

The Company today is inundated with a talent pool eager to explore opportunities in various fields. We keep getting new business ideas and suggestions to expand our product portfolio. Each idea or proposal is meticulously evaluated. Entrepreneurship, innovation and initiative are the driving forces of your Company. Our aim is to stay ahead of competition and for that fresh ideas must keep coming. We realize the growing importance of technology and how in coming times it can emerge to be the key differentiation. Therefore, to stay ahead of competition our investment in training and knowledge acquisition is now being supplemented by investing in technology. Most of tomorrow's innovations will be technology-driven.

Before I conclude, I would like to express my gratitude towards all the stakeholders who have reposed trust in us and extended their constant support, the dedicated team of employees and the Board of Directors for their unwavering support and guidance.

We look forward to your continued support in our future journey.

Thank you,

Sd/-
