#### **Dividend**

In view of the accumulated losses, your Directors regret their inability to propose any dividend for the year under report.

#### **Operations - Plantations**

##### **Rubber Estates**

The Rubber crop harvested during the year was 986 MT compared to 1040 MT during the previous year. The crop was lower by 54 MT owing to reduction in planted area consequent on replanting of older and uneconomic areas. The weather was also not conducive for an increase in production.

The Company also purchased field latex/cenex from the market for better utilization of existing processing facilities on Estate and to fulfill the orders on hand. The quantity purchased during the year was 259 MT against 205 MT in the previous year. The market was generally steady during the year with a marginal

drop in price realizations. The wage arrears amounting to Rs. 56.49 lakhs pursuant to retrospective increase in wages with effect from 01.04.2002 has been paid and charged during the year. This coupled with increase in cost of all the inputs required for production has eroded margins.

Kinalur Estate continues to be mired in legal problems as the prospective buyer Mr. P.K.C. Ahamedkutty failed to make payment despite several promises. The Receiver appointed by the Hon'ble High Court earlier continues to have constructive possession of the Estate. Meanwhile, the Company has approached Hon'ble High Court of Kerala for cancellation of MOU with Mr. P.K.C. Ahamedkutty and forfeiture of advance paid by him and to permit the Company to sell the estate afresh and the same is pending.

The Writ Petition filed by the Company before the Hon'ble High Court, Chennai against the order of Debts Recovery Appellate Tribunal, Chennai in connection with the auction sale of Sampaji Estate is still pending.

### **Tea Estate**

The production of Made Tea has gone up to 396 MT during the year compared to 74 MT of Made Tea and 542 MT of Green Leaf of the last year. The improvement achieved is not adequate enough as the year ended with operating loss. However, with various developmental works under way, the results would improve in due course. Your Directors are pleased to report that Pullikanam Estate won the Flavours of India - Tea Testing competition awards for both the eligible grades.

### **Other Divisions**

Fire Engineering Division : The Office premises at Mumbai with furniture, fixtures, fittings and all other assets have been sold during the year.

Aqua Culture Division : Pursuant to approval obtained from the Members of the Company, two Aqua Culture Ponds with all equipments, accessories and assets were sold during the year. However, one Pond was given on sub-lease upto March 2008 and the lease has not been renewed after April 2008. Efforts are on to lease out this Pond.

Rubber Wood Factory : This factory continues to be non-operational during the year as the ban imposed by the Forest Department earlier has not been withdrawn as yet. The Company has made fresh representation to the Forest officials for withdrawal of the ban imposed as the same is not applicable for processing Rubber Wood.

### **Prospects**

The Rubber market has begun with uncertainty. The Rubber price, which was generally steady and stable during the previous year, has started moving up from April onwards in line with up-trend in Crude oil prices. The bench mark RSS-4 is hovering around Rs. 135/- per kg. at present, which is significantly higher than that of the last year. At the same time, there has been meteoric rise in the cost of all the inputs required

by the plantation and huge increase in workers' wages is under negotiation. However, it is expected that if the prices hold for the rest of the year the Rubber Division should turn out better results barring unforeseen circumstances.

The replanting programme on Chemoni and Pudukad Estates is being implemented in a phased manner as planned earlier to improve the yields. With replanted areas coming into bearing, the crop is expected to improve in the years to come.

Developmental works undertaken on Pullikanam Estate are continuing. In the factory, installation of a new CTC Machine with larger capacity is in progress, besides conveyerisation and other improvements. The Company has taken up ambitious replanting programme and 60 acres of old and uneconomic yielding area has been replanted with high yielding clones during the year. All these measures are expected to improve the quality of teas and the yields in next few years when newly replanted areas come into bearing.

Rubber crop for the year has been estimated at 1200 MT and Tea crop at 420 MT during the ensuing year.
