MANAGEMENT DISCUSSION AND ANALYSIS

Business Overview

Industry Structure and Development

India has experienced rapid Growth in recent years. India's GDP grew at 8.1% , 8.4% , and 9.4% in fiscal 2005 , 2006 and 2007 respectively. In the current fiscal, Industrial growth was driven by robust performance from manufacturing, Constructions , Real estate sector and Services sector .

Entertainment Industry

The Indian entertainment industry has out-performed the Indian economy in last few year and is one of the fastest growing sectors in India.

The Indian Media and Entertainment sector is poised to enter a golden era. One of the largest markets in the world, the industry is seeing strong growth and has the potential to garner US\$ 200 billion by 2015. The eighth Price water house Coopers Global Entertainment and Media Outlook has ranked India as the fastest growing market in the world for spends in entertainment and media in the next five years. India will be one of the key drivers in pushing the global entertainment and media industry to US\$ 2 trillion by 2011. With a compound annual growth rate (CAGR) of 18.5 per cent, the Indian entertainment and media industry is the fastest growing in the Asia-Pacific, says the study. Another report, by PricewaterhouseCoopers shows that revenues across the Indian media and entertainment segment grew by 20 per cent in 2006 to US\$ 9.71 billion and the country's overall advertising spending grew by 23 per cent to US\$ 3.62 billion.

International media giants are all vying for a stake in the segment. In the last three years, US\$ 88 million of foreign direct investment (FDI) has flowed into the sector and in 2006, 13 FDI proposals were approved by the Government. The sector's growth is being propelled by a number of factors such as the corporatisation of the film industry, a booming television sector, a fast growing radio sector, a growing market for print products and other technological changes. India is ready to embrace and grow along with the changes the industry is undergoing globally.

Performance

Your Company has, in the previous years, changed the management and taken over by the new management. Therefore in the previous year there is no activity on operation side.

During the year under review, the Company has a total income of Rs. 11.47 lakhs as against Rs. 11.53 lakhs in the previous year. The Company has made an operating profit during the year of Rs. 2.30 lakhs, as against an operating loss of Rs. 67.51 lakhs for the previous year. However, owing to loss on sale of obsolete asset , the loss after depreciation and taxation for the year is Rs. 49.89 lakhs; as against a loss after depreciation and taxation of Rs. 108.12 lakhs for the previous year.

The new management has decided to completely restructure the operations of the company. The first step in this direction was to discontinue all un productive expenditure and overhead with immediate effect. Though the

21st Annual Report

period under the review with new management is less than half year we have been successive in bringing down administrative & General expenditure to Rs. 903681/- (previous year 7570981/-) . This should be further down during current year. The management has decided to keep overhead to bare minimum till a new business plan with identified revenue streams is in Place.

Outlook

The Indian Entertainment and Media Industry has out-performed the Indian economy and is one of the fastest growing sectors in India. It is rising on the back of economic growth and rising income levels that India has been experiencing in the past years. This is significantly benefiting the entertainment and media industry in India as this is a cyclically sensitive industry and it grows faster when the economy is expanding. An added boost to the entertainment and media industry in India is from the demographic point of view where the consumer spending is rising due to increasing disposable incomes on account of sustained growth in income levels and reduction of personal income tax over the last decade.

The current size of the industry as a whole is estimated at US\$ 7 billion in 2004 and is expected to grow at a CAGR of 14 per cent to US\$ 13 billion by 2009. The Filmed Entertainment and Television segment dominate the industry followed by the Print, Radio and the Music segments.
