CATALYSTS
OF CHANGE

To grow you need to adapt to change.
To adapt to change, you need to be responsive. And alert.
Colour-Chem has promoted change.
From the beginning.
And grown.

In the late fifties, we pioneered the production of organic pigments in India. The need to become globally competitive saw us enter into collaborations with Hoechst AG and Bayer AG. We broadened our product portfolio to tap the opportunities various industries offered. We spread our operations beyond India by setting up a joint venture in Sri Lanka in the eighties. In the nineties, our efforts were geared towards making Colour-Chem a market-driven organisation.

Today, after forty years, we are a multi-faceted enterprise.

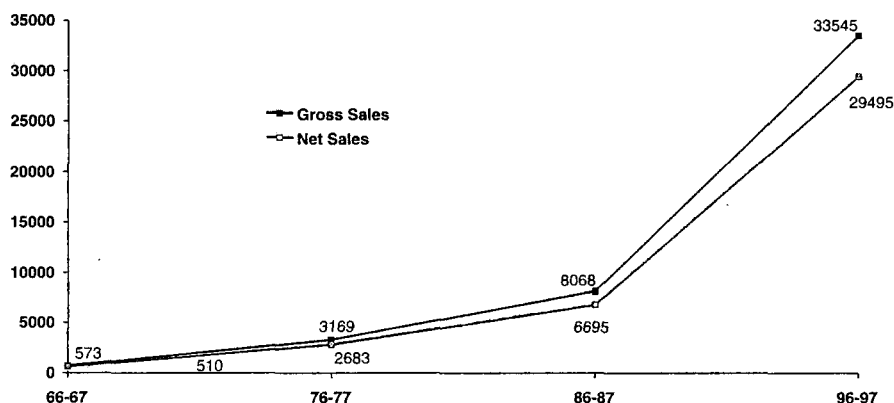

Initiating changes.

Setting the pace.

And leading the way.

SALES BREAK-UP

Our business has been shaped by the needs of the marketplace. Today, we are one of India's leading Specialty Chemicals companies.

Our core business areas include:

Chemicals and auxiliaries for leather: Synthetic tanning agents, fatliquors, binders and colours, auxiliaries and finishes to treat leather from raw hide to finished leather.

Organic chemical intermediates: For agrochemicals, pharmaceuticals and dyestuffs.

We also manufacture dyestuffs for textiles: Pigment emulsions, reactive dyes, disperse dyes and dope dyes for rayon.

Our indenting arm offers a wide range of industrial products manufactured by Hoechst AG and its associates worldwide.

And, our thrust on exports has reaped us rich dividends and contributed to India's foreign exchange earnings.
