Your Directors are pleased to report that the Company has returned to profit earning operations. However, your Directors regret their inability to recommend any dividend, as it is very essential for the Company to conserve liquidity in order to be in a position to meet its payment commitments to financial institutions and banks on time.

2. OPERATIONS :

During the year under review, fleet earnings and charter hire receipts amounted to Rs. 105.73 crores against Rs. 82.96 crores for the previous year, showing a growth of 27.40% on the back of improved sentiment in the international freight market. The management exercised tighter control on operating expenses absorbing most of the cost escalations without significant increase in total cost.

During the year under review, international oil prices remained firm throughout the year giving a boost to the freight market, in the tanker as well as the bulk carrier sectors. The stronger oil prices led to aggressive movement of coal in the international cross trade and your company has been able to take full advantage of the firm freight market. With the continued firmness in the oil prices it is expected that the market will maintain its present firmness except for the usual seasonal variations.

Your Company is looking at various alternatives to restructure the fleet and reduce the debt burden with a view to improve operating profits and make the operations cost efficient.

3. LOAN REPAYMENT :

The Company has started repaying the loan instalments to IFC and ICICI as per the respective Re-schedulement Agreements. Loan instalments of DBS were also paid as per schedule. Total amount of Loan Repayments during the financial year amounted to Rs. 2109.11 Lacs. Your directors are happy to report that the Company has duly met all its financial obligations to the financial institutions and banks during the year.
