Number of Shares held in the Company	NIL
Relationship between Directors inter-se	NIL

MANAGEMENT DISCUSSION AND ANALYSIS

Economic Review

The Indian Economy on account of inflationary pressures coupled with rising interest rates experienced a lower growth in comparison to the previous years. The sensex witnessed a dip of 10% - 11% in comparison to the levels which prevailed at the beginning of the financial year. On the other hand, the price of Crude Oil did not experience such corresponding dips. India, being a large importer of Oil, suffered heavily and this along with various other negative macroeconomic factors resulted in significant depreciation of the Rupee vis-a-vis US Dollar. Over the financial year the Rupee has depreciated by about 20% - 25%. The ballooning trade deficit and the current account deficit also put significant pressure on the exchange rate. Adverse news from EU also affected growth in that market. In light of the above, RBI has taken the first step in cutting down key interest rates which are expected to help the Indian economy.

Chemicals dyes Industry

In view of the slow- down on the economic front the world over and its corresponding impact on chemical dyes Industry across the globe, the chemicals dyes business experienced very challenging conditions during the year. With high natural / synthetic prices and the slowing down in end-product demand, customers undertook production cuts at periodic intervals. This did impact the demand for chemicals dyes adversely. The resultant mismatch in supply and demand of certain key chemicals impacted their selling prices, resulting in pressure on margins. Cost increases on account of various inputs, aggravated the situation further. Despite this, your Company managed to retain its volumes at the previous year's levels.

Industry Structure and Developments

Your Company is engaged in the manufacture and sale of chemicals dyes and has its manufacturing facilities at Dombivali, District Thane and Khed, District Ratnagiri. The setting up of additional production facilities will enable your Company to capture a higher market share out of additional production volumes.

Business Outlook: Opportunities and threats

The Company is continually working towards achieving further improvements in the quality of its products as well as in technological and operational efficiencies of its manufacturing processes. It also strives to develop new products to improve its participation in the market and enlarge its product range. The company is also, through its strong research initiatives, engaged in developing new products which would meet the emerging needs of its customers and the environmental challenges of the future. The pricing scenario of chemicals dyes, accordingly, is likely to undergo a positive change with the reduction in the global supply position.

However, in the short term, due to the pressure of liquidating inventories and quick exit from chemical dyes business by some competitors, we are likely to experience unrealistic low prices from them. The Indian Government authorities have also justifiably imposed Anti-dumping duties and Safeguard Duty on certain key products, which to some extent, protects domestic pricing from dumped imports. Besides, your Company will continue to strive for improvement in the market share of chemicals dyes by optimizing the product mix and offering wide range of products to its customers.

On the other hand, the continuing aggressive export promotion policies of some countries, aided by the undervalued Chinese currency and the continued dumping of unrealistically priced chemicals dyes from China and some other countries into India, continues to remain a matter of concern as these may adversely impact our capacity utilization and margins.

Performance of the Year

The adverse business sentiments coupled with slowdown in the domestic chemical sector resulted in fluctuating demand for chemicals from key customer accounts. The continued dumping by our competitors further aggravated this situation. Despite this, we succeeded in maintaining our volumes more or less of the same levels as in the previous year. The turnover witnessed increase in value terms with an improvement in selling prices of some of our products. These were necessitated on account of steep increase in our input costs, which to some extent, we managed, to pass on to the customers. Our Export business too has not been able to witness any growth due to the uncertain and fragile nature of the economic situation in the developed markets, more particularly in the European markets.

25TH ANNUAL REPORT 2011-2012

Risks and concerns

Periodic assessment across the Company is undertaken to identify and thereafter prioritize significant risks. Owners are identified for all such risks and are assigned the responsibility to develop and deploy mitigation strategies. These are subjected to a review by the Board.

Financial performance – Operational performance

Summary of financial performance of the Company is presented below: (In rupees)

Net Sales and Other Income	Rs. - 1,23,03,89,738
Profit before tax	Rs. - 1,25,32,903
Profit after tax	Rs. - 85,22,787

During the year under review, the Company achieved a profit before tax of Rs. 1.25 crores as compared to Rs. 1.17 crores in 2010-11. The Sales Volumes increased by 10.26%. Thanks to an overall consistent operational performance coupled with well managed liquidity position. The current trend for rupee is in a weak mode and the overall economic sentiment does not appear very positive.

Internal control systems

The Company has in place adequate internal control systems commensurate with its size and procedures covering all the financial and operating functions. These have been designed to provide adequate assurance to the management regarding compliance with the accounting standards by maintenance of appropriate accounting records, monitoring the economy and efficiency of operations, protecting the assets of the Company from losses and ensuring the reliability of financial and operational information through proper compliance with the statutory enactments and its rules and regulations. Some of the significant features of the internal control systems and procedures are as follows:

Appointment of an independent consultant for conducting internal audit for reporting to the management and the Audit Committee of the Board, the adequacy and compliance with the internal controls and the efficiency and effectiveness of operations.

The Audit Committee of the Board of Directors, regularly reviews the findings of the internal auditors, adequacy of internal controls, compliance with the accounting standards, as well as recommends to the Board the adoption of the quarterly and annual results of the Company and appointment of auditors. The Audit Committee also reviews the related party transactions, entered into by the Company during each quarter.

Material developments in human resources

In view of the acute shortage of skilled human resources prevailing in the country, our focus during the year was on enhancing capabilities of our existing workforce. In order to ensure employee motivation and confidence level which would enable the Company to face the current challenges and seize future opportunities, various initiatives were taken. Necessary steps are taken to strengthen the areas in which the employees of the Company need improvement. The Company complies with all regulations pertaining to Safety. The Company continues to have an excellent track record in the area of Safety. The main objective is to achieve zero accident/ incident and safe working environment. Regular programmes are therefore held on safety awareness, fire fighting and first aid, apart from other development programmes. Industrial relations remained cordial during the year.

Cautionary statement

Certain statements in the Management Discussion & Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be 'forward looking statements' within the meaning of applicable securities laws and regulations. Actual results could differ from those expressed or implied. Important factors that could make a difference to the Company's operations include raw material availability and prices, cyclical demand and pricing in the Company's principal markets, fluctuating in forex rates, changes in Government regulations, tax regimes, economic developments within India and the countries in which business is conducted, and other incidental factors.
