MANAGEMENT REVIEW: 2005-06

Industry Structure and Developments

The domestic pharmaceutical industry in India grew at more than double the rate, recording a 11 per cent growth in value as per ORG-IMS, compared to 4.2 per cent during 2004-05. As expected, it was a year of consolidation, mergers and acquisitions. Several international pharmaceutical companies established and strengthened their presence in India.

Performance Review

For the first time, the Company's turnover crossed the Rs.3,000 crore mark. At Rs.3,019.68 crore, sales recorded a healthy 30 per cent growth over the previous year. Once again, this was way above the overall growth rate of the industry.

Exports continued to do well and at Rs.1,513.64 crore contributed 50 per cent to the overall sales of the Company. Cipla now exports to nearly 170 countries in Europe, Australia, Africa, Asia, the Middle East, and North, Central and South America. Technical know-how/ fees received during the year amounted to Rs.41.56 crore.

The Company continued with its successful strategy of working through partnerships and strategic alliances in order to sustain its expansion in international markets.

The overall net profits of the Company grew by 48 per cent and stood at Rs.607.64 crore. This was mainly on account of improved product mix, optimum utilisation of tax benefits and higher non-operating income.

The Company's steady progress won it the Express Pharma Pulse Award for "sustained growth" for the year 2005-06. Cipla is one of the handful of companies in India that has consistently increased its turnover and profitability over the past 15 years in a row.
